WORST YET TO COME.

TAFT'S LEAD GAINS WITH LATE RETURNS.

Electoral Vote Is Estimated at Three Hundred and Twenty-seven.

Figures Change About Hourly and Number of States May Still Be Changed but Colorado, West Virginia, and Montana Are Disposed of, Maryland Vibrates Uncertainly, and Missouri Is Doubtful.

BY WALTER WELLMAN.
[BY DIRECT WIRE TO THE TIMES.]

CHICAGO, Nov. 4.—Taft 327, Bryan 156. This is the way the electoral college stands by the latest returns.

The figures have been changing about almost hourly. For a long time Colorado was in doubt, but finally settled down in the Bryan column. Montana wobbled from one side to the other in the earlier returns, but is at last safe for Taft. So with West Virginia. Claimed by both parties, the Taft plurality, while small, now seems beyond dispute.

Maryland has again distinguished herself as the dearest State in the Union. Four years ago Roosevelt got one elector there by 51 votes. At 10 o'clock tonight Maryland was reported for Bryan by 282. At 11 o'clock the pendulum swung the other way, and Taft had a plurality of 149. It is apparent the official count will be required to decide, and it is possible the electoral vote may be again divided. Bulletins from Missouri indicate that the State is for Taft. Hadley (Rep.) is elected Governor.

DEMOCRATS WIN GOVERNORS.

The Democrats have been unusually successful in winning Governorships in Republican States. Harmon carries Ohio, Marshall wins over Watson in Indiana, Gov. Johnson is reelected in Minnesota, and the Governorship contest in Michigan is very close, and undecided.

In view of their losses of the Governorships in Ohio and Indiana, and of the Legislature in the latter State and possibly also in the former, the Republicans count themselves lucky to have saved the Presidential electors in both States by relatively small pluralities.

The new Indiana Legislature is Democratic, and it is expected Mr. Kern is to have his disappointment over loss of the honor of presiding over the United States Senate softened by the gain of a seat in that body as successor to Senator Hemenway.

The Legislature of Ohio and Kansas, both involving United States Senatorships, are in doubt.

Taft has carried twenty-nine States, and Bryan seventeen. The only States in the Bryan list, outside of the "Solid South," are Nebraska, Colorado and Nevada. Bryan has carried the same number of States he carried in 1900, but they are not all the same States.

FIRST RUN, BEST ONE.

Bryan's first run for the Presidency, in 1896, was his best one. He did not do nearly so well in 1900, and this year is not quite up to his first mark.

The history of the shifting States in the Bryan era of our political history is exceedingly interesting.

States which Bryan carried in 1896 but failed to carry in 1900—Kansas, Nebraska, South Dakota, Wyoming, Utah, Washington. Lost in 1896 (all but one electoral vote) but carried in 1900—Kentucky.

States carried by Bryan in 1900 which Parker failed to carry in 1904—Missouri, Colorado, Idaho, Montana, Nevada. Lost by Bryan in 1900 but carried by Parker (all but one electoral vote,) Maryland.

States carried by Bryan in 1908 which Parker did not carry—Nebraska, Nevada. Lost by Bryan but carried by Parker—Maryland.

In all his battles Bryan has been opposed by the business interests of the country.

"Of course, no man can be elected President of the United States who lacks the confidence of the business men of the country."

These words, spoken a few days ago by one of the most prominent Democrats of the East, give perhaps as good an explanation of Taft's great victory as we are likely to get.

Bryan passes. He has run his wonderful career. He comes to the end of his string as leader of his party with the respect of all the people. But it is the end, just the same.

MISSOURI KEEPS TOTAL DOUBTFUL.

[ASSOCIATED PRESS NIGHT REPORT.]

NEW YORK, Nov. 4.—Returns received up to a late hour tonight indicate that William H. Taft of Ohio, as President-elect, will have a vote of 309 in the Electoral College. This is within sixteen votes of the forecast made by National Chairman Frank Hitchcock, and sixty-seven more than a majority of the total electoral vote of 483.

If Missouri votes for Taft, his total may reach 327. News of the late returns indicate that Maryland, after vacillating during the day and apparently being safe for the Democrats, has been swung into the Taft column. The unofficial figures give Taft the State by 136 votes.

Indiana and West Virginia, as well as Montana, turned out to be safely Republican. Colorado is for Bryan.

If Missouri, which late developments place in the doubtful column, goes for Bryan, he will have a total of 174 votes, two less than he received in 1896. In 1904 Parker received only 140 votes; in 1900 Bryan received 155 votes, and in 1896 he got 176 votes.

NEW YORK.

GOTHAM REPUBLICANS DAZED BY VICTORY.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, Nov. 4.—[Exclusive Dispatch.] Incomplete election returns indicate a plurality of more than 70,000 for Gov. Hughes. Chanler had a plurality of 60,388 in Greater New York, but the Governor came down to the Bronx with more than 130,000.

Political experts are dazed by the result. They find much to interest and puzzle them today in the election returns from New York City, and especially in Manhattan and the Bronx, where Bryan got a plurality of 6802 and Chanler 49,595.

They find, first, that Gov. Hughes lost heavily in the strongest Republican districts, and that Bryan ran poorest in the strong Tammany districts. This led to the report that Tammany had "knifed" Bryan, while the Republican organization men had done the same thing to Gov. Hughes.

Under the slogan, "I sold you so," it was ratification day in Republican circles today. Timothy L. Woodruff, chairman of the Republican State Committee, gave evidence of being the happiest man in New York City, his satisfaction being based chiefly on the fact that Kings county, shattering precedent, had given to William H. Taft a substantial plurality.

At national headquarters, Frank H. Hitchcock, chairman of the Republican National Committee, was bombarded with congratulations. Blushing modestly, but evincing his supreme happiness, he expressed his gratification over the national and State victories.

Mr. Hitchcock announced that he would leave for Chicago during the later days of the week, and, after winding up the stray ends of the campaign work there would meet Mr. Taft at Hot Springs, Va.

Mr. Hitchcock also stated that within a week the list of all contributors to the Republican campaign fund would be given out for publication.

"Of course," said Mr. Hitchcock, "we are not bound to publish anything, but Judge Taft has stated that the list of all contributors would be made public, and he intends to stand by that statement. We will compile and give out the name of every person who has contributed to the campaign fund, from the man who turned in a postage stamp to the man whose contribution ranged into the thousands of dollars. We intend to throw our books open to the public absolutely. There will be information, too, as to how money was expended. This has been a people's campaign, and the people are to understand how their contributions were expended."

It was pretty generally agreed today by the few Democratic leaders who remained in the city that William J. Bryan never again will be the standard-bearer of his party.

"I am satisfied," said Norman E. Mack, Democratic national chairman, "that Mr. Bryan never again will seek the nomination for the Presidency. I do not think he ever expects to again be the nominee. My opinion is that he will be elected to the United States Senate, and if he is, he will be the best Senator the country has had in a generation."

William J. Connors, chairman of the State Committee, started for Buffalo this morning.

"There isn't much to be said," he declared. "We got licked, and licked good. I don't think any one will deny that. However, we'll come back again. The Republicans scared the voters into the belief that the election of Bryan meant disaster and ruin. I did not think they could do it. I am willing to admit now that I am a pretty bad prophet, and I rather think I shall quit prophesying in the future and attend to business."

OKLAHOMA HIT HARD.
BOTH PARTIES CLAIM STATE.

[BY DIRECT WIRE TO THE TIMES.]

GUTHRIE (Okla.) Nov. 4.—[Exclusive Dispatch.] Both the Democratic and Republican State organizations are claiming Oklahoma for their Presidential candidate. State Republican Chairman Joe Norris said tonight:

"It is still a horse race in Oklahoma with the odds in Taft's favor."

These Republicans were elected to Congress: First district, Bird S. McGuire, 3100 majority; Second district, Dick T. Morgan, 2100; Third district, Charles E. Creager, 1000.

Republicans gained heavily in both branches of the Legislature, some leaders claiming a majority on joint ballot to elect United States Senator Gore successor. Gov. Haskell concedes forty Republicans elected to the House and ten to the Senate.

Returns indicate the election of William Reynolds (Rep.) State Corporation Commissioner, and J. T. Dickinson (Rep.) Supreme Judge.

The oil district and Choctaw tribe went Republican. Indications are to-

NAT GOODWIN TO WED SATURDAY?

FRIENDS THINK ACTOR HAS WON MISS GOODRICH AT LAST.

Report Has It That He Purchased Ring Yesterday—Romance Exciting Any Stage Production Includes Race Over Europe and Across the Seas, and Rivals.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, Nov. 4.—[Exclusive Dispatch.] The attentions of Nat C. Goodwin, player, mining promoter and publisher, to Miss Edna Goodrich, at one time his leading woman, have become so marked that their friends easily accepted a report that the two were to be married on Saturday.

It was even said that Mr. Goodwin purchased the wedding ring today and that Miss Goodrich would make the news of her betrothal public tomorrow.

Mr. Goodwin would make neither a denial nor an affirmation tonight. He is at the Plaza and in the afternoons is busy rehearsing at Wallack's in "Cameo Kirby." Seen shortly after he had left the theater, he said:

"Nothing to say now. If I did you would know it."

Elsewhere it was learned that Mr. Goodwin had told his most intimate friends that if he were ever to marry Miss Goodrich, she would be the one to break the secret. Miss Goodrich could not be found tonight, though it was ascertained that she took dinner with her reported fiancé.

It was reported that they had planned to retreat to some out of the way village where the marriage ceremony might be performed without ostentation or publicity.

The triumph of the comedian in winning the former Florodora singer would be the climax of a romance more complicated than any which he ever helped portray upon the stage. His wooing, it is said, has led him from one European capital to another, then across the Atlantic and to the shores of the Pacific.

At times the thread of the plot seemed irretrievably snarled by rival suitors, one of whom at one time was reported to have completely ousted Goodwin from the caste. This was Harry McMillan, the Goldfield millionaire. But McMillan suddenly went back to Nevada to dig more gold. His exit marked the entrance of Goodwin.

It was also learned tonight that Miss Goodrich had become interested financially in various mining properties which Mr. Goodwin is exploiting in Nevada. She has told her friends that she believes Nat is bound to be rich because he is as persistent in mining as in love-making.

FIGHT OVER ELECTION.

Two Men Aboard Collier at Mare Island Have Serious Physical Argument.

[ASSOCIATED PRESS DAY REPORT.]

VALLEJO, Nov. 4.—Following a hot discussion over yesterday's election aboard the collier Prometheus at the navy yard today, Thomas Collins and Charles E. Crane engaged in a fight. Crane was thrown to the deck with such force that he sustained concussion of the brain. He was given treatment at Mare Island and then taken to a hospital in this city.

The naval authorities will make an investigation, pending the result of which Collins is under arrest here. This is the first trouble in town over the election.

NARROW MARGIN.

TAFT AND HADLEY LEAD IN MISSOURI.

[BY DIRECT WIRE TO THE TIMES.]

ST. LOUIS (Mo.) Nov. 4.—[Exclusive Dispatch.] Complete official and unofficial returns from every county in Missouri give Taft sixty-seven plurality in the State. Complete returns from all Missouri counties, official and unofficial, give for Democratic nomination for United States Senator, William J. Stone, 127,082; Folk, 111,087. Complete returns from all counties for Republican nomination for Senator give John C. McKinley 59,650; R. C. Kerens, 44,090; John Kennish, 13,262.

The Legislature is in doubt. The Republicans claim it by a majority of three, the Democrats by a majority of four on joint ballot. The Republicans lost a Senator in St. Louis and another at Kansas City, but the returns indicate that they have carried the Twenty-seventh Senatorial District, of which Cole county is a part, and the Fifteenth Senatorial District, of which Pettis county is a part. The last district is certainly Republican, the Twenty-seventh may be.

Col. Bill Phelps of Carthage, famous railroad attorney, who knows Missouri politics like a book, said tonight that the Democratic State ticket is defeated without a doubt. Chairman Harry M. Rubey still held onto the claim that Cowherd will pull through, although Hadley is leading him nearly 15,000 votes. The other candidates on the Democratic State ticket, although several thousand votes ahead of Cowherd, who trailed both the State and national tickets, have little hope of winning.

John A. Knott, railroad and warehouse commissioner; William R. Painter, candidate for Lieutenant-Governor and John P. Gordon, industriously juggled figures tonight at Democratic headquarters but received no comfort from it.

Cowherd conceded his defeat early today but backed up on the statement when his friends about the State headquarters complained to him.

One of the things which Republicans fear is that the old guard in its desperate attempts to save Cowherd, its favorite, may tamper with the ballot in counties where no returns have been had, Hadley's friends in St. Louis think this, and today they took the matter up with Chairman Dickey and it was decided to issue strict instructions to Republican watchers to keep their eyes upon the ballot boxes until the vote is officially announced by the county clerks of the State.

Republican Congressmen have been elected from the Tenth, Twelfth, Thirteenth and Fifteenth districts. Republicans are probably elected from the Fourth, Fourteenth and Sixteenth districts. The Third district is in doubt.

OUT OF HARNESS.

DR. ELIOT RESIGNS AS HARVARD'S PRESIDENT.

[BY DIRECT WIRE TO THE TIMES.]

BOSTON, Nov. 4.—[Exclusive Dispatch.] Charles W. Eliot today resigned his office as president of Harvard University, to take effect May 19, 1909, the fortieth anniversary of his election to the position. The resignation was "regretfully accepted" by the Fellows of Harvard, to whom it was addressed October 26, but no word of the action was made public until today, when the overseers of Harvard met in this city. President Eliot's letter of resignation was as follows:

"To the President and Fellows of Harvard College: Gentlemen, I hereby resign the office of president of Harvard University, the resignation to take effect at your convenience, but not later than May 19, 1909.

"The president's intimate association with the other members of the corporation in common service to the university is one of the most precious privileges of his highly privileged office. For this association with the fifteen friends who are dead and the seven who are living, I shall always be profoundly grateful.

"Congratulating you on your labors and satisfactions in the past and on the sure prospect of greater labor and satisfaction to come, I am, with high respect,

"Your friend and servant,
"CHARLES W. ELIOT."

Oct. 10, 1908.

The announcement of Dr. Eliot's resignation came as a complete surprise to the Harvard undergraduates and alumni and caused a sensation among them and among the public generally, for he is, in many respects, the foremost citizen of greater Boston.

What cause impelled President Eliot to resign is not known. He declined today to see newspaper men and his secretary said he could not discuss the subject. It is presumed, however, that Dr. Eliot's age—he will be 75 next March—led him to consider whether it would not be best for him to retire at the end of his fortieth year as head of the university.

There is a suggestion that President Eliot is displeased because the corporation has not fully supported his extreme views in regard to athletics, but this is not considered seriously by men familiar with Harvard affairs. One of the Fellows of Harvard, speaking of that body, today, said:

"I knew that President Eliot contemplated resigning, but personally I have not heard any specific reason advanced. Of course, it must be remembered that President Eliot is very close to his seventy-fifth birthday, and has served the university about forty years. That, on the face of things, would appear to be adequate cause. I don't know that President Eliot has given any reason or that he will, but it is fair to assume that he feels that he has done his share of work and that he has reached an age when it is natural for a man who has led an active and influential life to lay aside responsibilities and take matters easy."

ACUTE CRISIS.

DEMANDS APOLOGY.

Germany in Dispute With France.

Situation Arising from Arrest of French Deserters Extremely Grave.

Kaiser's Agent Protecting Unfaithful Soldiers When They Were Taken.

Ambassador Cambon Tenders Resignation, but It Is Refused.

[BY DIRECT WIRE TO THE TIMES.]

PARIS, Nov. 4.—[Exclusive Dispatch.] France finds herself today in an acute crisis with Germany over the question which she believes Chancellor Von Buelow has raised to cover the recent humiliation of the German Foreign Office. The situation is so grave that M. Cambon, the French Ambassador at Berlin, tendered to President Falliéres tonight his resignation, which, on Prime Minister Clemenceau's advice, has been refused.

The dispute arises from the arrest on September 25 of six soldiers of the French foreign legion in the act of desertion. Two of them were German subjects and an agent of the German Consul at Tangier was conveying them on board a German vessel when the party was seized by order of Gen. D'Amade, the French commander. The deserters are now in the French prison at Casa Blanca.

The German government proposed, through Ambassador Cambon, on October 14, that the question be referred to The Hague tribunal, but since the date of the published interview with the Kaiser the attitude of the German government has changed. It now declares that only the judicial question of France's right to arrest foreign deserters when under the protection of consular agents can be arbitrated. Germany declares, moreover, that the French government must first apologize to the Consul for the violence done his agent and liberate the two German subjects before arbitration is accepted.

M. Pichon, Minister of Foreign Affairs, has replied that France accepts only complete arbitration on questions both of law and fact, and that France refuses to liberate the imprisoned deserters or apologize to the German Consul. The sudden forcing by Germany of the case of the Casa Blanca deserters on France was the sole topic of conversation this evening in the lobbies of the Chamber of Deputies, where the friends of M. Clemenceau declared that the Premier had decided finally to make no further concessions under Chancellor Von Buelow's menace.

The French press treats the event as being of the foremost importance, overshadowing the American elections and the Turkish crisis. The universal opinion is that the German Foreign Office, angered at other entanglements, is resorting to the old practice of wreaking its wrath on France. This is the first time such an attempt has been made since M. Clemenceau became Prime Minister.

WORLD FAVORITE.

EUROPE JOINS IN REJOICING.

Foreign Capitals Renew Old Confidence.

Taft's Election Increases Our Prestige.

Result Expected, Waited for Anxiously.

[ASSOCIATED PRESS NIGHT REPORT.]

LONDON, Nov. 4.—The press of London regards the election of Taft as a matter for general and world-wide congratulation, as it "insures the continuance of a policy" which has been greatly approved in England.

"The policy which Mr. Taft has inherited," points out the Evening Standard, "is in a large measure accountable for the leap to the front made by America in recent years, and her present position as a power among the powers is due to an unusual extent to Mr. Taft's labors in close alliance with President Roosevelt.

The completeness of the Republican victory was hailed on the Stock Exchange with a great deal of satisfaction, and calculated to have a good and lasting effect on the markets here and to give additional impetus to the already improving trade conditions. Bankers see in the result of the elections the probabilities of the continuance of cheap money and continuance of discount rate of the Bank of England at 2½ per cent., and they consider that with money so cheap in the United States, as well as in most of the financial centers, London will get through the year without anything higher than a 3 per cent. bank rate, should any increase occur.

GERMANY EXPECTED IT.

[ASSOCIATED PRESS NIGHT REPORT.]

BERLIN, Nov. 4.—Extra editions of newspapers announcing the election of William H. Taft as President of the United States, were circulated here at 7:30 o'clock this morning. Exceptional interest was taken in the results on account of the presumed effect of the election on the business situation in the United States. The result had been generally forecasted in the German press, the Foreign Office having been informed by the German Embassy at Washington and consular offices throughout the United States that Mr. Taft's election was extremely likely.

The Berlin bourse opened generally firm today and fractionally higher, in consequence of Taft's election and upon the advices from New York and London.

PARIS PLEASED.

[ASSOCIATED PRESS NIGHT REPORT.]

PARIS, Nov. 4.—The generally good impression upon financial sentiment in this city produced by the election of Taft has been more than offset, at least temporarily, by the renewed anxiety over the attitude adopted by Germany in the matter of the Casa Blanca incident. This is the case of the desertion of several Germans who had enlisted in the foreign legion of the French army. Germany asked arbitration for the question of international law involved in the right of Germany to protect her subjects who had enlisted in the foreign legion and who subsequently deserted. France accepted this proposal provided that the arbitration should cover the question whether or not Germany inspired the desertions in question. Germany refused this counter offer and Pance has declined to modify her attitude. This situation created alarm on the bourse this morning, which opened excited and lower, but a gradual calmness settled. The usual measure of calling the German Federal Council together to consider the political situation continued to hang over the market. The conviction, however, that Taft's election means a resumption of prosperity in America with the consequent reflection in Europe turned prices upward in the middle of the session.

The Bourse weakened again at the close on the rumor that Germany had demanded the recall of the French Consul at Casa Blanca. No confirmation of this report, however, could be obtained.

An official statement made public this afternoon sets forth that France intends to insist firmly upon arbitration both in the matter of the law and the facts in the Casa Blanca incident. She will make no apology for the actions of the French officers at Casa Blanca unless the arbitrators decide that an apology is due.

Little comment is made in the Parisian papers on the Presidential election. The election of Mr. Taft has been thought certain here and in general the newspapers consider that the result shows that the time for a reaction against a world policy has not yet come.

AUSTRIA WELCOMES NEWS.

[ASSOCIATED PRESS NIGHT REPORT.]

VIENNA, Nov. 4.—A majority of the Austrian newspapers welcome the election of Mr. Taft as a promise of a cautious and progressive administration.

POPE'S CONGRATULATIONS.

[ASSOCIATED PRESS NIGHT REPORT.]

ROME, Nov. 4.—The election of Taft has produced general satisfaction here. The general opinion is that Mr. Taft's election will mean a continuance of stability and a revival of business. In view of this belief many Italian laborers expect to emigrate to America.

The Pope has cabled his congratulations to W. H. Taft whose election to the Presidency is thought to guarantee the acceptance of the Pope's proposals in the matter of compensation to the religious congregations of Porto Rico.

JAPAN UNANIMOUS.

FRIENDLY TO TAFT.

[ASSOCIATED PRESS NIGHT REPORT.]

TOKIO, Nov. 4.—The news that Mr. Taft had undoubtedly been elected reached this city through the Associated Press at 9 o'clock this morning and was at once communicated to the Foreign Office, where it was received with manifestations of liveliest interest. The Japanese newspapers of the city issued extra editions announcing the result of the election in America, as soon as it was known, and displayed bulletins giving the general returns as rapidly as they were received.

The business men everywhere throughout Tokio and Yokohama express the belief that the result of the American election means that the friendly relations between Japan and the United States will be continued.

The newspapers today all contain editorials commenting upon the result of the election. The Kokumin, which is credited with representing the views of Premier Katsura, says:

"The world must be congratulated on the election of Judge Taft who, because of his world-wide experience, will probably prove to be the ablest President America ever elected."

The Ji-Ji Asahi, the latter publishing

The Hochi, an opposition paper, discusses Judge Taft at length in a laudatory character sketch. It says:

"The election of Taft means peace, righteousness of government and recognition by the people of the United States of the value of the policies inaugurated by President Roosevelt."

The paper recalls Taft's visit to this country and the speeches he made while here, which it says were consistently friendly toward Japan and indicative of a broad policy toward the whole Far East.

ENTHUSIASM IN MANILA.

CABLE CONGRATULATIONS.

[ASSOCIATED PRESS NIGHT REPORT.]

MANILA, Nov. 4.—The news of the election of William H. Taft to the Presidency of the United States was received with the greatest enthusiasm by all classes throughout the Philippines. The first message indicating his victory came from the Associated Press in New York, and the first definite news that Hughes had been reelected Governor of New York, and the political complexion of Congress had not been changed, was from the same source. The progress of the count as bulletined throughout the day was sent to many points in the islands, and was followed with close attention. At night crowds gathered at the operahouse and at the university and Army and Navy clubs, listening to the reading of the latest dispatches. All bulletins received here were flashed by wireless telegraph to the ships of the American fleet in Manila Bay and at Olongapo. Gov.-Gen. Smith, the Philippine Commissioners, and scores of personal friends have cabled their congratulations to President-elect Taft. The political fortunes of Gov. Hughes have been followed with the keenest interest, and his victory is received with satisfaction.

It has been announced that Judge Taft will come to the Philippines on a visit while he is President.

DR. ELIOT RESIGNS.

(Continued From First Page.)

With the retirement of President Eliot so near at hand, there is already active speculation as to his successor, the first name mentioned in that connection being that of President Roosevelt, but of his choice there is said to be not even a remote chance. Some time ago, when there was talk of Mr. Roosevelt as future president of Harvard, he said in the most positive way he would not accept the position and the Harvard corporation so understands his attitude.

Several men are mentioned as possible successors of Dr. Eliot, the most prominent among them being Prof. A. Lawrence Lowell, Dean Le Barron R. Briggs of the Radcliffe faculty and James J. Storrow, chairman of the Boston School Committee, a Harvard alumnus who has become a leading business man in a few years.

It was said today that the corporation of Harvard has as yet made no steps toward choosing President Eliot's successor and will not for some weeks. The election will be by the overseers and must be confirmed by the Fellows.

MILLION-DOLLAR CONTRACTS.

ST. LOUIS, Nov. 4.—[Exclusive Dispatch.] The election of Taft has made good orders for drygoods from wholesale houses here amounting to over a million dollars. About half of these orders go to the American Print Company, Fall River, Mass.

The goods were ordered some weeks ago but all contracts carried a proviso that they were to be void provided Bryan carried the country.

Leading drygoods men here estimate that the orders to eastern houses within the next few days will run away up into the millions as they have been holding back in all lines through fear of demoralizing effect of a Bryan victory.

TAFT'S LEAD GAINS.

(Continued From First Page.)

Mr. Taft's 309 electoral votes compare with 336 received by Roosevelt in 1904; 292 received by McKinley in 1900, and 271 received by McKinley in 1896.

The Senate retains its Republican complexion, although there will be a material change in its personnel.

The States certainly carried by Mr. Bryan are as follows:

Alabama 11, Arkansas 9, Colorado 5, Florida 5, Georgia 13, Kentucky 13, Louisiana 9, Mississippi 10, Nevada 3, Nebraska 8, North Carolina 12, Oklahoma 7, South Carolina 9, Tennessee 12, Texas 18, Virginia 12—Total 156.

All the rest of the States are safely for Taft with the exception of Maryland and Missouri, where the issue is so close that an official count may be necessary finally to determine the result.

National Chairman Norman E. Mack of the Democratic Committee issued a statement tonight in which he declared that he did not believe Mr. Bryan would again be a candidate for the Presidency. He said he believed that the Nebraskan might be a candidate for the United States Senate in 1911, provided the Legislature of his State was Democratic in that year.

The latest returns indicate that in the House of Representatives, the Republicans will have 208 members and the Democrats 172, with 11 districts missing.

Judge Taft's plurality in the State of New York, according to corrected figures late tonight, is 203,495, more than 28,000 in excess of President Roosevelt's plurality of four years ago.

Gov. Charles E. Hughes was reelected in New York State by 71,150.

Taft carried Ohio by 50,000 plurality, a reduction of more than 200,000 from the Roosevelt vote of four years ago. The Democratic State ticket in Ohio, headed by Judson Harmon for Governor, appears to be elected. The State Legislature is in doubt.

In Indiana Taft won by about 8000, but the entire Democratic State ticket, headed by Marshall for Governor, was elected. The Congressional delegation from the State shows a gain of seven Democrats.

The returns from West Virginia, owing to the mountainous character of the country, are slow in coming in. A sufficient number of districts have been heard from, however, to show that Taft has a safe plurality.

Colorado early in the day shifted from the doubtful column to the Bryan list. The Legislature, which is to choose a successor to Senator Teller, is also apparently Democratic.

Taft's phenomenally large vote in New York State continues to attract attention. It is taken by the Republican managers of the State and country as indicating that the Empire State, with its 39 electoral votes, can no longer be regarded as debatable ground in a Presidential contest, but is safely Republican.

The fact that Taft carried Greater New York by 15,000 votes has amazed many of the local leaders. He gained this advantage largely in Brooklyn, for Manhattan and the Bronx, dominated by Tammany Hall, showed a substantial plurality for Bryan.

Bryan's victory in Nebraska was a sweeping one. Five of Nebraska's six Congressmen will be Democratic, while the Legislature has only eighteen Republicans elected out of a total of 133 Senators and Representatives.

WANT PLATT'S SEAT.

Whitelaw Reid, Frank S. Black, J. S. Fasett and Timothy Woodruff in Contest.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, Nov. 4.—[Exclusive Dispatch.] Whitelaw Reid, Ambassador to Great Britain, is a candidate to succeed United States Senator Platt, say Republicans connected with the national committee. Among the candidates besides Reid, are ex-Governor Frank S. Black, Congressman J. Sloat Fasett, and Timothy L. Woodruff, chairman of the Republican State Committee, and the Republican legislative caucus to choose Platt's successor promises to be a lively gathering.

Reid has no love for Platt, and, aside from the honor, he may find some personal gratification in supplanting the former boss. When President McKinley was elected, Reid, who had been Minister to France under President Harrison, sought the appointment as Ambassador to Great Britain, but Senator Platt strenuously fought him and prevented his appointment. Reid was named as Ambassador by Roosevelt.

BIG MILLS ON FULL TIME.

BOSTON, Nov. 4.—[Exclusive Dispatch.] The New England Cotton Yarn Co. announces that its operations will be immediately increased to normal full capacity. During the deepest of the depression the company was running at only thirty per cent. of normal, and even up to September, the last month of its fiscal year, operations were not better than seventy-five per cent. of full capacity. The improvement in cotton yarns has been accompanied by a general betterment in the entire cotton goods situation. Curtailment has passed and many of the largest Fall River, Lowell and Lawrence mills are bending their energies to the effort to get under way at full capacity at the earliest possible date.

PITH OF NEWS FROM THE MIDDLE WEST.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO, Nov. 4.—Unheralded by the weather experts a gentle downfall of beautiful flakes served to jog the memory today of the man who has forgotten to fill the coal bin. With a forecast which promised cloudy weather, Chicagoans were taken completely unawares when just enough snow fell to be seen on dark overcoats and hats. There was not enough of it to make a snowball, but it was genuine snow just the same. Today's maximum temperature was 57 and the minimum 34 deg. Middle West temperatures:

WHIPPING BY TAFT WINS VOTE.

[BY DIRECT WIRE TO THE TIMES.]

NEW ORLEANS (La.) Nov. 4.—[Exclusive Dispatch.] Charles C. Duble, locksmith, of this city went to school with William H. Taft in Cincinnati, when they were boys 11 years of age. Mr. Duble has special reasons to remember it because he got into a fight with Taft and the latter whipped him to a finish, knocking him down three times. "In remembrance of that licking Bill Taft gave me, I could not go back on him and I voted for him yesterday although I have always been a Democrat in local and State politics," said Mr. Duble. More than that, Mr. Duble sent President-elect Taft a telegram, reminding him of the licking and extending congratulations. Mr. Taft, evidently appreciated the message and likewise recalled the school days incident for it was not long until a reply came down the wire. "Many, many thanks for your congratulations and reminder." "When a boy 11 or 12 years of age, William H. Taft was a very fat boy," said Mr. Duble, "and we all called him 'Fatty Bill' at school, but he was a scrapper. He licked every boy in the school and then started outside when his father took him away from that school and placed him elsewhere."

BRYAN VOTER GOES MAD.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO, Nov. 4.—[Exclusive Dispatch.] William Airth, a clerk in the University book store of Evanston, went insane Tuesday night when he learned that Bryan was buried under a landslide and today was taken to the detention home hospital. His mother is a widow. Airth is 21 years of age and had just cast his first vote for Bryan and Stevenson. He was an intense partisan of the Democratic ticket and watched the returns that night with feverish interest. He had believed that Illinois would go for Bryan and Stevenson and that Bryan himself would carry the country by overwhelming majority. Airth laid his arrest to conspiracy of the Republican party.

IOWA.

PROGRESSIVES GET BIG LEAD.

HEPBURN DEFEATED; CUMMINS IS WINNER.

Fight of "Stand-Patter" and Radicals Results in General Victory for Latter, Which Means Election of Former Governor as Successor to Allison in Senate.

[BY DIRECT WIRE TO THE TIMES.]

DES MOINES (Iowa) Nov. 4.—[Exclusive Dispatch.] Aside from the fact that Iowa gave a big majority for Taft, a clean sweep of the State offices for the Republicans and a verdict for progressiveism, the features of the election are the defeat of William P. Hepburn for reelection to Congress and the victory of Gov. Cummins over Lacey for the Senatorship.

Returns from the State are still incomplete, but the earlier forecasts of 55,000 to 60,000 for Taft and similar margins for the State ticket are still borne out by the belated figures. Representative Hepburn is one of the conspicuous "stand-patters," whose scalp many of the more radical Republicans have sought. His defeat by W. D. Jamieson, a young business man from Shenandoah, is really a victory for the Cummins faction in the State. He fell at the election as J. Adam Bede, Jenkins of Wisconsin and others did at the State primaries several months ago, the victims of their so-called reactionary tendencies in the House.

By the same token, the whipping of Cummins over Lacey tends to show the prevailing spirit of the Republicans of Iowa is for the policies of Roosevelt, plus those of Cummins. The Legislature will be dominated strongly by Republicans of the progressive type, which makes the way of Cummins to the Senatorship the easier.

Representative Hepburn first went to Congress from his district in 1880, and has served ever since, with the exception of six years, from 1886 to 1892. For years he has been one of the prominent members on the floor of the House and in committees, having been chairman of the Committee on Interstate Commerce.

Jamieson is 35 years old, has been a member of the State Senate, and is one of the coming Republicans of the State, if the progressive sentiment of the past continues. In his home town he ran 300 ahead of his ticket, and carried eight of the eleven counties in the district, winning the district by 438 votes, according to the unofficial returns.

MONTANA.

SLOW RETURNS, STATE SOLID.

DONLAN GIVEN NARROW MARGIN FOR GOVERNOR.

Taft's Plurality Leads Ticket With About 3500, While Other Candidates Range from That Figure to a Few Hundred Votes, Still Possibly Doubtful.

[BY DIRECT WIRE TO THE TIMES.]

HELENA (Mont.) Nov. 4.—[Exclusive Dispatch.] The indications at this time are that Montana has elected its entire Republican national and State ticket by pluralities ranging from 4500 to 500, the latter being the estimate on the gubernatorial candidate. O. M. Lanstrum, chairman of the Republican State Central Committee, claims the State for Taft by 3500, for Pray for Congress by 4500, for Donlan for Governor by 500, and for the entire State ticket by pluralities ranging from 1000 to 4000.

The returns are slow in coming in, only five-sevenths of the entire vote having been received. However, this includes practically all the Democratic counties and the 15,000 votes yet to come are expected to more than offset the lead of Norris (Dem.,) for Governor, which now stands at about 1500.

In Butte and Helena, the county results are divided, the Democrats predominating in the former and the Republicans in the latter. Complete returns are not expected for another day at least, owing to the difficulty in reaching interior points.

INDIANA.

KERN WILL BE SENATOR, NOW.

DEMOCRATS WILL HAVE MAJORITY IN THE LEGISLATURE.

Party Leaders Say Bryan's Running Mate Will Be Only Candidate Presented — Republicans Blame Hanley for Defeat—Taft Carries State.

[BY DIRECT WIRE TO THE TIMES.]

INDIANAPOLIS (Ind.) Nov. 4.—[Exclusive Dispatch.] Returns from all the counties of the State, but many of them not complete, give Judge Taft a plurality of nearly 10,000, and the Democratic candidate for Governor a plurality that runs close to 25,000.

The Democrats have elected all the candidates on the State ticket, a majority on joint ballot in the Legislature, and possibly eleven members of Congress. Nine districts have certainly elected Democratic Congressmen, and two others are claimed by the Democratic managers, and one of them conceded by the Republicans. The only two candidates elected by the Republicans are in the Sixth and Tenth districts.

Several legislative districts are in doubt, but the Democrats have carried a majority, and will have eight and possibly twelve on joint ballot. The Democratic leaders say that John W. Kern will be the party candidate for the United States Senate, and that no other name will be presented to the legislative caucus.

Republican leaders are laying the blame of defeat on Gov. Hanley, and he is being freely criticised because of the special session of the Legislature through which the county local option law was forced over the protests of nearly all the candidates on the State ticket.

The Republicans leaders say that temperance Democrats who have voted with them on a local issue had no reason to leave their party when that issue was settled by the passage of the Local Option Bill, and that Republicans of the liberal type voted against the party out of revenge, thus causing loss from two sources from which they ought to have had votes.

The great slump in the Congressional districts is charged to Republican unrest over the tariff.

SHORT TERM IN DOUBT.

Judge Richards Elected for January 1, but Is Uncertain as to the Interim.

[BY DIRECT WIRE TO THE TIMES.]

SAN JOSE, Nov. 4.—[Exclusive Dispatch.] While at the election yesterday Judge John E. Richards was elected to fill the office of Superior Judge for a term of six years, beginning with January 1, 1909, it is a debatable question yet as to who will occupy this position from until his new term begins.

Richards received the appointment of judge from Gov. Gillett a year ago on the resignation of Judge Rhoades, to hold until his successor should be elected. But very few votes were cast for either Judge Richards or for J. P. Fitzgerald, for the short term, both of whom made small efforts to get the position from the present up to January 1, 1909.

Judge Richards, in speaking of the matter, said:

"I, of course, do not know who is elected for this unexpired term, but in case Mr. Fitzgerald is, I would greatly if he would attempt to qualify for the place and become a judge for a day."

NOBLY DONE.

TAFT'S CALIFORNIA PLURALITY GROWS.

Republicans' Victory in State Is Complete—Every Congressional District Is Carried by Safe Figures. National Ticket May Reach 75,000.

[BY DIRECT WIRE TO THE TIMES.]

SAN FRANCISCO, Nov. 4.—[Exclusive Dispatch.] Returns from 2302 out of 2584 precincts in this State, with a vote aggregating 319,322, show a plurality of 74,376 for Taft.

The precincts heard from embrace all those of importance in this State. The precincts still to hear from will probably increase Taft's lead so that the official count will show a plurality of more than 75,000.

In 1904 the vote for Roosevelt in California was 205,226, Parker 89,404, Swalwell (Pro.) 7380, Debs (Soc.) 29,535.

From present appearances, the combined vote of Debs and Hisgen will not be as great in California this year as the vote of Debs in 1904. The Prohibition vote seems to have about held its own. The completed returns will probably show an increase of more than 6000 votes over 1904.

Returns show that the Republicans have elected their candidates for Congress in every district in the State. In the First, Englebright has over 6000 majority; Duncan McKinlay's majority in the Second will reach 5000; in the Third, Knowland leads his competitor by 19,000. Kahn carries the Fourth by 7000; Hayes will have a majority of 10 in the Fifth; Needham will probably have 5000 majority in his district; in the Seventh McLachlan leads Rush over 11,000, and Smith in the Eighth by over 5000 to the good.

At the headquarters of the Republican State Central Committee in the Fairmont Hotel tonight, the jubilant announcement was made that the Democrats had been irretrievably defeated by the Republicans, who swept the State from border to border.

Late returns from the outside counties, it is announced, indicate that the Republican vote everywhere in the State was in excess of the estimates. Lassen county, which it was believed would give Taft a majority of about 1000, and which gave him 3000 more votes than Bryan, is cited as an evidence of the trend of political thought in the State. Shasta, Modoc, Yolo and Yolo counties in the North, and Los Angeles, Riverside, Orange and San Diego counties in the South, are said to have polled big majorities for the Republican Presidential candidate.

The result of the election is a source of the greatest gratification to Congressman Julius Kahn, who was reelected. He said tonight:

"It was the strong, silent vote which came to conservatism, and is opposed to putting business conditions that existed this election. And that vote demonstrates beyond question that the people of this country have absolutely no faith in the Democracy or its leaders.

"I recognized in Mr. Taft a great conservative statesman, whose policies will be directed by deliberate judgment, and they accordingly received his magnificent majority which I have given to Mr. Taft will give him splendid prestige with the Senate to control the party and shape legislation. And the return to the Congress of the Republican delegation is unanimous. We will go there with a strong front, and in the revision of the tariff we will make no sweeping cut in opposition to any reduction which may menace the prosperity of the State."

GUBERNATORIAL RETURNS.

PARTIAL COUNT.

[ASSOCIATED PRESS NIGHT REPORT.]

SAN FRANCISCO, Nov. 4.—Following are the returns from the State Senatorial districts:

NEVADA STILL DOUBTFUL.

Both Parties Fight Stubbornly for Senator and Each Claims Election.

[BY DIRECT WIRE TO THE TIMES.]

RENO (Nev.) Nov. 4.—[Exclusive Dispatch.] The complexion of both branches of the Nevada Legislature at the coming session is still in doubt. With sixty odd precincts to hear from the State is deadlocked and one or two members either way will decide the power of their branch at the State House.

In Lincoln county both parties are fighting stubbornly for the one Senator to be elected and late tonight each side is claiming the election of its man by a small majority.

The outcome will not effect the United States Senatorship for the people have just voted on that question in favor of Newlands, the recent Senator from this State.

ARIZONA NOW IN THE FOLD.

TERRITORY CHANGES POLITICAL COMPLEXION.

Marcus A. Smith, Regarded by Democrats as Unassailable, Is Defeated for Congress by Ralph Cameron of Flagstaff—Desire for Statehood Partly Responsible.

[BY DIRECT WIRE TO THE TIMES.]

PHOENIX (Ariz.) Nov. 4.—[Exclusive Dispatch.] Arizona has gone Republican for the first time since 1894. Ralph H. Cameron of Flagstaff has been elected to Congress, defeating Marcus A. Smith of Tucson, who has served as delegate from Arizona for nine terms. Returns are not complete from several counties, but Cameron has a net plurality of not less than five hundred, which may be increased to eight hundred. Smith's plurality last election was about two thousand. Two years ago, eight hundred of this came from Cochise county, which, yesterday, gave his opponent four hundred plurality. Smith has carried only Graham, Gila, Yuma, Mohave and Santa Cruz counties by a much diminished vote.

Cameron has a majority of 310 in Yavapai county, 250 in Maricopa, and 150 in his home county of Coconino, all normally Democratic. The result is a tremendous blow to the Democrats, who have considered Smith impossible to beat. In this county he ran far behind his ticket, a fact which has caused charges of treachery. But, the Democrats explain the landslide upon the general understanding of the voters that statehood would hardly be granted by Congress to another Democratic Territory. The Legislature will probably be Democratic in both branches. In this county (Maricopa) the Republicans elect two members of the Legislature, and a probate judge.

E. B. O'Neill (Democrat) is elected councilman over George M. Haim. The Independence party ticket was a joke. It received just a single vote in each of the four wards of Phoenix.

FIGHT WITH MADMAN.

OFFICIAL GETS FUGITIVE.

[BY DIRECT WIRE TO THE TIMES.]

RENO (Nev.) Nov. 4.—[Exclusive Dispatch.] Superintendent John Driscoll of the Nevada Insane Asylum had a thrilling experience with Leo Strausman, an escaped lunatic, near the asylum this morning. The man was heavily armed and it was only after a terrific struggle that the official overpowered him and had him returned to the asylum. Strausman evaded his attendants early this morning. Driscoll joined in the pursuit and came on Strausman close to Reno. The man is looked upon as one of the most dangerous in the institution.

HATFIELD STILL HELD.

Dunham Suspect Has Little Chance of Immediate Release from Jail.

[BY DIRECT WIRE TO THE TIMES.]

SAN JOSE, Nov. 4.—[Exclusive Dispatch.] William Hatfield, the Dunham suspect, still remains in the County Jail with no chance for release. Dist.-Atty. Free has received no answers to letters to Tennessee and Texas and is beginning to doubt whether Hatfield has any friends there who will be able to identify him as other than Dunham. Free promises some important developments within a day or two.

PLAY "INDIANS" FLEE.

Shoot Through Window, but Take to Their Heels When Pale Face Appears.

[BY DIRECT WIRE TO THE TIMES.]

SAN JOSE, Nov. 4.—[Exclusive Dispatch.] Issuing from a wigwam that they had built near the bridge-house on the Monterey road, two unknown youths yesterday afternoon took to the warpath and fired a bullet through a big bay window into the parlor of W. A. Sprague.

The missile crashed through the window within a few inches of the head of Mr. Sprague's mother-in-law, and lodged in the opposite wall. The lady's face was slightly cut by five splinters of glass.

Sprague dashed out of the house in pursuit of the "Indians," who took to their heels in fear of the paleface. The pursuit led through some out-buildings in the rear of the bridge-house and here all trace of them was lost.

MARYLAND.

BALTIMORE WINS STATE FOR TAFT.

REPUBLICAN CANDIDATE HAS 150 MAJORITY IN HARD FIGHT.

Violent Fluctuations Reported in Maryland, but President-elect's Plurality in Principal City Overcame Bryan's Vote in Counties by Narrow Margin.

[BY DIRECT WIRE TO THE TIMES.]

BALTIMORE (Md.) Nov. 4.—[Exclusive Dispatch.] Maryland has given Taft 150 majority.

After violent fluctuations in which the figures ran as high as 10,000 for Taft and to 300 for Bryan, it can be stated tonight that Taft has carried the State.

With practically all the returns in tonight Taft has 1300 plurality in Baltimore while Bryan got a plurality in the counties of the State of 1650.

At one time today the tabulations showed that Bryan had carried Maryland by 231 plurality but tonight's figuring is made on nearly complete returns, with estimates eliminated and missing precincts in.

BUSINESS BOOMS.

INVESTMENTS MADE.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, Nov. 4.—[Exclusive Dispatch.] Wall Street gave expression to its opinion of the election results today, by a great, buoyant and enthusiastic advance in prices of securities. With the uncertainty attending the election removed, a general rush to buy stocks and bonds ensued. Participating in the movement were persons from all parts of the United States, who gave expression to their confidence in the future by buying. Warehouses and commission houses, which have complained for months that they had no business because the public was not interested in the stock market, said this evening that they had more orders to fill today than since the days of 1901. The enthusiasm displayed in the stock market exceeded all expectations. Experts and acute market judges were foretold by the rush to buy. It had been predicted that the stock market's recent advance had discounted Taft's election and that when the results were finally known, stocks would decline on profit-taking sales.

MANY PUT TO WORK.

WAGES ARE INCREASED.

[BY DIRECT WIRE TO THE TIMES.]

PITTSBURGH (Pa.) Nov. 4.—[Exclusive Dispatch.] Orders were received today by the Pennsylvania Railroad at Pittsburgh to place every man and boy possible in the repair shops of the road here in order to rush the cars which have for months been on sidetrack in different stages of repair. As a result the railroad shops tomorrow will for first time in a year have a full quota of men. It is estimated that the Pennsylvania has 10,000 freight cars which must be repaired before they can be returned to the rails and this is the work to which the army of workmen will be turned at once.

President Hilton Bartley, of the American Nut and Bolt Fastener Company of the North Side, employing several hundred workmen this evening announced that beginning tomorrow, wages of all the workmen would be increased 20 per cent., and that all the overtime the men wanted could be made.

BALLOONIST KILLED.

Dashed Against Church as He Leaves Ground, Peter Kramer Meets Death.

[BY DIRECT WIRE TO THE TIMES.]

PRINCETON (Ill.) Nov. 4.—[Exclusive Dispatch.] Peter Kramer of St. Louis was dashed against the chimney of the Methodist church and killed here this afternoon, while making a balloon ascension at the farmer carnival. Glenn Haydon, a seven-year-old boy, who was standing near the church, was struck by a falling brick from the chimney, which was wrecked by the balloon. His skull was fractured, and he may die.

The accident was witnessed by nearly a thousand people. A strong wind was blowing, and efforts were made to persuade the aeronaut to not attempt an ascension. In reply to the persuasions he said:

"I will make the jump today if I break my neck doing it."

Those were the last words he spoke as he left the earth. When the ropes were loosened, the balloon shot up from the earth, and was carried toward the church building. Kramer was swept from his feet, and before he could unfasten the snap which secured his safety belt to the balloon he was hurled against the chimney which surmounts the edifice. His chest was crushed by the blow.

The balloon bounded along on the roof until it collided with the steeple, dragging the unconscious balloonist after it. It scaled the steeple, and as it was swept over the top Kramer was dashed against it, breaking several ribs and inflicting fatal injuries about the abdomen. The rope which held the Balloonist broke, and he fell to the roof, rolled to the edge and plunged to the ground, thirty feet below.

SPECIAL SESSION FOR TARIFF TO BE CALLED.

Revision One of Thoughts Uppermost in Mind of President-elect Taft, Who Will Do All He Can to Keep Pledges Made on Stump.

[BY DIRECT WIRE TO THE TIMES.]

CINCINNATI (O.) Nov. 4.—[Exclusive Dispatch.] The subject of revision of the tariff immediately after his inauguration is one of the thoughts now uppermost in the mind of President-elect Taft. That his administration will open with a struggle over this question was made manifest today by his declaration that he will call for a special session of Congress and submit to it a special message urging a speedy revision of the tariff.

Mr. Taft evidently regards this question as one of the most important that will come up during his term in the White House, for when he was asked about the pledges he made during his speaking tour he declared that he would do all in his power to keep all of them, but he made special mention of the pledge made on the stump regarding the tariff. He would not discuss the tariff in any of its phases at this time, pleading failure and asserting that he had dealt with the question during his speaking campaigns. He contented himself with the simple but emphatic statement that he would call a special session and submit to it a special message urging careful and thorough consideration and as speedy action as was consistent with the importance of the issue.

The first public appearance of the President-elect was at a laying of a corner-stone of the new Woodward High School building at Broadway and Woodward streets this afternoon. The judge graduated from this High School in 1874. The school was founded in 1837 by William Woodward, a pioneer philanthropist of early days, who gave it lands and money. It is an old public institution, highly cherished by Cincinnatians of several generations who were educated there, and thousands of them were present when Mr. Taft appeared to participate in the exercises. The President-elect was given a big ovation.

The principal address of the occasion was delivered by the famous alumnus of the old school. He laid the corner-stone in a receptacle in which were placed as mementoes a copy of the ballot voted yesterday and school records.

Judge and Mrs. Taft will leave Cincinnati, Friday, for Hot Springs, Va., where they will spend several weeks in quiet until the new President has recovered from the stress of the last two months. They have no plans for the winter and will not give the immediate future much thought until Mr. Taft has secured a badly-needed rest. They entertained many callers at the home of Charles P. Taft during the day, and received a heavy mail, bringing messages of congratulations. Mrs. Taft was remembered by hundreds of her personal friends in all parts of the country, who increased her pleasure over the honor heaped upon her husband by adding their expressions of pleasure and best wishes.

The election of Mr. Taft is to be occasion of a big public demonstration by the people of Cincinnati. Preparations are now under way for the affair. The suggestion was made by members of the Citizens' Taft Club that was formed to roll up a big home vote for the candidate. Its members will have charge of the affair.

Seated in the library of his temporary home, the C. P. Taft residence, this morning President-elect Taft said:

"I believe I was elected by the business men of the country, Democrats as well as Republicans; that I received my share of the labor vote and that the farmers generally stood by me. I am very much satisfied."

Going more into details of the returns, he added:

"In my own State and Indiana, the result was very much affected by the local liquor questions, and it is very difficult to figure out just how it operated. The sweeping victory in New York, Massachusetts, New Jersey and Connecticut is especially gratifying to me."

CONGRESSIONAL.

REPUBLICANS WILL HAVE GOOD MAJORITY.

[ASSOCIATED PRESS NIGHT REPORT.]

WASHINGTON, Nov. 4.—The present indications are that Republicans will have about a two-thirds majority in the United States Senate as the result of yesterday's election, or virtually the same as at present.

Of the ninety-two members of that body, sixty-one hold over, leaving only thirty-one places to fill. Of these, nineteen are Republicans and twelve Democrats.

Alabama, Arkansas, Louisiana and Maryland already have chosen Democrats, and Kentucky and Vermont Republicans. The other Senators of whom successors are to be elected:

Republicans: Allison, of Iowa, who will be succeeded by a Republican; Ankeney, Washington; Brandegee, Connecticut; Gallinger, New Hampshire; Hansbrough, North Dakota; Heyburn, Idaho; Hopkins, Illinois; Kittredge, South Dakota; Long, Kansas; Penrose, Pennsylvania; Perkins, California; Platt, New York; Smoot, Utah; Stephenson, Wisconsin. All of these will be succeeded either by themselves, or by other Republicans.

Democrats: Clay of Georgia; Gary, South Carolina; Gore, Oklahoma; Milton, Florida; Overman, North Carolina. All of these will be succeeded by Democrats.

The only Senatorships remaining in doubt, are those in Ohio, Indiana and Oregon, which are now represented by Forsker, Hemenway and Fulton, all Republicans, and Colorado, Missouri and Nevada, represented by Teller, Stone and Newlands, Democrats.

Gov. Cummins of Iowa is about to realize his ambition to become a Senator from that State. He has many admirers in Washington and his entry upon the scene of national politics will be observed with keen interest.

If Indiana should send a Democrat in place of Hemenway, it is supposed here that John W. Kern, the defeated Vice-Presidential candidate, would be chosen, and he would be the first Democrat to occupy a Senatorial seat from Indiana since 1899, when David Turpie surrendered his office to Senator Beveridge.

The final figures regarding the result in the House, probably will show little change in numbers on the respective sides, but there will be a considerable shifting in the personnel of that body.

A number of surprises already have been recorded and probably the most pronounced was the defeat of Representative Hepburn of the Eighth Iowa District. Mr. Hepburn has been in Congress so long, and as chairman of the Interstate Commerce Commission had been so prominent, that he had become regarded almost as a fixture in Washington. He was a strong supporter of the President's policies.

Washington was quite unprepared for the retirement of C. B. Landis and Jesse Overstreet of Indiana. Both hold chairmanship assignments, and have been long in the service.

DEMOCRATIC PROPHECY.

POLITICAL FREEDOM FOR THE NEW SOUTH.

[BY DIRECT WIRE TO THE TIMES.]

ATLANTA (Ga.,) Nov. 4.—[Exclusive Dispatch.] In an editorial in the Atlanta Constitution on the election, Clark Howell, who is Democratic National Committeeman from Georgia, says:

"In Tuesday's election the Southern States began the writing of their political history of independence. The result means that the time has passed when a resident of one of these States must buy his social security, often at the price of his political convictions.

"Many business men, the South over, most of them adherents of Democracy all their lives, dared to support hopefully and openly the candidates of the Republican party, because their convictions led them that way.

"The Constitution is indorsing their action only to the extent of saying they were right in giving material expression to their true convictions. The southern vote which, in firm belief, wrenched itself away from sectional political tradition, and it was a large one, was insignificant.

"It means that the time has come when the voter of the South is going to demonstrate his faith by works and not let conviction wait upon a cobwebbed tradition.

"In national affairs there remains no longer reason why the people of the South should not follow men and principles which to them seem best and promise most to national growth and national prosperity.

"The South will not continue longer a mere voting machine."

CONSOLATION PRIZE.

COLORADO IN BRYAN RANKS.

RESULT NOT CERTAIN, BUT IS VERY PROBABLE.

As Precincts Come in, Small Democratic Lead Continues to Grow and Shafroth Will Probably Be Carried in as Governor—Judge Lindsey Wins Alone.

[BY DIRECT WIRE TO THE TIMES.]

DENVER, Nov. 4.—[Exclusive Dispatch.] After having been held in the doubtful class for twenty-four hours by the Republican leaders, Colorado seems tonight to have settled definitely into the Democratic column. There are still many precincts to hear from, but the figures at hand indicate that the afternoon estimate of 4000 for Bryan has grown to 5000, with tendencies still in that direction. At best, however, the outcome is conjectural, with chances greatly favoring Bryan, who is believed to have carried the State for Governor, with him, by a slightly smaller plurality.

There are not enough figures in hand to forecast control of the Legislature, but it is believed the Democrats will be in the majority by a few votes and that they will be able to elect a successor to Henry M. Teller, who came into prominence in 1896 when he bolted the Republican convention at St. Louis, on account of his friendliness for free silver.

Ben B. Lindsey, popularly known as the "kid's" judge, scored a most remarkable personal triumph in the election, demonstrating that the juvenile judgeship may be removed from politics and that Colorado women at least know how to scratch their ballots.

That the politicians do not like Lindsey was shown when he was turned down by each of the party machines for the nomination. He had no money to carry on an independent contest, and his followers were dismayed. But the "angel" appeared in the form of a philanthropic woman from the East, whose name the judge refuses to disclose. She put up $5000 to aid the canvass. Others added $2000. One Democratic newspaper caught the popular trend and advocated scratching for Lindsey.

Out of a total vote of over 60,000 in the city, Lindsey has secured about 28,000, while his two opponents, combined, have only 32,000.

GUFFEY'S REVENGE.

BRYAN DEFEAT GOOD THING, SAYS DEMOCRAT.

[BY DIRECT WIRE TO THE TIMES.]

PITTSBURGH (Pa.) Nov. 4.—[Exclusive Dispatch.] "Bryan is a dead issue. We have wiped him off the face of the earth."

Col. Jim Guffey, leader of the Democracy in Pennsylvania, has had his revenge. In the above statement which, by the way, was not intended for immediate publication, the Colonel gave vent today to the satisfaction he derived from the defeat at the polls yesterday of the man who drove him out of the Denver convention.

Mr. Guffey until today has not given vent to a single utterance that might have hurt the Nebraskan's chances. That is, he has said nothing since the hot words he allowed to fall immediately following the convention episode. Since that time he worked hard for Democratic success, and his plethoric purse was even open to his fellow Democrats. But last night, Col. Guffey gave a hint of his satisfaction when he said the election of Taft was a "Good thing for the country." Today, Mr. Guffey was asked what he meant by this statement.

"I mean just what I said. I said the country was better for the election of Mr. Taft, and I mean just that."

"Do you mean to say that you have turned Republican?" was asked.

"No, I don't mean that. I mean that the defeat of William Jennings Bryan was the best thing that could happen for the country's sake."

Later, when discussing the subject of the election, Mr. Guffey was asked concerning the future of the Democratic party.

"How about four years from now? Will Bryan again be the candidate of the Democratic party?"

"Four years from now,"—and the Colonel brought his fist down with emphasis,—"four years from now? No, sir. We have wiped Mr. Bryan off the face of the earth. He will never be resurrected."

Col. Guffey, of course, did not say this for publication. It is probable he did not know he was talking to a newspaper man. It is possible, too, he did know.

Later Mr. Guffey said:

"I do not care to say much, but I would refer to the statements I made during and immediately following the Denver convention." Newspaper clippings containing these statements were forthcoming and Col. Guffey pointed out the one published in answer to Bryan's famous Fourth of July speech at Fairview. At that time Mr. Guffey said:

"Mr. Bryan views me with sanctimonious horror as a 'political boss who shall never be in the party organization except over my protest, as a bushwhacker who should not be put into my councils to betray me.'

"'My councils,' indeed. Is the Democratic party really absorbed? Has it no councils? Is Bryan the whole organization? 'Let the people rule,' he shouts, and forthwith attempts to place himself in the role of a dictator."

Col. Guffey spoke encouragingly of the future of the Democratic party. He intimated that with Bryan out of the running, new and broader minds would soon be found in the councils of the party and that better and brighter things were to be expected.

MAKING GOOD.

PROSPERITY ON HEELS OF TAFT.

BIG ORDERS POUR INTO STEEL MILLS FOLLOWING ELECTION.

Unionism Eliminated as Factor in Politics—Socialists and Independents Show Decadence—Radicals Make Gain in Senate With Twelve New Faces.

[BY DIRECT WIRE TO THE TIMES.]

WASHINGTON, Nov. 4.—[Exclusive Dispatch.] That the country responded immediately to the election of William H. Taft as President was shown in dispatches reaching the capital today from all the big industrial centers. From New York came news that sensational advances in steel stocks were due, for orders for thousands of tons of structural and railroad steel were telegraphed to the mills as soon as it became known positively that Taft was the victor. This presages heavy building operations all over the country, millions of dollars for railroad equipment and employment for thousands of men.

Advices from European centers also showed that financial and commercial interests abroad were pleased with the election of Taft, arguing that it meant a stable, sound and reliable administration, careful but progressive. This feeling was reflected in all the European bourses and boards of trade. The only disgruntled element in Europe seems to be the agrarians of Germany, who believed they would fare better in tariff dealings with Bryan than they will with Taft.

Taft's vote in New York and Illinois creates the genuine surprise of the election. The other features that stands out boldly is the utter failure of Gompers at his first active appearance in politics. Whether Gompers did deliver the labor vote or not, may be a matter of doubt always, but if he did, then it appears that enough voters feared the labor oligarchy to swing the election to Taft. On surface appearances, however, Gompers did not deliver the goods. The New England States, where the factory vote is strong enough to elect a Governor, all stood by Taft with the customary pluralities.

GOMPERS DIDN'T COUNT.

Gompers may have swung a few votes in Ohio and Indiana, but his work in other States appears to have injured, rather than to have aided Bryan.

As matters now stand, with union labor allying itself definitely with the Bryan party, the winning party is under no obligations whatever to organised labor. It will get a square deal, but the people, by their votes, seem to have expressed a desire that labor shall get nothing more than a square deal—no favors at the expense of the general public.

That Bryan has steadily lost caste throughout the country is shown by the results in Ohio, Indiana and Minnesota, which States elected Democratic Governors, but stood by Taft by fine majorities. This proves that if the electors had faith in Bryan and his policies, and, above all, his noisy friends, they could have swung the States to him readily enough.

SOCIALIST DECADENCE.

Other features of the election are the marked decay of the Socialists and Hearstites or Independents. In the face of incomplete returns, the Socialists, who have made a tremendous lot of noise, appear to have gone backwards. This, perhaps, is due to the fusion which sent back to Europe hundreds of thousands of foreigners, a majority of whom would have voted the Socialist ticket.

Gossip concerning the Taft cabinet is becoming active. Friends of Secretary of the Treasury Cortelyou say that while Mr. Taft would be pleased to have him remain in the official family, that Mr. Cortelyou feels the necessity of returning to private life where a larger income awaits him. It is said that he has found it impossible to maintain himself as a Cabinet officer as he would like. Should he not be in the next Cabinet, it is probable that Postmaster-General Meyer will be made Secretary of the Treasury. There is only one name mentioned to fill any vacancy that may occur at the head of the postal service and that is Frank H. Hitchcock. Mr. Hitchcock was First Assistant Postmaster-General under Mr. Cortelyou, who as chairman of the last Republican National Committee was handed the postal portfolio. Atty-Gen. Bonaparte is slated for retirement.

Wade Ellis, of Ohio, is mentioned as his successor. Some one from the Pacific Slope will be chosen to succeed Mr. Metcalf, at the head of the Navy Department. He will be forced to retire on account of his failing health. Former Adjutant-General Corbin and Gen. Edwards, chief of the Insular Bureau, are both mentioned as possible successors to Secretary of War Wright.

TWELVE NEW SENATORS.

As a result of the elections yesterday twelve new faces will be seen in the United States Senate after the 4th of March. One third of the Senate changes every two years and the terms of twenty-nine Senators will commence with the incoming of the new President. Fifteen at least of these vacancies will be filled by the reelection of the present incumbents, but twelve of the sitting members will disappear from public life and a new face will appear from Iowa to take the place so long occupied by the late Senator Allison. The changes will not be of great significance in party sense. The Democrats will gain a Senator in Oregon and one in Indiana and the Republicans will probably gain one in Colorado. The Senate will continue overwhelmingly Republican. Ohio's Legislature being Republican, a Republican will succeed Senator Foraker, whose retirement seems certain. Representative Burton of the Cleveland district, who was slated as the Taft candidate for Speaker in the event of the defeat of Speaker Cannon, is leading in the race for the place. In Indiana, along with the retirement of Vice-President Fairbanks, will be the withdrawal from the upper house of Senator Hemenway and eastern Democrats are predicting that the Democratic Legislature of Indiana will name as his successor the recent Democratic Vice-Presidential candidate, John W. Kern. Gov. Cummins will enter as the successor of the late Senator Allison, and will add materially to the strength of radicalism in the Senate. Along with him will come other radicals: C. I. Crawford of South Dakota (Rep.); J. L. Bristow of Kansas (Rep.); W. L. Jones of Washington (Rep.); G. E. Chamberlain of Oregon (Dem.,) and T. F. Marshall of North Dakota (Rep.) These new men will go far towards awakening the Senate from its long dream of conservatism.

UNCONSOLABLE.

BRYAN HOPES AGAINST HOPE.

Still Waits for Returns on Election.

Friends Have Senatorship in Mind.

May Be Successor to Burkett at Washington.

[BY DIRECT WIRE TO THE TIMES.]

LINCOLN (Neb.) Nov. 4.—[Exclusive Dispatch.] Up to 4 o'clock this evening William J. Bryan had not wired his congratulations to William H. Taft or in any other manner signified his final acceptance of the result of Tuesday's Presidential election. At the hour mentioned, Mr. Bryan said that he did not then think that any further information would reach him tonight upon which he would feel justified in giving public utterance to any expression on the election. Plainly, Mr. Bryan is still hopeful that something will occur to change the result, or at least to throw serious doubt upon it.

That Mr. Bryan is taking defeat more to heart than ever before is so obvious that not even persons closest to him attempt to deny it. The fitful melancholy which he displayed last night settled into gloom today. Frequently in talking with friends his lips quivered strangely, and there was a note of pathos in his voice that aroused their emotions. The cheery aspect of the night before was not manifest at any time today.

Mr. Bryan was visited last evening by a large number of Lincoln Democrats, including John A. McGuire, who has defeated Pollard (Rep.) for Congress, and with them he rejoiced over the remarkable upheaval in Nebraska.

It goes without saying that if the Legislature were called upon to elect a United States Senator to succeed Hilmer J. Burkett, Mr. Bryan would be chosen. It is known that he has always had his eye upon a seat in the Senate at Washington. Recently, and while he felt confident of his election to the Presidency, he remarked that he felt he could do the country more valuable service in the Senate than in the White House, and that he had never lost his ambition to be a member of the Senate.

Senator Burkett's term will expire March 3, 1911, and with the entire State administration in the hands of the Democrats during that period, it is the hope of Mr. Bryan's friends to elect him to Burkett's seat.

ILLINOIS.

SCANT COMFORT FOR DEMOCRATS.

CHICAGO, THE HOTBED, TURNS REPUBLICAN.

Every State and County Office Won by Taft Ticket in Spite of Roger Sullivan's Power as Boss and Adlai Stevenson's Vice-Presidential Prestige.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO (Ill.) Nov. 4.—[Exclusive Dispatch.] Democrats find scant comfort in Illinois. With Roger Sullivan, Democratic national committeeman, and a power in politics, and Adlai Stevenson, with the prestige of a Vice-Presidency to back him, unlimited campaign funds and a perfect organization, the Democrats count up a Congressman or two and nothing more. Taft carried the State by nearly 200,000. Cook county, including Chicago, supposed to be a hot-bed of Democracy, elected Republicans to every office. Every county office and all the municipal judges are Republicans by overwhelming pluralities. Gov. Deneen's plurality in the State hovered in the region of the 50,000 mark, while that of President-elect Taft kept above 175,000 today, as belated returns from the isolated portions of Illinois came trickling in.

Each batch of figures added another chapter to the story of the vote trading, the scalping and the ballot slashing in which the "irreconcilables" engaged at the polls.

Down-State Gov. Deneen fared ill at the hands of the malcontents in a large number of counties.

Curiously enough, Deneen lost most in the heavy Republican counties. In some of these the defalcations were large, particularly in counties in the north of the State and in the central west, and in the counties encircling Sangamon, the seat of the State government.

Four years ago, Deneen carried every ward in Chicago with an aggregate plurality of 114,562 in the city, which was 4638 more than Roosevelt got. This year the Governor ran behind the Presidential candidate in every ward in Chicago, except one.

Albert J. Hopkins faces the fight of his life for reelection to the United States Senate from Illinois. This is the belief of a group of astute Republican leaders, who will have much to do with the control of the Illinois Legislature at Springfield next January.

The Senatorial situation in Illinois, summarized by political leaders who have paid more attention to Senatorial politics than to State or national issues in the last campaign, is about as follows: Senator Hopkins received a plurality of the popular vote cast in the August direct primary in thirty-three out of fifty-one Senatorial districts. Congressman George Edmund Foss received a plurality in sixteen. Former Senator William E. Mason carried two.

This city's free districts, won by Hopkins, have elected fifty-five Senators and Representatives, who will have Senatorial votes in the new Legislature. The sixteen Foss districts chose thirty-two Republican members of the new General Assembly.

Five of the new members came from the two districts which favored the candidacy of William E. Mason.

Out of twenty-four hold-over Republican Senators, twelve represent districts carried by Hopkins, eleven are from Foss districts, and one is from a Mason Senatorial bailiwick.

NEW MEXICO.

REPUBLICANS IN LEAD.

[BY DIRECT WIRE TO THE TIMES.]

SANTA FE (N. M.) Nov. 4.—[Exclusive Dispatch.] Almost complete returns from throughout New Mexico give W. H. Andrews, Republican, a plurality of 834 over O. A. Larrazolo, Democrat, delegate to Congress. This may be wiped out when the complete returns are in, as two counties with a total vote of two thousand are yet to be heard from. Early returns tonight indicated Andrews's election by a majority totaling three thousand over and the race made by Larrazolo has astounded Republicans here. They attribute the strong race made by Larrazolo to race prejudice, he being a native.

Two years ago Larrazolo was beaten by 254 votes and the Democrats charged but for gross election frauds he would have been elected. Then Gov. Curry took extra precautions to insure an honest election throughout the Territory, dispatching rangers to several counties and to mining camps to see that the laws were not violated. Democrats tonight are claiming Larrazolo's election by over a thousand, and say unless underhand methods are resorted to the complete returns will show his election.

Republicans by no means concede defeat of Andrews, but are awaiting the vote of the three counties to be complete. The result is awaited with breathless interest.

Gov. Curry says the complete returns will show Andrews to have

LIFE'S SEAMY SIDE.

MOTHER AND SON KILLED.

Murder and Suicide Theory of Police.

Young Man Had Been Married Secretly.

Dead Bodies Found in Hotel Apartment.

[ASSOCIATED PRESS NIGHT REPORT.]

NEW YORK, Nov. 4.—The revelation by a son to his mother, of a secret marriage and parental refusal to be reconciled to it, is believed to have been the impelling cause of a double tragedy in a large up-town apartment house today.

The victims were Mrs. Rebecca Veit, a wealthy widow, and her only son, J. Nelson Veit, a Wall street broker. The circumstances of the affair indicate that the mother was shot by the son, and that the latter then took his own life by inhaling illuminating gas.

The bodies were discovered today. Mrs. Veit lay dead on her bed with bullet wounds in the head and body, and her son was found on the floor of the bath-room in his mother's apartment, lifeless from asphyxiation.

An aunt of the suicide, Miss Anna Veit, discovered the bodies when she sought to awaken Mrs. Veit, in whose apartment she had spent the night. J. Nelson Veit, who was but 27 years old, went to his mother's apartments last night and dined with her and Miss Anna Veit. Miss Veit said today that she used the telephone to talk with some one in the city during the evening and finally left to watch the electric lights. The two women talked together for some time afterward and then retired for the night in separate rooms.

Miss Veit evidently returned to the apartment some time during the night, but no one has been found who saw him enter.

The police made the discovery that Veit was married secretly in October of last year. His mother, who spends several months each year in Europe, had only recently returned from France.

The Coroner's theory is that her discovery of her son's marriage precipitated a quarrel that culminated in the tragedy.

J. Nelson Veit, widow of the dead man, was found today in another private apartment-house, where she had been living with Veit for a month. Mrs. Veit said she had not met her husband's mother and did not know whether the mother had ever been told of the marriage.

NEW YORK, Nov. 4.—An attempt to rob the jewelry store of Morris Brooks, in the extreme section of the Bronx, was foiled this morning after Harry Brooks, a clerk in the store, had been clubbed and the safe rifled of goods valued at $40,000. Detectives heard Brooman's cries for aid, rushed in and seized a man who was fleeing with a satchel containing the jewelry. The prisoner is Joseph E. Atchison, a former railroad telegrapher.

WOMAN KILLS ENEMY.

CLAIMS SELF-DEFENSE.

[BY DIRECT WIRE TO THE TIMES.]

PRESCOTT (Ariz.) Nov. 4.—[Exclusive Dispatch.] Monday night, at Globe, A. W. Wagner, a stage driver, was shot and instantly killed by Mrs. Emma Hessler, a comely young woman, wife of a miner. The deed was done in the dimly lighted hall of a lodging-house kept by the woman's mother. Mrs. Hessler claims that the man followed her into the house and offered violence, and that the shot was fired in self-defense. The bullet passed through Weaver's mouth and head.

There is another side to the story. About a year ago Mrs. Hessler's brother, Walter Gaynor, was sentenced to many years in the penitentiary from Globe for criminal assault upon Weaver's daughter, aged 14. Since then the two have had Weaver arrested on charges of improper conduct with Mrs. Hessler, but the defendant was discharged both times. Weaver was about 50 years old, while Mrs. Hessler was little more than a girl.

The injuries of the mother and brother are regarded as serious, and he may die from the self-inflicted wounds. Greco's neck and throat were cut so badly before he was seized that he died shortly after reaching the hands of pursuers.

BELLINGHAM (Wash.) Nov. 4.—Waiting for his aged mother, who had sat up all night awaiting his return, good citizen Miller G. Scouten, one of the most widely-known men in the city, owner of extensive tide lands and a leader in this county, fired a bullet into his brain this morning and a few hours later in St. Luke's hospital. Business troubles are assigned as the reason for the act, as he had threatened to kill himself recently.

LOSS ON BET CAUSED SUICIDE.

New York Waiter Lost Savings on Election and Took His Own Life.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, Nov. 4.—[Exclusive Dispatch.] Despondent because he had lost his small savings on Bryan—and himself, Gustav Sutterman, 21 years old, employed in a large Broadway restaurant, committed suicide in his furnished room at No. 865 Sixth avenue, by inhaling gas.

Always enthusiastic over casting his vote, he returned to his place of employment and told his friends that he had lost all his savings on Bryan. When returns showed that the Democratic nominee had met with an overwhelming defeat, the young man became downcast and shortly after returned to his home.

Samuel Begerth, proprietor of the house, smelled gas today and traced it to the room occupied by Sutterman. Breaking down the door, he found the boy dead in bed. A chandelier had been pulled from its fastenings on the ceiling and at first led the police to believe the death was accidental. Investigation, however, showed that it was a suicide.

Unique Effort to Be Made to Clear the City's Leading Benevolent Institution of Indebtedness—Prize for Best Article on Bethlehem Will Be Given.

Citizens of Southern California will be given an opportunity between now and Thanksgiving Day to show their public spirit in a very substantial way in helping one of the most worthy philanthropies in this part of the country. A campaign to raise $10,000 in the next three weeks has been inaugurated by the directors of Bethlehem Institution, to meet a very pressing need. Bethlehem is in debt, and unless financial assistance is promptly given by the people of Los Angeles, the work for social betterment among the less fortunate of our population will be sadly crippled.

It is unnecessary to explain the nature of the work being carried on at the Bethlehem Institution. There is hardly a city from Maine to California that has not heard of what has been accomplished by Dana Bartlett, the superintendent, and his corps of assistants in helping thousands toward useful living. The mother house, on Vignes street, is a life-saving station. The means employed to help those who are driven to apply for assistance are not merely palliative, but in all that is done, the aim is to help in a way that will last. Not only are the physical needs supplied, but with the warm dinner, the clean bed, and the fresh clothing is the brotherly interest that makes the forlorn one look up, filled with courage to go out and renew the struggle for existence.

That the value of Bethlehem Institution is appreciated by the different public organizations of the city is shown by the heartiness with which they have indorsed the campaign for more funds. The Merchants' and Manufacturers' Association has shown its approval by the following letter:

"At a meeting of the board of directors of the Merchants' and Manufacturers' Association the movement to pay the indebtedness of the Bethlehem benevolent board was approved. It is the intention of the board to make Saturday, November 21, a "Star Day," and public-spirited citizens of Los Angeles are urged to support this worthy institution to the best of their ability."

The City Council has consented to the selling of Bethlehem stars on "Star Day," Saturday, November 21, when an effort will be made to dispose of 100,000 stars at 10 cents each. A systematic canvass of the city will be made on that day, which will be accomplished by the aid of volunteers from the public schools and assistants in each ward of the city, who in turn will have helpers in every precinct. The stars will bear the slogan, "Dana Bartlett asks you to buy and wear a Bethlehem star."

Other plans are being worked out by committees for the campaign. One that can be mentioned is the literary contest, in which a cash prize will be offered to the writer furnishing the best short article giving reasons why Bethlehem should be helped.

Those composing the Central Committee for the $10,000 campaign are Mrs. L. M. Culver, chairman; Mrs. H. K. W. Bent, Mrs. A. I. Bradley.

ENGLISH BARMAIDS.

Find a Defender in the Countess Markievicz, Who Is Also a Fine Whip.

One of the most talented and interesting of the women who are taking active part in the "Votes for Women" campaign in England at the present moment is the Countess Markievicz. The Countess is a comparatively young and exceedingly pretty woman who has made herself the acknowledged leader and champion of the 200,000 and more barmaids, whose existence as such is seriously threatened by would-be reformers. She has frequently taken the public platform, both in England and in Ireland, her native country, in their defense, and being a capital speaker with a ready wit, she is popular with her audience. It was the Countess who organized and was the chief speaker at the big demonstration in Trafalgar Square recently on behalf of the barmaids and as a protest against their threatened wholesale dismissal.

The Countess, among her other accomplishments, numbers that of being a good whip. As an ardent suffragette her contribution to the campaign of publicity, which the women's societies have been carrying on in England for some years, is to drive a four-in-hand, the coach of which is profusely decorated with banners, about the streets of the large cities. On the occasion of the big Albert Hall meeting she piloted a four-in-hand through the maze of traffic that is constantly to be found in the Strand, with a skill that excited the admiration of even the 'bus drivers, a class of men who have a superlative opinion of their own superiority in the handling of the reins. The Countess also made her appearance on the box of a coach at the now famous by election in Northwest Manchester, where Winston Churchill lost his seat in the House of Commons, when he presented himself for reelection.

Countess Markievicz is Irish by birth, being the daughter of the late Sir William Henry Gore-Booth, Bart., of Lissadell, Sligo. She is an artist and actress and many other things rolled into one. It was while she was studying art in Julien's in Paris that she met the Polish Count, Casimir Dunin de Markievicz, with whom she fell in love and whom she afterward married. The Countess's pictures have been exhibited at the Paris Salon and at the Dublin Academy. Her husband is also an artist and, in adition, a playwright, and it was in one of his plays that his talented wife made her first appearance on the stage.

Besides being a capital whip the Countess is a fine horsewoman, and for some years was the only woman permitted to ride in the point-to-point races of the Sligo Harriers. She is very popular in Irish society, before her marriage living with the Marquis and Marchioness of Zetland, the latter being her cousin.

Gov. Hughes seldom enlivens his public addresses by relating amusing incidents, but at the Greene County Fair recently he relaxed. He was inspecting, he said, with the aid of the principal, the school in a small town. After visiting the gymnasium, swimming pool and auditorium they entered the history classroom. An oral examination was evidently in progress.

"Thomas," said the teacher, "did Martin Luther die a natural death?"

"No, ma'am," was the prompt reply, "he was excommunicated by a bull."

LABOR.

FINISH OF SAM GOMPERS SEEN.

He Is Discredited as Result of Bryan's Defeat.

Downfall in Federation of Labor Is Expected.

Failure to Deliver Unionist Vote Means Ruin.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, Nov. 4.—[Exclusive Dispatch.] That the avalanche which covered Mr. Bryan in his third defeat marks the end of Samuel Gompers as a unionist leader was the opinion of many labor men in the city today.

"Gompers stands a discredited leader as a result of yesterday's vote," declared one union man. "He cast his lot with Bryan, and attempted to deliver the labor vote to the Democratic party. The vote shows that he failed ignominiously, and his defeat means his downfall in the American Federation of Labor, I believe."

It has been well known that Gompers has faced bitter opposition in the federation in the last few years. At the last two elections he succeeded in winning by the narrowest margins. It was the general view here that his fiasco in this Presidential election would give his enemies in the federation renewed strength, and would enable them to defeat him for reelection as president.

There was plenty of open opposition to Gompers in his efforts in the campaign. Many of his fellow-leaders disapproved strongly of the entry of the federation into politics at all. Still others came out openly for Taft, and Gompers had a hot fight on his hands.

MADE VIGOROUS CAMPAIGN.

Gompers made a vigorous campaign, speaking in many States, sending literature and speakers to every local in the federation. From the beginning of the election returns it was plain that Gompers's effort to throw the labor vote to Bryan would not meet with success.

The unionist centers in the State are in the counties of Albany, Erie, Onondaga, Rensselaer and Schenectady, which include the cities of Buffalo, Syracuse, Troy, Cohoes and Schenectady. In all of them, except Erie, Taft ran close to the extraordinary majorities of Roosevelt in 1904.

As the returns arrived from other States it became more and more evident that the labor vote had refused utterly to trail behind Gompers. In some union centers Taft fell behind the Roosevelt figures of 1904, but in general the labor vote apparently had divided much as usual.

HOLDING THE RECORD.

OHIO MOTHERS NEW PRESIDENT.

STATE STANDS BY HER SON IN DEMOCRATIC VOTE.

Plurality of Fifty Thousand for Taft Is Offset by Twenty Thousand on Other Side in Local Situation. President-elect Promises Immediate Tariff Revision.

[BY DIRECT WIRE TO THE TIMES.]

COLUMBUS (O.) Nov. 4.—[Exclusive Dispatch.] Ohio, "mother of Presidents," stood by her youngest son with a plurality of 50,000, perhaps more, but the Democrats captured the State and minor offices in the excitement. It is estimated that the State has gone Democratic by approximately 20,000. This is due entirely to local affairs, the labor deflection, Senator Foraker, the negro vote, and numerous other internal ills from which the grand old State is suffering. The vote was enormous, and the count is exasperatingly slow. Fewer than a half-dozen counties have completed their count, and, when this is completed, it may be shown that the Republicans have saved several minor offices from the wreckage.

The slow count delayed knowledge of the decision as to the Legislature, and both parties claim to have the majority in that body that will settle the United States Senatorship. The same slow count delayed the decision as to the balance of the State ticket.

In an interview today, President-elect Taft stated he would certainly call a special session of Congress to carry out the pledges made in the Republican platform.

"It is specially urgent," said Judge Taft, "that the tariff be revised. We have to show the Democratic party what 'unequivocally' means. The word seemed to be a puzzler to them during the recent campaign. The tariff will have to be revised by men who understand it thoroughly, and it will be a big task. I shall recommend to Congress that we carry out every pledge made in the Republican platform as soon as possible, and a special session will be absolutely necessary."

TYPEWRITERS' EXERCISE.

The Hands Move Over Miles of Space During a Busy Day's Work.

[Washington Post:] "The everyday actions ought to result insensibly in developing the muscles we have," said the man. "Take, for instance, working a typewriter.

"If a man writes the word 'then' figure out how much ground he covers. Taking the four letters in order, his hands travel altogether a distance of no less than four and one-half inches.

"Suppose that the word comes at the end of a line. He raises his hand to shift the paper up a notch, and he has covered about five inches raising his hand and an inch coming back to the space bar. There is fourteen and one-half inches of motion just over the circumstance of writing a word of four letters at the end of a line.

"Studying the amount of travel done by the hands in the course of an extended article written by the typewriter, it runs up into large fractions of miles in the course of a day. If a man walked a mile he would feel it a little bit, to be sure. But it never occurs to him, apparently, that he is sending his fingers and hands over a long course during the week if he does much work by machine.

"The forearms are kept always at right angles to the upper arm, and that throws a certain strain on the biceps muscles. They and the muscles of the forearms ought to be strengthened greatly by a course of typewriting, but this is the sort of exercise that is too near home, like house work, sweeping and the like, to be attractive.

"Think of the motion that is started when an error is made on the typewriter. If the key is struck only lightly, then the carriage may be run back and the letter struck over again. That involves a movement of the hands over a considerable distance.

"If, however, the mistake has to be erased, the operator has to enlist a new series of movements. Reaching perhaps into a drawer for an eraser, shoving aside some papers to get at it, then the motion of rubbing out the letter, replacing the eraser and running the typewriter carriage back where it was in order to write in the words or letters as they should have been. When it is all figured up in the course of a day's work, it is an appalling distance of ground traveled by the hands and fingers.

"Nervous persons who are all the time using their hands also do not realize how much extra work they are putting on their organisms. Take the case, too, of the person one sees much in the street cars. A woman riding downtown to the theater, say, and eternally fussing with a stray lock of hair or arranging her dress or picking specks of dust off. She works the fingers of her gloves down a little more snugly, or something of that sort, but never once in the whole time can she be said to be entirely quiet.

"The man who strokes his mustache or scratches his nose contemplatively or rearranges his tie or moves his hat about doesn't seem to realize how many movements he is throwing on his muscles.

"Getting on or off a car, walking in the street, even sitting idly and reading a newspaper whose sheets need occasionally to be rearranged—all these charge the muscles with something to do. When it comes down to taking of exercise, it appears that every person is taking involuntary exercise all the time. It is just like thinking. It is impossible to stop thinking at will, and just in the same way it is impossible to stop exercising the muscles."

A UNIQUE OCCUPATION.

Young Woman Makes Shorthand Reports of Funeral Services for Relatives.

There is a quiet young woman in a quiet, unobstrusive gown who has become quite a familiar figure at funerals in Greater New York. She is well-known to the undertakers at least. She always sits in the background with notebook and pencil, and her nimble fingers jot down verbatim the addresses and prayers that are uttered at the coffin's side.

This young woman, it is said, up to a year ago was a stenographer in a big mercantile house downtown. She lost her place on account of the hard times, and the consequent curtailing of the office force. She haunted the employment agencies at the various typewriter concerns for a time, but there were a thousand others doing the same thing—looking for a job. Her money was running low and she grew discouraged. Like many women she had a penchant for going to funerals, but had not been able to indulge in this morbid fancy while regularly employed. She went to a big church affair one day, and took along her notebook and pencil, thinking she would take down the addresses just for the sake of practice. As the people were filing out, a man asked her what she had been doing, and she falteringly admitted that she had been taking down what was said so as to keep from forgetting her stenography. The man in question proved to be a friend of the family of the deceased, and said that if she would write out the prayers and addresses, putting in the hymns in their proper place, that he would pay her well for the transcript. She got $15 for this. It then occurred to her that here was a way of earning a living, better and more profitable than anything else in her line.—[Exchange.

The Fate of the Earth.

Dr. Fridjof Nansen, the Norwegian explorer and scientist, has been predicting what fate will come upon the earth, far away in the future, when the sun grows cold. He says the higher organisms of life will disappear first and gradually the course of extinction will go on down until only the very simplest forms of life remain. These, too, will eventually disappear, and at last, says the scientist, the waters of the earth will freeze, even to the bottom of the oceans. Then carbonic acid will fall from the atmosphere in the form of snow-like flakes, and some time after this the temperature will go down to 320 degrees below zero, Fahrenheit. The atmosphere, he thinks, will be turned into a liquid, and new oceans will be formed, the atmosphere of the new earth being made up of hydrogen and helium. He thinks the sun will go through a similar process and will continue through space, a dark star, accompanied by its planets.—[The Pathfinder.

Fishing With an Ax.

Hon. Thomas McEvoy, of Chicago, today performed the unusual feat of catching a big fish with an ax, says the Paw Paw Mich. correspondent of the Chicago Tribune.

Mr. McEvoy was wading out to trim off some piles that form the foundation for the pier in front of his palatial summer home. Friends on shore were surprised to see him jump almost out of the water, and then swing his ax as if he were attacking the winter's wood supply.

Five minutes later he waded ashore with a thirty-two pound red horse.

Mr. McEvoy said the fish tried to bite a chunk out of his left leg, and he had to kill it in self-defense.

Charcoal Removes Stomach Poisons

Pure Charcoal Will Absorb One Hundred Times Its Volume in Poisonous Gases.

Charcoal was made famous by the old monks of Spain, who cured all manner of stomach, liver, blood and bowel troubles by this simple remedy.

One little nervous Frenchman held forth its virtues before a famous convention of European physicians and surgeons. Secheyron was his name. He was odd, quaint, and very determined. His brothers in medicine laughed at his claims. Thereupon he swallowed 2 grains of strychnine, enough to kill three men, and ate some charcoal. The doctors thought him mad, but he did not even have to go to bed. The charcoal killed the effects of the strychnine, and Secheyron was famous. Ever since that day physicians have used it. Run impure water through charcoal, and you have a pure, delicious drink.

Bad breath, gastritis, bowel gases, torpid liver, impure blood, etc., give way before the action of charcoal.

It is really a wonderful adjunct to nature, and is a most inexhaustible storehouse of health to the man or woman who suffers from gases or impurities of any kind.

Stuart's Charcoal Lozenges are made of pure willow charcoal, sweetened to a palatable state with honey.

Two or three of them cure an ordinary case of bad breath. They should be used after every meal, especially if one's breath is prone to be impure.

These little lozenges have nothing to do with medicine. They are just sweet, fresh willow, burned to a nicety for charcoal making and fragrant honey, the product of the bee. Thus every ingredient comes to man from the lap of nature.

The only secret lies in the Stuart process of compressing these simple substances into a hard tablet or lozenge, so that age, evaporation or decay may not assail their curative qualities.

You may take as many of them as you wish, and the more you take the quicker will you remove the effects of bad breath and impurities arising from a decayed or decaying meal. They assist digestion, purify the blood and help the intestines and bowels throw off all waste matter.

Go to your druggist at once and buy a package of Stuart's Charcoal Lozenges, price 25 cents. You will soon be told by your friends that your breath is not so bad as it was. Send us your name and address, and we will send you a trial package by mail free. Address F. A. Stuart Co., 200 Stuart Bldg., Marshall, Mich.

FIRST DEFEAT.

PRETTY RUGBY BY VANCOUVER.

Britishers Finally Strike a Winning Stride.

Stanford Loses Strength in Absence of Captain.

Cardinal Scores but One Try Against Visitors.

[BY DIRECT WIRE TO THE TIMES.]

STANFORD UNIVERSITY, Nov. 4.—[Exlusive Dispatch.] Stanford was outplayed by the Britishers today in the first game of the international series, and a hard-fought contest resulted in the score of 11 to 3 in favor of the Vancouver fifteen.

Only at spasmodic intervals did the cardinal players threaten the visitors' goal until the last few minutes of play, when, after several unsuccessful passing rushes, Holman secured from the ruck on the 10-yard line and broke through for the only Stanford try of the day.

The visiting team depended largely on its forwards for ground gaining, their fast dribbling rushes being the spectacular feature of the contest.

For the first time this year Stanford was forced to play a defensive game and the absence of Capt. Crawford in the scrum and Erb at half was severely felt. Koerner was back in his place and Faulkner continues as the Stanford fullback.

The unusual style of place of the British team partially accounts for the failure of the Stanford fifteen to make a better showing, but with the exception of Miller and Faulkner, the Cardinal backfield was hardly up to its best form.

The miserably poor work of Referee Blair slowed the game and stopped many spectacular plays before well started.

The first period was more nearly even than the second. The Cardinal fifteen holding the visitors down to one try with more of the play near the center of the field.

Clever forward work by Deykin and Bryant caused the visitors' score. In the second half Vancouver started with a rush and a clever run by Johnson brought the ball well into Stanford territory where Newcombe took it over for a try.

Holman and Scott came near scoring by a beautiful passing rush after the drop out but Holman's fumble lost the opportunity. Vancouver dribbled back and McLorg scored from the 20-yard line, Ellis converting.

Stanford then braced and rushed repeatedly, Holman finally scoring.

SNAPPY PRACTICE.

OCCIDENTAL SCRUBS OUT.

The snappiest football practice of the Occidental season was held yesterday afternoon when forty-five men turned out in uniform and engaged in the play. The big turnout was the result of a call for second-team men which was made at yesterday's chapel exercises.

Coach Garton selected the strongest scrub line and added to it the 'varsity back field, and against this team he pitted the first team linesmen with a scrub back field. The 'varsity backs succeeded in making several touchdowns through their teammates on the opposing eleven, and the play was fast and furious.

The college band and a large number of students were in the bleachers. The student body is confident the team will win from U.S.C. Saturday, although Coach Garton thinks the players will have to take a brace in order to score any points.

TO PLAY LAWYERS.

HIGH SCHOOL WANTS WORK.

The Los Angeles High School football team is to meet U.S.C. Law School tomorrow afternoon at Fiesta Park. Play will begin at 4 o'clock.

The blue and white men have been practicing daily this week in anticipation of a game Saturday, but Coach Noble has been unable to make any arrangements for a match.

The next big game in which the Noblemen will participate is scheduled for November 14, when the team will go up against the Occidental Tigers. Coach Noble believes this game will be the hardest of the season, as he regards the Presbyterian team as the strongest aggregation in the intercollegiate conference.

All the High School players are in excellent condition. Dave Brant, who was badly battered in the last game, has fully recovered. The men are holding snappy practices and are anxious for a game.

AFTER GIANTS' GOAT.

SOUTHERN STATE STARS.

The Southern State League is to send an All-Star team picked from the various teams in the league against the Los Angeles Giants, at Joy Park, November 22. Secretary C. A. Nagle, acting for President Reeve, appointed Manager Pete Hansen of the Thistles and Capt. Stuart of the Dolgeville club a committee of two to pick out the All-Star team and also to arrange details of the game. The following is

Terry Mustain, who is to fight Al Kaufman next week.

the personnel of the picked team as selected by Chairman Pete Hansen of the committee: Leonard, Dolgeville, catcher; Annis, Gardena, pitcher; Rhuland, Dolgeville, pitcher; J. Metz, Dolgeville, first base; Scanlon, Thistles, second base; Nalle, Dyas-Cline, third base; McGaugh, Rivera, shortstop; Clarke, Thistles, left field; Stuart, Dolgeville, center field; Haskins, Gardena, right field; Nordquist, Thistles, substitute; V. Nagle, Rivera, substitute.

To Play Water Polo.

The Bimini Athletic Club water polo team and the Neptunes, a newly-organized club, will play a game tomorrow evening at Bimini Baths. After the game, a 220-yard swimming race will be held between Abegg, Southern California short-distance swimmer and once champion in Switzerland for all distances, and F. Holborow, short-distance champion for California.

The line-up will be as follows:

Athletic Club.		Neptunes.
Barnwell	forward	Lannon
Holborow	forward	E. Brown
Scholz	half	Abegg
Collins	back	Brant
Stockton	back	V. Brown

M'GRAW HUSTLING.

LOOKING FOR NEW PLAYERS.

Manager McGraw of New York has forty-four players on his roster for next season. The chances are that not more than about twenty-five of the forty-four will accompanying the team to the South next spring.

McGrew says that the Giants next season will not be a two-pitcher team. There is a great deal of significance in this statement. He banks a whole lot on Marquard, Durham and Crandall to help out Mathewson and Wiltse, but McGraw is too wise a manager to start a season with such a staff. He knows this from experience during the closing days of the 1908 pennant race. Just one more seasoned pitcher during the Cincinnati series last month would have landed the pennant for the Giants.

It can be stated with authority that next season the Giants will have at least one more seasoned pitcher to start with. The club had a very prosperous season and is willing to spend $25,000 for classy pitchers.

There is another breach to fill in the ranks of the Giants before another season rolls by. A high-class left fielder and hitter is required. And maybe there will be two changes in the outfield. Seymour, while a good hitter, is not enough of an inside player to suit McGraw. Seymour is naturally a good hitter, but a classy pitcher has little trouble getting the best of him.

The infield looks strong enough. Tenney is expected to give good service another season. Second base is well guarded with Doyle and Herzog, and Bridwell is good enough at short. There isn't any question about Devlin putting in another season at third.

The catching department could stand a bit of strengthening. When Bresnahan was compelled to lay off during the closing days of the struggle, Needham was the only man available, and he hardly filled the bill.

FOUR WEEKS HERE.

COMISKEY IS PLANNING LONG WESTERN TRIP.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO, Nov. 4.—[Exclusive Dispatch.] President Comiskey of the White Sox will in a day or so begin mapping out the original draft of the trip that the South Side ball team is to take next spring in preparation for the season's campaign.

The California trip this year will be arranged a little different from what it was last year. The players will be given more time in the sunshine of the Pacific Coast before they are hurried back East to start their strenuous season's work.

Last spring the Sox regulars were given only two weeks in California, but this year it is likely some three or even four weeks of the warm climate will be enjoyed by the players while getting into condition.

The tedious trip to the southern cities which set the Sox back so much last year because of the bad weather probably will be cut out next spring, and the team will return to Chicago by the middle Western route.

HOT WORD WAR WITH NELSON.

McFarland Wants to Battle for the Fun of It.

Dane Ready to Take up Deft and Big Side Bet.

Rough and Tumble Tactics in Negotiations.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, Nov. 4.—[Exclusive Dispatch.] Battling Nelson and Packy McFarland all but settled the lightweight championship question between them this afternoon in a rough and tumble fight.

The rival lightweights met accidentally in the office of a local newspaper and a request by McFarland for a chance to fight Nelson for the title the latter won from Gans so aroused the Dane's ire that it looked for several minutes as though there would be a fight in which no gates would be thought of by the men.

After several minutes of charges and counter charges, during which Nelson told McFarland that he was untruthful and a "bum fighter," Packy told Nelson that he would fight him for $5000 a side in private just for the fun of the thing, and at once the Dane took up the challenge. Friends of the fighters kept the men apart, but they kept on slinging mud.

One of Nelson's cutting remarks was to the effect that McFarland wanted to fight him so as to get loser's end and then enhance his reputation. To this Packy replied that he would fight winner take all and bet $5000 of his own money on the side.

McFarland's manager, Harry Gilmore, butted in then and said he had another $5000 he was willing to risk, and the proposition looked like a big money maker for the Dane.

However, nothing came of the talk, except that it made it look as though the men were almost sure to get together at an early date.

TRAINING ENDS.

FLYNN IS GOAT HUNTING.

Jim Barry ended work yesterday for his battle with Jim Flynn Friday night, with a long run on the Vernon road and exercising in the ring in the afternoon. His last boxing was done with George Herberts and consisted of three sessions. Barry ended up his appearance in the field by stepping on the scales and turning the indicator to 183½ pounds. This figure is three and a half pounds less than when he fought Johnson, but the Chicago heavyweight considers it to his advantage to be less bulky when he meets Flynn, who is little more than a middleweight.

Barry stated that he was confident of beating the fireman in a few rounds and that he would go after Flynn in the very first session and try for an early knockout. He is jealous of the way Kaufman finished Flynn and his whole endeavor will be to get a better record than the San Francisco boy.

Flynn has scaled his weight down to 163 pounds, but he looks the trained athlete in spite of his lack of avoirdupois. Flynn seems in better shape than for any of his recent Los Angeles fights and his own assertion that he never felt more prepared for a battle will assure the fans of a hard contest.

Flynn finished his training yesterday with road work and light exercise in the gymnasium. He cut out boxing and worked merely to keep his wind in shape. Flynn is so confident that he has Barry's goat that he is willing to bet his money that he wins over his opponent and he will back himself to a considerable amount.

Flynn already has accepted the offer of the Pacific Athletic Club to meet Kaufman again in case he defeats Barry tomorrow evening and the contest will be staged during Thanksgiving week. Barry also has given assurance that he will take on Kaufman, as he made an arrangement with Manager McCarey to fight three battles for the club before returning to his home in Chicago, and the Flynn battle will be the second of the three, so the fans may rest assured that at least one more good heavyweight battle will be placed on the boards this month.

The arrangement of the bouts for tomorrow evening is as follows:

Mike Dalton and Congo Coon, six rounds.

Young McGovern and Kid Brennan, six rounds.

Eddie Danaher and Willie Mack, six rounds.

Jim Barry and Jim Flynn, ten rounds.

BILLY PAPKE FAVORITE.

THANKSGIVING FIGHT BETTING.

[BY DIRECT WIRE TO THE TIMES.]

SAN FRANCISCO, Nov. 4.—[Exclusive Dispatch.] Billy Papke is a 10 to 8 favorite over Stanley Ketchel for their fight which is to take place at the Coliseum, Thanksgiving eve. With the usual preliminary skirmishing, and the announcement of an even-money price, Tom Corbett declared tonight that he had plenty of money to bet on Papke at 10 to 8 and that the Ketchel supporters could come and get it if they desired.

"Some of these commissions," said Corbett, "came from Los Angeles people who saw the fight on Labor Day. Then there are a number of people in San Francisco who like Papke and have sent in their coin, instructing me that they are willing to lay 10 against 8 on the result."

This early betting is an indication of a healthy interest in the coming twenty-round battle. While it has generally been conceded that Papke would go into the ring a favorite, it was thought that the outset would be even and that it might later drop to 10 to 9.

This early established favoritism, however, is a sign that the public has accepted Papke and will go to him strong. Undoubtedly, also, the fact that Ketchel's weight is given out at 178 pounds, with his clothes on, has induced people to believe that he will have no easy task to make the weight and that it might go against him.

McFarland and Hyland.

CHICAGO, Nov. 4.—If he cleans up Tommy Murphy at Philadelphia, Packy McFarland will go to Denver some time during the early part of December and take on Fighting Dick Hyland, the tough California lightweight. They will box twenty rounds at 133 pounds, the weight to be made in the afternoon.

Buckland Is Winner.

PHILADELPHIA, Nov. 4.—[Exclusive Dispatch.] Fred Buckland of England won from Jim Trenwith in a fast bout in the windup at the Wayne A. C. tonight. It was the third meeting of the boys, and as there is much feeling between them, they went at it fast and furious from the start to the finish bell.

TA-RA-RA-RUM—

RACING IS DEAD THROUGH EAST.

CALIFORNIA IS NEXT IN LINE FOR THE UNDERTAKER.

Hughes and Deneen Are Champions of Clean Sport Through Crusades Against Race Track Gambling. Boxing Also Affected in the General Washing of Linen.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO (Ill.) Nov. 4.—[Exclusive Dispatch.] "We're dead for four years and nobody knows how much longer," such was the moan today of local horsemen who have been actively acquainted with the racing game east and west, and also with boxing.

To the victory of Gov. Deneen in Illinois and of Gov. Hughes, the unrelenting opponent of gambling at race tracks in New York, over his rival Chanler, was a blow from which the horseman will not recover soon.

The victory of Hughes means the closing of tracks which ran for years, just as the repeal of the Horton law meant the crippling of the boxing game in New York. Here in Illinois the same situation obtains. The victory of Deneen not only means there will be no racing in Illinois, but it also means that the boxing game will be kept under cover.

The effect of the election of Gov. Hughes, in New York may work against the California game. The opposition has been strong in Kentucky and Tennessee and will be stronger next spring and summer.

PEOPLE PREFER DOLLARS TO DOCTRINES.

Southern Democrat Finds Country Is More Concerned About Its Material Prosperity Than the "Immortal Soul of Its Constitutional Fabric."

[BY DIRECT WIRE TO THE TIMES.]

LOUISVILLE (Ky.) Nov. 4.—[Exclusive Dispatch.] Henry Watterson will say in part in tomorrow's Courier Journal, reviewing Tuesday's election:

"The result of Tuesday's election shows conclusively that a great majority of the people of the controlling section of the Union are well content with things as they are; that it is better to endure the conceded shortcoming of the party in power than embark upon an unknown sea of continuous agitation; that Bryan meant this while Taft meant rest; in short a dollar, though tainted, in hand, is worth a bush full of patriotic abstractions.

"The idiosyncracy of the time is commerce. As in the last century it was liberty reaching out after institutional freedom—and measurably attaining it—it is now materialism reaching out after markets. The average voter of better education and intelligence takes no thought of the hereafter, and is even more indifferent to the heretofore. He is completely engrossed by the present. That which Bacon calls 'the wisdom of our ancestors,' makes little appeal to his reverance or reason as that which Burns calls 'light from Heaven,' makes to his imagination. He would not exchange the current crop reports with a rising price list for all the books that were ever written upon political economy. He either carries the fool of the vicinage with him or else raises enough dust to blind his eyes and disarm his suffrage.

"The result shows that we oversized the spiritual and undersized the material in the hearts and minds of the people. They were deaf alike to precedents, to reason and to eloquence, for nothing could surpass, as nothing has ever equaled the personal canvass of Mr. Bryan; its wondrous lucidity and power of statement; its splendid intellectual and physical endurance, its unanswerable argument. Nor did Ignatius of Loyola sweep through a world of incarnate evil bearing the cross of Jesus to triumph with greater force of inspiration and truth than did the heroic son of Nebraska traverse a land gaping with curiosity, but too busy over its work and play to consider any danger to the immortal soul of its constitutional fabric.

"There is something yet better than being President of the United States and that is the real sense of duty done. Tilden will live in history when Hayes is forgotten or execrated. History will say of Bryan that in three great popular movements, clouded sometimes by errors of judgment and obstructed always by corruption—as we now know by insurmountable corruption—he led sublimely; that he set before his countrymen the standards alike of God and truth; and that he went down beaten with clean hands and high repute, carrying with him the homage of patriotic men."

SPEND MILLION FOR NEW CARS.

Western of Maryland Ready for Trade Revival.

First Eastern Road to Add to Its Equipment.

Most of Its Old Stock Ready for Active Service.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO (Ill.) Nov. 2.—[Exclusive Dispatch.] Among the first of the eastern roads to reënter the market for additional equipment is the Western of Maryland.

That company is prepared to spend $1,800,000 in supplying itself with the equipment which it feels certain will be required to take care of its business when trade revives.

It has asked for bids on 500 steel gondola cars, ten cabooses, ten consolidated freight locomotive, and three switch engines. It contemplates further the purchase of 500 hopper cars with steel under frames.

The Western Maryland kept its equipment in good shape all through the period of depression. It claims that 95 per cent. of all it owns now is fit for active service.

They Won't Obey.

Dr. Ethelbert Gilbert of Duluth is willing in marriage ceremonies to omit, whenever requested to, the obnoxious "to obey."

One of Dr. Gilbert's parishioners took him to task about this matter the other day.

"What right have you," he said, "to tamper with the marriage ceremony?"

Dr. Gilbert, not at all perturbed, laughed easily.

"Oh, well," he said, "that 'obey' is a dead letter anyway. The very best woman in the world promised to obey me eighteen years ago, but she hasn't to this day."—[Kansas City Journal.

Too Often It's True.

An automobile party was touring through the mountainous district of Western Pennsylvania and had made a stop in one of the small towns to make some repairs to the machine. While they waited the attention of one of the party was called to an intelligent-looking lad of about 14, who seemed to be very much interested in the work, and of whom the following question was asked:

"Say, son, what do you live on out here?"

"Nothin'," replied the somewhat surprised youth. "Dad's a preacher."—[Judge.

Madame De Lagercrantz.

Wife of the Minister from Sweden Is One of the Most Remarkable Women Who Has Figured in Vanity Fair.

BY MARGARET B. DOWNING.

WASHINGTON, Oct. 31.—In Herman de Lagercrantz, envoy of the King of Sweden, Washington has been presented to a new type. A man of high birth, deep learning and exalted political station, he devoted the early years of his life to ameliorating the condition of the poor. Following the example of that noble Prince of Sweden, the Crown Prince, and now King, he became enthusiastic over the vista opened by the Salvation Army, and he gave up public life and political ambition to become a disciple of Gen. Booth. That he was called from the work he selected to high preferment in the councils of state, is proof that in Sweden, at least, the office seeks the man, and not vice versa. Madam de Lagercrantz may also be counted as a type entirely different from the usual chatelaine of a foreign legation. Like her husband, she comes of old and aristocratic lineage. Her father, J. S. Cronsberg, was a powerful politician and landowner in central Sweden and served a quarter of a century in the Swedish Senate. Her home in Stockholm was one of luxury and refinement. Not less pretentious was the great country estate maintained by Senator de Cronsberg, where she spent all her earlier years. Her betrothal to Mr. de Lagercrantz meant to espouse the career she had chosen. Though she could have remained at court, surrounded by the elegance to which she had been accustomed, she joyfully gave up such a future, and immediately after her marriage set out for London, where her husband was studying the organization of Gen. Booth.

She lived for many months in London in daily communication with Gen. and Mrs. Booth," said Madame de Lagercrantz to the writer, "and that was drinking of life to the full. Our home was small and humble, very near the national headquarters of the Salvation Army, in Queen Victoria street. All our neighbors were only the poorest people, but there we spent the happiest days. When one realizes all that life means, the responsibilities to the neighbor, to the community, to humanity at large, then alone we find happiness and understand what it means to live. My husband had early been attracted to the propaganda of Gen. Booth, and I soon became as enthusiastic as he. I knew Gen. and Mrs. Booth very well, but it would require some one much more eloquent than I to describe their wonderful organization and the way they could communicate their spirit to the recruit. Catherine Booth, wife of Gen. Booth, whom we lovingly call the 'Mother of the Salvation Army,' was one of the wonderful women of the century. She was certainly the most powerful and eloquent public speaker of the gentler sex of this generation, and she blazed the way for woman to aid in the work of salvation practically and without encroaching on the prerogatives long claimed as man. My eldest daughter was born in London, and soon after we both believed himself sufficiently trained to take up the work in Sweden, we returned to Sweden, and all the cares of my family—I have seven children—made my active participation in my husband's labors impossible.

"But I have never ceased to take an interest in the Salvation Army and to follow its work. I am proud of the great influence which the army has attained in Sweden. Perhaps you do not know that my country was the first to organize the army officially and to utilize its machinery for the distribution of charity. 'Fralsnings Armen,' as the people call it, has an official position, and its province is rapidly increasing. There are steam kitchens where everyone gets food when the need is proven by competent authority. The poor apply to the police or to officials in certain sections and they are given a ticket. For this ticket presented at the steam kitchen a good meal of soup, vegetables, bread and meat is given, and it may be eaten at the place or taken away. Food is otherwise sent to those who are known to be in need, without their application.

"Every variety of municipal charity is looked after by the army. There is a day nursery for young children whose mothers must labor. There is an employment bureau for women and girls in the country and a good home where they are permanently settled—every effort which aids in an emergency. But all my energies have always been directed in providing means for poor people to get sufficient work to raise funds for accepting municipal charity. My husband is a fervent follower of Gen. Booth in this essential. So in Stockholm, where the Salvation Army headquarters are situated, every effort is made to unbuild those industries designed to become self-supporting. We have a woodyard where men may earn their breakfast, or obtain suitable clothing to wear in search of work. There are laundries for those who live in tenements and have no place to wash their clothes, or where they may earn a little money by washing for others. In these are found every appliance for manipulating the laundry—rinsing, drying and the mangle, all free. Soap and starch are furnished by the applicant, but it will be given a few times gratis in cases of urgent necessity. We have public bath-houses with pools attached, where the poor may have a hot and cold bath and swim with good soap and towels provided for five cents. In poor districts coffee rooms are set up in open-air saloons, where an excellent and very appetizingly prepared may be obtained for a nominal sum. These rooms are made attractive with growing plants and dainty napery and service, and they are wonderfully popular as well as physically.

"The most commendable charity under the direction of the Salvation Army in Sweden is the care of convicts and prisoners generally after they have served their sentence. On the release of each prisoner from the penitentiary or local jails, he is given in charge of a designated section of the army, usually away from his former habitation, or where he has no home time. He is taken in and given a certain time to gather his forces. Always he is treated with kindness and every effort is made to arouse his moral nature and appeal to the best which is in him. He is then given opportunity to work. If he proves even in a small degree worthy he has a chance to redeem his past. If he shows disposition to idleness or viciousness he is dismissed. Only after repeated failures to reform, with its military precaution of strict discipline, reports his case and he is kept under surveillance without any return to crime. As a result of this measure this course has been excellent.

"I will not dwell on what the Salvation Army has done for the cause of temperance, all over the world as well as in Sweden. It claims that hundreds and thousands of confirmed drunkards have been converted from their vice, and as total abstinence is a condition of membership this may be easily comprehended. In Sweden has existed the Gothenberg method of regulating the liquor traffic in order to recognize and, if possible, to break the habit of drinking intoxicants entirely eradicated, but that the question therefrom may be minimized by practical regulations. Like all successful temperance propagandas it does not attempt to prevent the use but the abuse of liquor.

"I have been cordially interested in the work of the Salvation Army in this country, especially in New York, Philadelphia and Chicago. I visited Chicago last spring and had the pleasure of meeting Jane Addams and of inspecting the Hull house movement. It is a great work and one which draws us closer together in the bonds which mean the universal effort to cure the universal ills.

"No one who has Swedish blood in her veins can fail to experience a thrill of gratification in coming to this great country where so much of Sweden's best has been expended in the upbuilding of this splendid new race. Then I see with what reverence the memory of many of Sweden's grand men and women are cherished. There is Ericsson, who built the Monitor, which turned the tide of victory during your Civil War, whose name is honored in so many signal ways. Our sweetest singers, Jenny Lind and Nilsson, are embalmed in the hearts of your vast music-loving population. We also have our reverence and pride in your most loved poet. Longfellow lived for several years in Lund, where the great university is situated. He studied under Esais Tegner, one of our famous poets, and for half a century professor of Greek at the university. The sagas of Longfellow are part of our literature as well as of yours and we take equal pride in his other beautiful songs.

"Life with us of course is different, but I look forward to a winter in Washington with keen anticipation. Most of my life was passed in the country estate of my father, but I lived in Stockholm many years and have visited all the historic spots of my country. We Swedes are an open-air people and though we have a short summer we enjoy every moment to the full. Some idea of this national idea may be obtained by knowing that we have in our land over 1400 lakes and 1700 islands, and there are summer homes on or near all; scores of them, as thick as comfort and privacy will allow. Those who cannot afford a house have a tent and cook their meals in the primitive ways of the fathers—a faggot fire and a kettle or two. The richer class have the summer home full of guests, and there is visiting and a gala time during the warm, genial days, which are all too short. In the winter, every one of the higher class lives in Stockholm, and though we have national customs and our own methods of conducting our social amenities, life there differs but slightly from life in every capital of the civilized world."

Just now Mme. De Lagercrants is busy preparing to take possession of the new Swedish legation, which is the fine mansion recently erected by former Senator John Henderson of Missouri, at the head of Sixteenth street. The mansion is one of the collection of splendid homes built after foreign models, and happens to be after the Spanish type, a replica of the famous archepiscopalian palace of Salamanca. M. Lagercrants, with the conservatism of his race, prefers his own house gods, and the furnishings will come principally from the Stockholm residence. The establishment of a Swedish legation marks an era in social Washington, and it is one of the pleasant anticipations of the winter that it opens under such brilliant auspices. The Swedish minister during the past sixteen years, M. Grip, was a bachelor who lived in chambers and took only an occasional excursion into Vanity Fair.

Mme. De Lagercrants will present her two daughters, Miss Mary and Miss Eva, who, though formally presented at court in Stockholm and to official society in their home capital, spent last winter abroad and have not yet experienced the joys of a Washington winter. They are charming, unaffected girls, as one would expect from such delightful parents, and they look forward to the season with zest. Mme. De Lagercrantz will take her part in social life quietly and unostentatiously. She is opposed to all display, and dislikes notoriety, attaching to her purely personal affairs. Her daughters will accompany her on the rounds of visits obligatory, and will assist at the receptions. Dinners will be given in season, and perhaps a few functions planned for young people only. But all social plans are a little hazy at this season. Nothing becomes definite until the official programme is announced from the White House, and the diplomatic corps may decide on dates without fear of conflicting with state ceremonials.

Madam de Lagercrantz.

"Heaven Help the Furriner."

The case was one of assault in Ireland, and the magistrate, fearing that it might be the beginning of another outbreak of hooliganism, was inclined to be severe.

"For the second time," he said, addressing the prisoner, "you are charged with assaulting your neighbor. The evidence shows that you deliberately and without any apparent cause struck the complainant with your clenched fist."

"Faith, yes honor," cried Pat, "if I did, he struck me back again!"

"But he only did so in self-defense," said the judge.

"An' what about me?" asked Pat.

"All about you," answered the magistrate. "Is that you are found guilty, and must, therefore, keep the peace with all His Majesty's subjects for twelve months."

"Well, thein," roared Pat, as he left the court, "heaven help the first furriner Oi meet!"—[Exchange.

HONORABLE TOIL AIDS WOMEN.

ADVANTAGES ENJOYED BY PEOPLE OF THIS COUNTRY.

Employment Develops the Person and Enables Women of America to Be Less Dependent Upon Relatives Than in Other Countries, Where Social Customs Differ.

If you have your own living to earn, you have a peculiar reason to be thankful that you are an American woman, says Thomas Baldwin, in the Chicago Tribune. We are not wholly free from snobbishness and the spirit of caste, but in all the world around there is no land where honest work carries less of stigma, where men and women are taken at their own intrinsic value, than in this peerless, unrivaled, unapproached and unapproachable republic of ours.

"Ladies" in the best sense of that much abused word are recognized in any circle that is worth the entering; many of them at some time in their lives earned their own bread.

The time was when kings and queens set their subjects the example by laboring with their own hands. Ovid advises maidens if they would have the favor of Minerva to learn to use the distaff, to card and to spin. Alexander the Great is said to have shown to the Persian princess his garments made by his mother. English records and German customs of female royalty furnish similar proofs of hand industry.

HONOR TO COURAGEOUS WOMEN.

All honor to the women who make their own way in the world, rather than be a burden upon the hands already too heavily laden, or accept at the hands of relatives or strangers the bread and dress of genteelly disguised charity. It is to your credit that you are not passing down the stream of life at the expense of your fellow-passengers.

God made women as well as men for employment. Employment makes the woman in a great measure. It is not careful training, neither sound instruction, nor good society that makes women. These are the means, but back of these lies the molding influence of a woman's life, and that is employment. Many women regard work as a disagreeable necessity, never giving consideration to its dignity and nobility, never realizing that in toil alone is to be found the only real happiness.

Society is graded in inverse proportions according to the amount of leisure enjoyed. Business is valued for its returns, not for the employment, the exercise which trains the body, develops the mind, and builds character. The ideal of no work is the fetich set up for worship by almost all classes; consequently the old moral dignity of labor has been hurled from its pedestal and the new religion of idleness proclaimed as the best means to gain the elysium of happiness on earth.

ENVIED WOMEN'S HEALTH.

Richard Jeffries, in one of his sketches, tells of meeting three women field workers whom he envied for their health.

"There was that in their cheeks," says he, "which all the wealth of London could not purchase; a superb health in their carriage princesses could not obtain."

Jeffries envied those women, but they envied him more; hatred flashed in their eyes, and in their hearts they cursed him because they had to work while he seemed to be idle.

A woman's occupation makes her—hardens her muscles, strengthens her body, quickens her blood, sharpens her wits, corrects her judgment, wakes up her inventive genius, arouses her ambition, and makes her feel that she is a woman, by taking a woman's part in life. One hundred and twenty pounds, more or less, of bone and muscle, does not make a woman. The body, muscle, and brain must act a woman's part, do a woman's work, think a woman's thoughts, and bear a woman's weight of character and duty, before they constitute a woman.

You can put clothes on a dummy and it appears to be a human being, but to be a woman and appear to be are two different things. Human beings grow, women are made. We have lady loafers around—gas bags, air bubbles, which burst and are gone, butterflies, good enough to dance and dine with, masculine grasshoppers—things that grow and die like autumnal insects, despised and forgotten. Idleness from choice is both destructive and disgraceful.

IDLENESS GATHERS NO SHEAVES.

Idleness never made its way in the world and never will. The world does not owe us a living. Every man and woman alike owes the world work. Nathaniel Hawthorne says:

"It is my creed that a man has no claim on his fellow-creatures beyond bread and water and a grave, unless he can win it by his strength and skill."

Luck waits for something to turn up. Pluck turns up something. Good luck is a woman with her sleeves rolled up, hard at work, making things go. Bad luck is a woman with her arms akimbo set, looking for a man to take care of her.

The disparity between men's and women's wages is not always an arbitrary discrimination against woman because she is a woman; it is often due to difference in the grade of work. Don't look upon your work as a temporary makeshift until some man will make a home for you. Be as determined as the man who succeeds, have the same ambition to reach the top, and the disparity in the wages will likely disappear.

Find out what groove you are intended to fill. There are women trying to paint landscapes on canvas whose souls have never caught the divine sense of beauty, who should be scrubbing floors. There are women seeking stenographers' positions who should learn spelling in a secondary school. You may be pitchforked through a course of Latin and Greek, and yet if you have no practical training along a special line your service will have little value.

TRAIN EVERY WOMAN TO WORK.

Every woman should be trained to do some useful thing to support herself if necessary. And this exigency often occurs, and the helplessness of many a woman of education and refinement under such circumstances is something painful to contemplate.

W. D. Howells has depicted thrillingly the struggles of an educated and accomplished woman suddenly left penniless. She sets bravely to work to turn her accomplishments to account for self-support. First, she tries decorating pottery, but her work is not finished enough to bring her the needed income; then she tries coloring photographs, then writing for magazines, then fine millinery—always with the same result.

She could do many things fairly well, but nothing well enough to be well paid for, till at last she comes down to making cheap bonnets for servants, and by that coarser work she manages to eke out a precarious existence, till the novelist, as the only way of extricating her from so trying a situation, is compelled to marry her off.

SHOULD MASTER SOME TRADE.

Now, this may be fiction, but it is not a stranger to fact. Our great cities are full of heroines of this sort. Let every woman, no matter in how comfortable circumstances her parents may be, master some one thing—and know that one thing clear through—no matter what; let her make her services valuable somewhere; let her show something of what Burns was pleased to call "the glorious privilege of being independent." How calmly she could then face misfortune.

No woman can hold her position nor reasonably hope for an increase in wages if she devotes all the time she can spare from the adornment of her person to the neglect of her duties. Prove your right to the title of woman. Don't expect the business world to take you on trust. Prove that you are a worker and a winner and the world will make room for you.

RAILROAD NOTES.

The new railroad station the Pennsylvania Company is building in New York is so far advanced that its proportions have become apparent. Altogether there will be 1,000,000 square feet of solid masonry floors in the building. More than 600,000 square feet of hollow terra cotta blocks will be used for partitions and for covering steel columns. It is planned to make this an absolutely fireproof structure. Within the last few months great progress has been made on the station. In the center of the excavation there is a temporary wooden scaffolding, which cost the contractors $40,000, to be used for building the skylight roof of the general waiting room. The waiting room will be 320 feet long by 110 feet wide.

As the Pennsylvania and Long Island railroads have already expended $5,000,000 on Long Island electrification, and it is intended to expend millions of dollars more, elaborate experiments are in progress for trying it all the questions involved in connection with electrical equipment and appliances. A six-mile stretch of track has been set aside for the experiments for which $75,000 has already been expended purely for preliminary work. So far one of the most important facts brought out is that on the electric locomotives nearly the whole weight is thrown upon the big driving wheels which causes them to pound the tracks with the force of a sledge hammer and causes a twisting and wrenching of the rails that puts them out of adjustment at the joints. In six months it is expected that the railroads will have compactly thought out information that will come close to revolutionizing electric railroading.

The Railway Business Association calls attention to the great volume of business which the railroad companies themselves furnish. They distributed over $1,000,000,000 in the last good year in wages. They purchased also over $1,250,000,000 worth of manufactured material of all kinds, made up principally from iron, coal and wood, iron ore being worth 25 cents in the ground, soft coal 10 cents unmined, and lumber $5 an acre in the tree; consequently the raw material represented in the material purchased by the railroads did not represent $250,000,000, but the other $1,000,000,000 was actual labor or wages.

The Illinois Central Railroad promises to have its Chicago suburban service electrified by 1910 so that a mile a minute clip will be possible, and that one and two car trains will be run every minute during the busy hours. It is estimated that the cost of changing the terminal will be from $3,500,000 to $4,000,000. With new equipment the amount expended will total nearly $10,000,000.

The International Nickel Company has just closed a contract with the Pennsylvania Railroad which calls for a solid roof of nickel silver for the gigantic new terminal at Thirty-fourth street. It is said that this will be the first of its kind in the world. The roof will represent a high grade of silver, containing 70 per cent. nickel and the balance copper.

Prof. William Z. Ripley says in the Railroad Age Gazette that the average weight of a locomotive at the close of the Civil War was approximately 90,000 pounds. This has increased in somewhat the following proportions: To 1881, 102,000 pounds; to 1893, 135,000; to 1895, 148,000; to 1898, 230,000; rising in 1900 to 250,000."

OBJECT TO NEW RULE.

Golf Players Discuss Out-of-Bounds Proposition and Blame Rules Committee.

There seems to be a general disposition among golf players to blame the Rules Committee for their alteration of the out-of-bounds rule to loss of stroke and distance. That is the rule upon which the largest amount of criticism has been fastened. The obvious objection to the alteration is the practical one that will help to add to the congestion of the links. A main contention is that the added penalty for a ball being out of bounds will lead to timid play off the tee. At an abstract proposition affecting the justice of the penalty there is apparently no disposition to question the fairness of the rule, but it is being denounced because it will lead every player in a match to abandon a dashing, slashing game in the tee shot and to adopt the safe and pawky tactics of all who believe that the middle way is ever the best.

The out-of-bounds player is to be so leniently dealt with that he is to have a second shot in order to recover lost ground, while the one who has played the proper game by keeping in the middle of the course may be very badly bunkered, losing two strokes, perhaps, to get his ball out on the fair way once more.

The new rule will redress the inequality of punishment which at present exists between the straight and the crooked player. In nine cases out of ten the ball out of bounds is the effect of a bad shot. The boundary fence is present to the eye of every player and if he cannot modify his grip or stance so as to keep his ball from flying out of bounds, even with the wind blowing in that direction, the obvious deduction is that he has still to improve his golf education. But he has no justification to try out against the harshness or unfairness of the rule.

The boundary fence is always a better marked hazard on the course than the canceled pot bunkers lying beyond a knoll on the fairway, and when it comes to be a question of summing up the treatment which should be given to a really bad shot out of bounds and a shot which is cruelly trapped on the straight line it is the last named player who has just cause for grumbling at the inequitable working of the present rule, and not those who escape so lightly when they drive out of bounds.

The attempted scare about the effect of the rule in making the tee shot play more and more timid is not likely to have much weight with golfers who know their subject thoroughly and who can draw upon a wide experience of play.

Agricultural Notes.

A hen attains her best laying capacity in her third year. She will lay in an average lifetime from 300 to 500 eggs.

An acre of cotton land in Egypt yields four times as much as one in this country.

A palm which grows in South America has a leaf measuring fifty feet long and twelve feet broad—the largest in the world.

Oranges, pears, grapes, cherries, etc., are now being packed in paper boxes containing nitrogen, and the exclusion of oxygen seems to keep the fruit from decay for an indefinite time. Fish shown in Paris in 1900 had been preserved in nitrogen for seven years.

Garlic, onions, shalots and leeks have long been cultivated in almost all countries, and their origin is very uncertain. That of the scallion is better known. It grows spontaneously in Siberia. One finds chives in a wild state throughout the northern hemisphere.

WARNER'S MICHIGAN VOTE.

DETROIT, Nov. 4.—With Detroit and Wayne county estimated to have given Warner a plurality of 6000 and with five other counties out of the total of eighty-three missing, the Detroit News estimates at midnight that Gov. Warner (Rep.) is elected by a plurality of 10,232 over Lawton T. Hemmins (Dem.)

THE MARKETS.

LOCAL PRODUCE MARKET.

The Taft victory was hailed with general acclaim on the market, and there was better business than for some days previous. Trading on the Exchange, as well as on the street, showed a buoyancy, and offerings were considerably larger than ordinarily. Among the first apples to show an upward trend after a long period of depression in apple prices were the Jonathans. Up to the present time not more than two cars of Colorado Jonathans have received throughout the season. The Washington orchardists have also been sparing in their shipments here owing to the low prices. As a result a car of Jonathans from the latter State forms about all the stock offered on the street. The reason for the light shipment is the fact that first-class Jonathans shipped east sell from $3 up a box, while here they have only been selling at about $2. The first advance on them has been for 25 cents. Other apples were plentiful with arrivals of 14,872 boxes. A sale of Bellefleurs was recorded on change.

Eggs from Iowa and Nebraska, both fresh and those in storage for some time, were well offered. The demand for them was light and was that for locals. Only 54 cases were shipped in.

Butter was very firm as evinced from the few offerings which were held right up to top figures. There was some off 'change selling. Receipts were 13,002 pounds. Cheese arrivals were not reported and the market was slow on this commodity.

Potato arrivals were 871 sacks. The long expected Oregons were reported among these and they proved themselves exceptionally good on the exchange board at $1.75 to $2 per hundred. Highlands were plentiful.

Onion arrivals were 301 sacks. They were nearly all Australian Brown, many from Coachella Valley. A sale of 50 sacks was made on 'change.

A few lemons were offered. Receipts were 418 sacks. There were reported arrivals of 163 sacks of sweet potatoes and they sold well.

The largest sale of the day was a ton of orchard run apricots on the exchange at about 6 cents. All dried fruits are beginning to look up. Five sacks of walnuts were also sold. There were no changes in grapes which were all plentiful, or in peaches. Figs were down again.

Sweet corn and tomatoes / were fractionally higher while cabbage is moving well at the present top prices.

SAN FRANCISCO LIST.

NOT AS ACTIVE AS EXPECTED.

MARKET LITTLE HEAVY IN SPOTS BUT CLOSES STRONG.

Inside Selling of Daisy—Heavy Trading in Bullfrog Homestake and Unloading of Golden Scepter—News of Rich Strike on Red Top Lease. Day's Record.

[Special service to The Times by B. F. Taylor, Citizens' National Bank Bldg. Member Los Angeles-Nevada Mining Exchange.]

SAN FRANCISCO, Nov. 4.—The market closed strong, but a little heavy in spots. There seemed to be inside selling of Daisy, and Consolidated sold off a little at the close. Oro closed 15 bid with the stock in strong demand and looks higher. The market was not as active as most of the brokers hoped for, although at the opening on the New York curb, Goldfield Consolidated, Florence, Fraction and Daisy were considerably better than Monday. They all eased off there at the close, due partly to poor wire service, and closed at 33@34, a drop of five points in three days' trading.

There was heavy trading in Bullfrog Homestake at 14 cents, and quite a lot of Golden Scepter was unloaded at one.

Belmont closed weak, offered at 1.15; 2000 shares being traded in on the formal call. Combination Fraction was comparatively inactive, but seems to be picked up on all offerings by all insiders who are not bidding, but seem willing to take all that comes on the market.

Florence sold ex-dividend at 4.05; New York was bidding 4¼ at the opening and 4 1-16 at the close.

Consolidated Red Top Lease, operating on the north half of the Red Top claim of the Goldfield Consolidated property, has just opened up a two-foot streak of the $25-ore level, which gives promise of big things. The first values run from forty to sixty dollars. The company declared a dividend of one day of two cents a share, payable November 25, to stockholders of record that date, with every prospect of regular dividends being continued. The company is working thirty men, and this force will be increased. The lease has ten months yet to run and they are getting out thirty tons of shipping ore a day. The stock was strong on the New York curb, closing 18@19. The following are the closing bid and asked prices with sales on the formal call:

BULGE AT START BOOSTS WHEAT.

HIGH MARK OF DAY ON INITIAL TRANSACTIONS.

Reports of Cold, Wet Weather in Argentina Cause Active Buying by Leading Bulls, Which Results in Urgent Covering by Shorts—Corn Weak, Oats Strong All Day.

[ASSOCIATED PRESS NIGHT REPORT.]

CHICAGO, Nov. 4.—The advance in wheat occurred on initial transactions, the prices established in the first few minutes of trade being the highest of the season. Prices at the start were up ⅝ to 1 3-8 compared with the close of the previous session and after holding near the high mark for a time they gradually declined, and at the close were at the low point of the day. December closed at 99 1-4 and May at 1.03 3-8. The bulge at the start followed an advance of nearly 2 pence at Liverpool, which was due mainly to reports from Argentina which stated that the weather there was cold and wet. Several leading bulls were active buyers and this caused urgent covering by shorts. After the first half hour the market lost its buoyancy owing to later dispatches from Argentina, which minimized to some extent the unfavorable conditions in that country. One report claimed that a statement given out by government officials estimated the wheat damage at 11 per cent. of the total acreage, and if the weather continued favorable the crop will be about the same as last year. Export news was favorable to the bulls, an excellent demand being reported at Duluth and Winnipeg, where forty-five boatloads were taken for shipment abroad.

The advance in wheat caused a firm opening in corn, but the market soon weakened and closed weak for December delivery, but steady for the more distant futures, with prices 1-8 higher to 5-8 lower. December and May closed at the same point, 62 5-8.

Oats were strong all day. Cash oats were ¼ to ⅜ higher, as a result of the fair demand by shippers. At the close prices were a shade to ¼ higher, with December at 48 3-4 and May at 50 1-4.

Provisions were strong part of the day, but much of the strength was lost late in the session. At the close prices were 5 cents lower to 5 cents higher.

Cash quotations were as follows: Flour was steady; No. 2 spring wheat, 1.08@1.04; No. 3, 95@1.03¼; No. 2 red, 99¾@1.01¼; No. 2 corn, 64@65; No. 2 yellow, 63¾@63; No. 2 white oats, 49¼@51; No. 3 white, 48¼@50; No. 2 rye, 74@75; good feeding barley, 54; fair to choice malting, 54@62; No. 1 northwestern flaxseed, 1.31¾; prime timothy seed, 3.75; clover, contract grades, 8.65; short ribs, sides (loose), 6.50@9.12½; mess pork, per bbl., 14.87½@15.00; lard, per 100 lbs., 9.47½; short clear sides (boxed,) 9.25@9.50.

New York Cotton Market.

[By Private Wire to E. F. Hutton & Co., Bankers and Brokers, Members New York Stock Exchange, No. 112 West Third street.]

NEW YORK, Nov. 4.—On firm cables just at the opening the local cotton market was firm and unchanged to six points in advance. Trading was quiet afterwards, and there was some heavy profit-taking just after opening which carried prices down some fifteen points. The ginners' report is due Monday and is expected to be 5,000,000 bales, compared with 4,172,000 on the same data last year. This report does not indicate a crop of 11,750,000 bales, as a large Wall street operator would make you believe, but on the other hand it looks like it will be close to about the largest on record. We look for a traders' market and believe cotton will be a safe sale on all sharp advances.

Cotton made a further advance to high levels in response to higher cables, due partly to American buying in Liverpool as a result of the election. On the rise there was more or less profit-taking and some bear pressure. There were some rumors to the effect that a leading outside operator had taken the short side. Any further liquidation ought to furnish a favorable opportunity for picking up cheap cotton.

Hill at Chicago says: "This election means more to the cotton market than to any other market. Results are hampered by a rate law that may take time and eloquence to have repealed. Retail stores and wholesale stores have bare shelves. Spinners have a very small supply of raw cotton. Innumerable orders to fill these shelves contingent upon this election are scattered broadcast. Returning confidence means increased business in every small hamlet, and this helps dry goods. Get some cotton."

Dick Brothers & Co. say: "We strongly advise purchases and do not believe that those who await reactions will benefit much by their delay."

J. S. BACHE & CO. say: "The bulls are confident that the demand after election will improve enough to enforce a higher range of values."

H. S. & Co. say: "Optimism prevails in all quarters, and, despite an advance of 85.00 a bale from the low point, the trend of sentiment favors a further improvement."

Dick Brothers say: "We place amount cotton ginned up to close of October 31 at 6,166,000 bales."

BANQUET AT TOKIO.

American Commercial Men Guests at International Love Feast in Japan.

[ASSOCIATED PRESS DAY REPORT.]

TOKIO, Nov. 4.—The various Japanese associations interested in foreign trade tonight gave a banquet in this city in honor of the representatives of the Pacific Coast business interests now visiting in this country. The function was attended by fully 200 business men, and in the speeches delivered there was a frank and free interchange of views and ideas, the general tone taken by the speakers being such as to clearly prove that all apprehension as to the possibility of a clash of commercial interests between the two countries is entirely unfounded.

The American speakers showed keen appreciation of the receptions accorded them by the business men of all sections of Japan, and the function, as a whole, is viewed by all who attended as being highly significant and successful, and portending a great future development in the trade of both countries.

REICHSTAG AFTER VON BUELOW.

Attempt Is Made to Secure Explanation of Interview from Chancellor.

[ASSOCIATED PRESS NIGHT REPORT.]

BERLIN, Nov. 4.—The Reichstag reassembled here today. Long before the designated hour the members gathered in the lobbies and the committee rooms and discussed the position of Chancellor von Buelow.

Neither the Chancellor nor any minister appeared at today's session, and the exceptionally full house faced a row of empty ministerial seats.

Four interpellations were moved, asking the Chancellor to explain the imperial interview. Two were by Socialists, one by a Radical and another by a Conservative.

The house carried by a large majority a resolution to postpone discussion of those interpellations to another sitting.

The impression is that Prince von Buelow will be supported by a majority in the house.

LEAD OF REPUBLICANS RISES WITH COUNT.

County's Avalanche of Votes Piles Up Majorities for the Ticket.

Victory for Taft Even Greater Than Indicated by First Returns—Melvin Given Rousing Boost for the Supreme Bench—Proposal for Capital Removal Hardest Hit of All Side Issues.

COMPLETED returns from the 350 precincts of Los Angeles county show an even greater victory for Taft and the entire Republican ticket than was forecast by the illuminating results printed in yesterday's Times. The total Republican vote in the county was 41,813. Taft's plurality is 19,346, almost equally divided between Los Angeles city and the outside precincts.

Melvin, Republican candidate for Supreme Justice, leads Murasky by more than 15,000. McLachlan for Congress ran more than 4000 votes behind his party ticket. Judge Wilbur received the highest number of votes for the Superior Bench, Conrey, Monroe and Willis following in the order named. Stephens, the Democratic single-shotter, was a bad fifth.

Republican candidates for Supervisor won by handsome margins, ranging from 924 for Pridham to 5520 for Nellis. Republican candidates for the State Senate and Assembly all won handily.

The proposal for State Capital removal was given a terrific blow, 18,981 votes being recorded against it—nearly 3 to 1. The people voted two to one against the plan to separate State and local taxation, also smote the proposal to raise salaries of State officers and to change the make-up of the State Board of Education.

HOME PRODUCT.

OFF WITH OLD, ON WITH NEW.

CANDIDATES FOR MAYOR ARE NOW BOBBING UP.

"Uncle George" Smith, Perry Weidner and A. J. Wallace in the List. "Pop" Blanchard of Ninth Ward to Retire from Council and Frank Nofziger Coming into Race.

Just a fringe of business envelopes with notices to "please pay," about the door of the offices where hungry hordes crowded the day before, a complement of sad-faced ones who failed to get theirs before the polls closed—these are all that remain to mark the scenes of Tuesday's political slaughter. Victors and vanquished have hied themselves away to the springs to soak off the mud.

H. J. Woollacott and Tony Schwamm lingered until late yesterday afternoon. They were still following the forlorn hope that something might happen by the time the last precinct reported in. The lure of office was strong with them and it was slow to fade. Their attacks carried further into the Republican lines than any other, except that of Jud Rush, which was a kind of non-partisan affair, and it was hard for them to realize that they had fallen outside the breastworks.

Albert Norton, the impetuous young chairman of the Democratic League, appears to have taken his defeat deeply to heart. When the shock of battle came Tuesday he realized for the first time that he was only a boy after all set to do a man's job.

His enthusiasm was a marvel of the veterans of both parties, but it was that of the child who had not yet reached the fire. Yesterday the dread of the blaze came and he stayed away from Democratic headquarters all day. A few croakers and bill collectors marred the furniture with their heels in the front office; but the Democratic Leaguers could not face the condolences where congratulations were expected.

Today it is off with the old and on with the new. There are as many candidates for Mayor in the municipal training quarters as there were for President twelve months before the Chicago convention.

FOR MAYORALTY.

The Democrats are rather shy. Their municipal campaign experienced a severe set back Tuesday that almost amounted to a collapse. Oscar Eugene Farish of the Democratic League is a candidate without a following. The Leaguers still refer to him as "the logical candidate of the Democracy."

James Anderson, former chairman of the Board of Public Works, has eliminated himself as a mayoralty possibility. Anderson has told his friends that he would not accept the nomination under any conditions.

Just now Anderson occupies a rather embarrassing position toward the administration. D. K. Edwards has informed Mayor Harper that he desires to retire from the Board of Public Works when his term expires the first of the new year; and he suggests that Anderson would prove an highly acceptable successor. But Anderson just now is counsel for the defense of E. T. Earl in ten libel suits brought by the Mayor and others. He might find it rather embarrassing to attempt to convince a jury that the man to whom he owed his official appointment is guilty of protecting vice in Los Angeles.

Councilman A. J. Wallace still lives in the minds of the remnants of the non-partisan forces. It has been their plan, cherished and nurtured for two years, to nominate Wallace for Mayor to succeed Harper. During all this time Wallace has been "in the hands of his friends."

The militant Republicans, that is the field forces which storm the enemy's fortress on the day of the final battle, are inclined to select a candidate of their own for Mayor. If a poll of those were to be taken this morning the vote would be almost unanimous for "Uncle George" Smith. There is something in the genial smile of the former Councilman from the Fifth Ward that wins the workers. "Uncle George" is back in Nevada today looking after his mining interests there. He stayed in the city long enough to put a cross in the circle at the top of the Republican column. A straw vote was taken at an assemblage of the workers last week, and most of the straws were crooked to resemble the letter "S."

Among the Republican leaders Perry Weidner appears to be a favorite; but in order to win political battles the selection of the leader must rest on the consent of the led. The field workers are flushed with victory, and it is from them that Weidner's nomination must come if he is to plant the Republican standard on the City Hall.

STANLEY WILSON AGAIN.

Stanley Wilson is developing a political appetite second only to that of the headwaters of the Platte. Wilson has expanded considerably since he has been reading his own name at the head of the editorial column of the Citizen. He thinks that his matchless eloquence and the support of his labor-union subsidized weekly should win for him a nomination for Mayor on most any old ticket. This is one of the political shoots that was nipped badly by the frost when the union vote failed to show in Tuesday's finals.

Mayor Harper's friends came out strongly with the close of the State campaign. They are now asserting that the vindication which he is certain to receive from the grand jury should entitle him to renomination and an election as a just recompense for the unjust criticism which he has received through the medium of Tommy Woolwine and the Express; and they add naively that he is likely to receive enough in damages from the Express to conduct an old-time Democratic campaign.

After placing the Ninth Ward in the Republican column on Tuesday, "Pop" Blanchard of Boyle Heights announced his retirement from the Council at the end of the present term.

BLANCHARD QUITS.

Blanchard went into the Council at the end of the last campaign under protest. In fact he refused to stand for the nomination until the Non-Partisan press announced that he

IN BEAUTY SETTING GEMS FLASH AGAIN.

Diamonds Stolen Months Ago by Good Samaritan Burglar Recovered by Handsome Young Matron With Help of a Search Warrant.

WITH the aid of a search warrant Mrs. S. E. Ripperdam of San Francisco, recovered a diamond earring valued at $175 from the authorities of the Good Samaritan Hospital yesterday. It had been stolen from her five months ago by a man known to the police as Thomas Harnett, and turned over to the hospital by him as his property.

This man befriended Mrs. Ripperdam at a time when she was very sick, and used this acquaintance to secure admission to her room when she was removed to the hospital. It is alleged that he stole all of her jewelry, valued at over $1000, at this time, and presented the earring to the hospital authorities as security for his victim's account. At this time Mrs. Ripperdam was unconscious and unable to vouch for herself.

Every effort has been made by the police to locate Harnett. They say that his daring methods brand him as one of the most dangerous criminals who has ever operated in this city. His description has been sent all over the country, but only meager information has been received from two places where he stopped for a day.

All of the jewelry stolen by him from Mrs. Ripperdam has been recovered from pawnshops in this city, except the mate to the earring that was recovered yesterday. This has been located at the Hotel Potter, Santa Barbara, were Harnett passed a few days after leaving this city.

STORY OF LOSS.

The first account of the methods used by Harnett was given at the hearing in Justice Chamber's court, yesterday, to fix possession after the earring had been recovered.

Mrs. Ripperdam was living at the Hotel Vidamar. Early in June, Harnett engaged a room at the same place, and managed to secure an introduction. He was genial with everybody, and soon established a reputation as a jolly good fellow.

On June 10, Mrs. Ripperdam was taken seriously ill, and no one seemed quite so upset about it as Harnett. He hustled around and finally suggested to Harry Cornell, son of the hotel proprietor, that she be sent to a hospital. They went to her room and found that she was almost unconscious from pain.

Harnett sent Cornell to telephone for the ambulance, and during his absence, it is alleged, that the "good fellow" gathered up the jewelry.

Then, he accompanied Mrs. Ripperdam to the hospital, in the ambulance.

GUARANTEES BILL.

No arrangement had been made with the hospital to receive this patient, and when the ambulance arrived Mrs. Harriet W. Pahl, superintendent in charge, went out to investigate. Harnett gave another name and said that he would go security for any bill that might accrue for service rendered. Then, he removed what appeared to be a diamond stud from his shirt and gave it to Mrs. Pahl as a guarantee that the bill would be paid.

Harnett visited the hospital on the first and second days after Mrs. Ripperdam arrived. On the third she recovered from her stupor sufficiently to mention her jewelry and inquire after its safety. The hospital authorities telephoned to the hotel. An investigation revealed that it had been stolen. That night Harnett disappeared.

The police were notified and Detectives Jones and Boyd were detailed on the case. The stolen jewelry included a watch studded with diamonds, a solitaire diamond ring, a bracelet set with diamonds, and the earrings. The watch and ring were located in Main-street pawnshops. The bracelet was found in the room at the Vidamar Harnett had occupied.

A description of Harnett was taken and sent to all the cities along the Coast. The first returns came from Santa Barbara, where the police learned that a man answering to the description had been a guest at the Hotel Potter. They also located one of the earrings, which he had disposed of at the hotel.

While hunting for the other earring the detectives heard of the diamond stud that Harnett had left as security with the hospital authorities. This proved to be the missing jewel. The hospital authorities, however, stated that as Harnett had given them the diamond as his own property they preferred that it be recovered through process of law, so a search warrant was issued.

Mrs. Ripperdam was confined to the hospital for six weeks and she paid her bill upon leaving. But Mrs. Pahl continued to hold the stud, waiting for Harnett to return and claim it. After it was identified as the missing earring she turned it over to the secretary of the hospital, who delivered it to the officers.

Justice Chambers awarded it to Mrs. Ripperdam yesterday. The other earring will be returned from Santa Barbara by a similar process.

Mrs. Ripperdam, the victim of this clever thief, is a handsome young matron. She is the wife of a San Francisco business man, and was here on a visit at the time of the theft. The recovery of her jewelry has taken so long that she has been forced to continue her stay here from month to month.

"It is a shame to have to go to so much trouble to recover my own property," she said yesterday.

San Francisco young woman who was robbed of her valuable jewels here, and who recovered the last diamond with the aid of a search warrant and the Police Court yesterday. Sketched from life by a Times artist.

STANFORD LUNCHEON.

The regular monthly luncheon of the Stanford Club will be held at the Hotel Lankershim Saturday at noon. Plans for the annual banquet of November 14 will be discussed. This is given on the night of the football game between the University of California and Stanford University. On these occasions the banquet hall is always decorated with cardinal banners and college emblems, subdued red lights furnish illumination, while red carnations and red toy balloons figure in the decorative scheme.

BAZAAR STILL OPEN.

The bazaar which has been in progress at St. Joseph's Catholic Church for some time, resumed its gayeties last evening and will be in operation today and tomorrow, which is the last evening.

THE PUBLIC SERVICE.

SUMMARY OF THE DAY.

E. E. Johnson, city tax collector, reports about $500,000 tax moneys received at the close of business yesterday, out of a total of over $3,000,000.

Guy Hadley, charged with assault to murder his wife, Mrs. Emma L. Hadley, June 17 last, was placed on trial in Judge Jamison's court yesterday.

Supervisor Alexander was the only witness examined during the hearing on the Germain good roads bond injunction suit before Judge Bordwell.

On the ground of desertion, Judge James granted Andrew C. Adams a divorce from Mrs. Sylvia Adams.

AT THE CITY HALL.

ONLY SMILES, NOTHING MORE.

MAYOR'S COMMISSIONS LOOK PLEASANT DAY AFTER.

Dairymen Given Two Weeks More in Which to Offer Milk in Bottles Only—Sewer Contracts Awarded. Another Small City Park—Sewer Contracts Awarded.

Post-election day was a rather dull one about the City Hall, but it was propitious for commission meetings, the routine business giving an appearance of "something doing," to offset the after-election stagnation. The Mayor and Chief of Police tried to smile cheerfully at the meeting of the Police Commission, but avoided taking up any serious proposition, disposing in a perfunctory way of the many permits of various kinds.

Chief Kern was given two weeks more in which to decide upon his report, to be made with reference to prohibiting the wearing of regulation police uniforms by theater "bouncers," and others of the same kind, who have been given stars as special policemen, and forthwith provide themselves with the regulation uniform. Hearing of the charges against Patrolman Neelon was also set aside for two weeks from last night, but a "spook," six weeks from Chicago, was granted a permit to tell fortunes and catch "suckers."

Board of Health.

The Board of Health has been appealed to by people living in the neighborhood of a Jewish orphans' home on North Bunker Hill avenue, who complain that twenty-six children are kept in a few rooms, to the detriment of their health. The management was given thirty days in which to better conditions, and meantime Hebrews of the city have organized a society and obtained a lease on the fine old Stern homestead in East Los Angeles. The society is now advertising for bids to make certain alterations in the building, and yesterday were given thirty days more in which to better the condition of the orphans. Mr. Marchutz stated to the board that he thought the new home would be ready by that time.

Mrs. Dr. Jessie H. Farwell was given a permit to conduct a sanatorium at No. 2310 South Grand avenue, in the face of a protest from agents for other property in the neighborhood. Health Officer Powers recommended that the permit be granted. A body of people from Sunset boulevard was present to protest against giving a permit to somebody for a lying-in hospital, but no application appeared.

The regulation calling for all milk to be sold in sealed packages has caused a corner in milk bottles, and it was necessary to extend the time two weeks longer in order that dairymen may be able to secure the necesary bottles.

Tax Money Coming.

Things are very active about the office of City Tax Collector Johnson, for the opening days of the month, but it is the smaller taxpayers who are liquidating. The period for the payment of the first half of the taxes will expire with the month of November, by which time, according to precedent, the payments should approach the $2,000,000 mark. The total amount of the levy is $3,078,000, but considerably more than half is usually paid, many citizens preferring to pay the entire amount at once. At close of business yesterday only about $300,000 had been received, but the receipts will grow rapidly toward the end of the month when the larger sums begin to come in.

Sewer Contracts Awarded.

The contract for the construction of a storm sewer on Second street, between Wilmington and Los Angeles streets, was yesterday awarded to C. H. Luther on a bid of $2400. This is an important improvement, as it is calculated to drain into the storm sewer system the surface water that is every winter so great a nuisance and menace to the section around First and Alameda streets, and the award was accompanied by an urgent request from the Board of Public Works that work be commenced at the earliest possible moment.

Another contract was awarded at the same time to B. M. Crecevich, for the construction of a sewer on Sunset boulevard, between Coronado and Mohawk streets, the lowest bid of $1810 having been accepted.

Park Commission.

The Park Commission yesterday accepted as a gift from the Southwestern Land Company a tract about 300 feet square, in Vermont Avenue Square, to be maintained as a city park. The tract has been nicely improved by the land company, and will make an attractive spot for residents in the southwestern part of the city when the Park Commission has beautified it after more modern plans. It was decided by the commission to ask for a special fund out of which to give sufficient and sanitary lavatory facilities in all the city parks.

LIFE ENDS WITH WORK.

Young Election Official Carries Returns to Courthouse and Death Overtakes Him.

W. A. Workman, 27 years old, a son of Alfred Workman of No. 1013 Alvarado street, died of heart disease yesterday, under peculiar circumstances. The young man had been an election official, and the excitement of this work, in connection with a slight automobile accident, is supposed to have caused the fatal attack.

He worked on election returns in his home precinct until 4 o'clock yesterday morning. Then he started in an automobile for the Courthouse with the returns. At Eight and Hill streets he collided with a milk wagon, but no damage was done.

At the Courthouse Workman collapsed and was removed to the Receiving Hospital. Later he was taken to his home, where he died at 8 o'clock.

"This is the last of five," said his father, Alfred Workman, yesterday. "I have been here fifty years and have had five children, but they are all dead now."

Mr. Workman is the owner of the Workman Block at Third and Los Angeles streets.

BLOOD STAINS IN EVIDENCE.

WOMAN'S SMEARED LINEN SHOWN TO THE JURY.

Wife's Ensanguined Garments Play a Prominent Part in the Trial of Guy Hadley, Who Is Accused by Her of Assault With Intent to Commit Murder.

A heap of blood-smeared underlinen and a revolver placed prominently on a table before the jury-box, attracted all eyes in Judge Jamison's court yesterday, in the suit brought by Mrs. Emma L. Hadley, against her husband, Guy Hadley. She testified that the man shot her three times June 17, last, and then tried to blow his own brains out. Hadley was put on trial for assault to murder.

According to the testimony, he visited his wife at her lodging-house, No. 2129 Oak street, that day, on the pretext that he wished to arrange some business matters with her. He found her working in the kitchen, she told the court, and they stepped into the bedroom, where he drew his gun and shot her in the chest, the right arm, and the left hip. He then turned his gun on himself, inflicting only a scalp wound. After his imprisonment in the City Jail, he made an attempt at suicide by slashing his throat while shaving. The scar of the wound was visible yesterday, whenever the man turned his head to consult his counsel.

"My husband had made an appointment with me that morning by phone," said Mrs. Hadley. "He came to the house, and found me working in the kitchen. He told me he had with him, an insurance policy which I agreed to sign over, so that he might raise money on it. He asked me to step into the bedroom and take it from his lower leg where he had hidden it beneath his underwear.

"As I sat down and pulled away his stocking, I noticed that he put his hand to his hip pocket and drew a revolver. I said, 'You are not going to hurt me?' and he replied, 'Yes, I am going to kill you.' Then he fired three shots at me. I ran from the house across the athletic grounds of Marlborough School, until I fainted from loss of blood.

"The three bullets are still in my body, and the one near my heart causes me acute distress, at times. I had never given him any occasion for an attempt to murder me. We had separated about six months before the shooting."

C. F. Snively testified that he talked with Hadley in the City Jail soon after his arrest, and said the man had told him that he bought the revolver at a second-hand store as soon as he had made an appointment with his wife. Hadley had declared, said this witness, that he went to her house intending to end his troubles by killing both her and himself. He said that his wife began the conversation by asking him if he did not know that he might be imprisoned for forging a check, and that then "a red mist rose before his eyes and he remembered nothing more."

Troubles over property matters and a dispute over a community bank account caused the couple to separate some months before the shooting.

A plea of insanity will be made by the defense. Hadley's grandfather is said to have been insane, and his friends believe him a victim of hereditary mania.

PROTESTS IN COURT.

ALEXANDER TELLS TALES.

Asserting that he had been kept in the dark by his fellow-Supervisors regarding their intention to sell the good roads bonds at private sale, Supervisor Alexander testified fully in Judge Bordwell's court yesterday about his part in the negotiations for the sale of the bonds and the letting of the engraving contract to the W. P. Jeffries Company.

Alexander said that he was away on his vacation when he was summoned by Supervisor Patterson to attend the private meeting of the board August 31. He said that J. H. Martin's proposal to buy the bonds at private sale at a one-quarter point premium for the first $1,000,000, and a half point premium for the remainder, was Alexander's first intimation that a private sale was contemplated. He at once said that he would not consent to a private sale, believing that the public interest demanded an open sale.

"I did promise Martin to keep the terms of his offer private," Alexander said. "But it was because I, like Mr. Manning, was led to believe that Martin had given up the idea of a private sale, and intended to offer the same terms in making a bid at public sale. When the Martin proposal, on less advantageous terms, was made at the public meeting of September 8, I was taken utterly by surprise. I protested, as I later protested against the award of the engraving contract to the Jeffries company. But the award was made over my protest.

"When Patterson refused to have Daggett called into consultation about the Martin offer at the private meeting of August 31, I supposed that was the end of the private sale idea. As the State Board of Examiners has been our best bidder for bonds, I favored the sale of the bond issue in small lots, as we needed the money. I also opposed the letting of the engraving contract to the Jeffries company, because I felt it imposed needless expense on the county."

Under cross-examination, Alexander said that his resolution for the appointment of an Advisory Committee to the Supervisors had been drafted, after consultation with H. W. Brundige and S. A. Butler. He said that Brundige had drafted the resolutions, which met with opposition when first presented to Alexander's associates.

SACRIFICES ALL.

QUITS HOME FOR SECT.

Carried away by her devotion to the Holy Jumpers and their religious practices, Mrs. Sylvia Adams, wife of Andrew C. Adams, deserted her husband in April, 1905, after twelve years of married life. Adams was granted a divorce from his wife by Judge James yesterday, after he had recounted the way in which his domestic happiness was destroyed by his wife's devotion to her sect.

"My wife began to attend the Burning Bush, or Holy Jumper meetings in Los Angeles about five years ago," he said. "Although poor, we had always been happy together with our child, until my wife was carried away by the religious doctrines of that cult. My uncle had given my wife about $800 in bank stock, and one day she announced that she must 'give it all to the Lord.' She said that she would not keep a nickel, and she gave the Holy Jumpers her piano also. We could not reason with her for she was completely devoted to her new associates.

"Her relatives advised me to remove her to Idaho to get her away from her surroundings here, and in April, 1906, we moved to Mountain View, Idaho. I was obliged to go to Boise to work, and I sent money regularly to my family. One November day when I was sick in bed, I received a telephone message that my wife had carried out her often-expressed desire, had taken my child, sold all our furniture, and gone to join the friends of her religious faith in the East. I started for home, sick as I was, and found the report true.

"Last fall I visited her at the Metropolitan Holiness Church Home in Waukesha, where she is now living, and she refused to return to me. She said that she is perfectly happy there and that I must join her if I wish to live with her. I refused to do so, for my home is here."

MINES AND MINING.

WASH SALES LAW KILLED.

Overwhelming Vote Against Proposed Amendment.

Another Alleged Faker Is up for Trial.

Original Hart Discoveries Are Under Bond.

While the returns from all over the State are as yet incomplete, there is little doubt that Senate Constitutional Amendment No. 34, which was voted upon on Tuesday, has been overwhelmingly lost.

The amendment was as follows: "The Legislature shall have no power to authorize lotteries or gift enterprises for any purpose, and shall pass laws to prohibit the sale in this State of lottery or gift enterprise tickets or tickets in any scheme in the nature of a lottery. The Legislature shall pass laws to prohibit the fictitious buying and selling of the shares of the capital stock of corporations in any stock board, stock exchange or stock market under the control of any corporation or association. All contracts for the purchase or sale of shares of the capital stock of any corporation or association without any intention of one party to deliver and of the other party to receive the shares, and contemplating merely the payment of differences between the contract and market prices on divers days, shall be void, and neither party to any such contract shall be entitled to recover any damages for failure to perform the same, or any money paid thereon, in any court of this State."

It is the general opinion of lawyers consulted on the matter that the suggested amendment is faulty in many ways, and it is also believed that a serious mistake was made in including the "wash sale" clause with those relating to lotteries and gift enterprises. The Los Angeles-Nevada Stock Exchange and the San Francisco Stock Exchange Board worked for the amendment, and the latter wired the local exchange yesterday that a majority of from 5000 to 6000 had been polled in its favor in that city. It is probable that efforts will be made to introduce another amendment as soon as possible bearing directly upon the wash sales feature. It is believed among brokers that such a law would tend to increase public confidence in exchanges by preventing one of the easiest and cheapest methods of "rigging" quotations.

Another Alleged Fake.

Another alleged mining faker will receive his preliminary examination today in the justice court at Whittier, when a man named Landis, who passed himself off as a son of Judge Landis of Chicago, will face the Quakers and other residents of Whittier, who allege they have been swindled. The transactions leading up to the criminal complaint involve Landis's operations with the Eldorado Development and Milling Company, owning nine claims in the Nob Hill district of Southlight, and capitalized for $2,000,000 in dollar shares, with $500,000 down in the treasury. Landis was commissioned by the company to sell treasury stock at 25 cents a share, his remuneration being fixed at 10 cents per share. Forty per cent. commission does not appear to have been considered sufficient by this financier, and he subsequently obtained 10,000 shares at a nominal figure from one of the large stockholders who had become disgruntled, and sold it off to residents of Whittier at 25 cents per share as treasury stock. The company, of course, received no benefit from the cessation of development work Inquiry to be set on foot. It is alleged that $12,000 worth of stock was placed in this way, and that in this case a Mr. and Mrs. Boah of Whittier were induced to part with $2000, which included their last dollar. In another case it is alleged that he gave a receipt for $2500 worth of stock in exchange for a house and lot. He afterwards sold the house and lot in return for motor cars and $200 in cash. It is the former owner of the security who never received his stock certificate. It is also said that proof is at hand that Landis is in no way related to Judge Landis.

Deal at Hart.

According to the Hart Enterprise, the Oro Belle No. 1 and Oro Belle No. 2 claims, the original locations which caused the movement to the camp last January, have been bonded by the owners, Hart & Hitt, to A. B. Hall, well known in this city, and formerly superintendent of the Quartette mine at Southlight. It is said that the bonded price was $100,000, with a small payment down, a considerable amount due in thirty days, and the balance in six and twelve months.

From other sources it is learned that the deal is more in the nature of an option, and that Hall has proceeded to Philadelphia for the purpose of interesting capitalists, with whom he has previously been associated. It is generally supposed that the prospective purchasers are represented by Mr. Hopkins, president of the Quartette Mining Company, who is also developing the Jumbo in Hart camp with capital supplied by himself and friends of Philadelphia. Some definite word is expected within the next few days, and if Hall's recommendations are adopted, it is probable that the camp will be supplied with a 10-stamp mill. It is not believed here, however, that the purchase price is as large as quoted; in fact, mining men of the district do not believe it is more than half. Considering the development accomplished, even $50,000 would be a large sum.

At the Jumbo prospecting is going ahead. The 100-foot level, the north drift of which is cut nearly 100 feet and the south drift less than half that distance. Work is also going on at the 200-foot level. George B. Wilson, manager of the Quartette, who is in charge, has recently added to his force at the Jumbo.

Sierra Madre Incorporated.

Articles of incorporation of the Sierra Madre Club, the new mining organization, were filed yesterday with the County Clerk and copies forwarded to the Secretary of State. As soon as the certified copy has been received from Sacramento the initial meeting of the directors will be held and arrangements perfected to take over the lease and quarters secured in the Broadway Central building. The incorporators are A. D. Myers, T. A. Johnson and Sidney Norman. Formal invitations to membership were forwarded in the mails last night to the number of 250.

Strike on Hazel.

The Hazel Goldfield lease on the Last Chance of the Laguna, which has been in process of possessing the deepest shaft in Goldfield, is said to have struck the Red Top vein at a depth of 718 feet, with a full bottom of ore that will average $14.80 per ton. The ore is of the same character as the Red Top, except that it carries some zinc, a characteristic of the product of the Consolidated Red Top and Mushett leases. The shaft was originally started with the idea of striking the Red Top vein at depth, but it was expected that results would be obtained at lesser depth, and the representative of the Chicago stockholders has just recommended that work be stopped. Development will, however, now be continued with added vigor, the intention being to continue sinking until the foot wall of the vein is reached and then run laterals both ways.

Movements of Mining Men.

George H. Welch, western representative of the Securities Corporation, operating most of the large properties at Guanajuato, Mex., and which maintains headquarters in this city, is in New York.

Alvin B. Carpenter of the firm of Carpenter, Brennon & Ryan, mining engineers, developing the Benito Juarez mines in the Pinon district, Zacatecas, Mex., recently returned from a trip of inspection of the property, and reports that the new 150-ton mill will be running by December 1.

T. N. McCauley of the Mascot Copper Company, operating in the Dos Cabezos district, Arizona, is in Oakland. He expects to return to the city within the next week or ten days. He has been to Chicago and other eastern points, after a lengthy stay in Salt Lake City.

Charles Greenlee, formerly part owner of the Smuggler mine, on Twelvemile Creek, Slocan, B. C., and latterly in the forwarding business on the Tonopah and Tidewater Railroad, who has recently returned from the Altar district in Sonora, Mex., will leave today or tomorrow for the new excitement at Sylvanite, N. M., as the representative of a local syndicate.

THE OIL INDUSTRY.

GAS BLOWOUTS IN BALBOA WELL.

NEWPORT DISTRICT ATTRACTS NEW ATTENTION.

Strike Mayy Be Very Important or not, According to Developments. Find Is at Depth of Newport Bay Company's First Well—Deep Test Being Made.

At 2 o'clock yesterday morning the Balboa Oil Company, drilling on the bluffs back of Newport Beach, struck a gas pocket at 2650 feet and a blowout followed that sent water, oil, sand and stones high over the top of the derrick. A second followed about 7 o'clock. The presence of oil in unknown quantity was demonstrated. The value of the find remains to be seen. So far it is too soon to say. The drill has only penetrated the petroleum stratum, if it has entered at all and not merely opened a pocket. The water is filled with oil.

The find is at the level where the Newport Bay Oil Company, three-quarters of a mile to the south, finished in a body of oil, the extent of which is a matter of speculation. The petroleum signs have been strong since passing the 2600-foot mark, gas having been encountered and increasing until the first blow-out came. Above that point no oil sign worthy of mention was encountered.

The well was started with sixteen-inch stove pipe casing. The ten-inch was carried to 1500 feet and eight and one-half is being used at present depth. Water has been shut off without difficulty.

The Newport Bay Oil Company is down 2452 feet and will be sunk to 4000 to test thoroughly the territory. It is close to the No. 1. It went right through the formation in which the other was stopped. With the knowledge gained there has been little drilling difficulty. The company has spent probably about $50,000 on its two holes.

J. M. Kellerman's well is reported in oil and it is believed that it could be finished now at a profit but it is going deeper.

The Collins & Young well is being drilled at a little distance from the last referred to.

The Port Orange Asphalt Company has just finished putting down a 240-foot well into the beds of liquid asphalt found back of Newport Beach. It was just perforated on Tuesday. It is the intention to pump the heavy liquid by air compressor if necessary. It is simply a very heavy asphaltic oil, so near pure asphalt as to be called liquid asphalt.

Midway Operations.

L. M. McCray of this city has just leased for twenty years on one-eighth royalty from Lockwood and Britt the northwest quarter of 16-32-22 just north of the Lockwood Oil Company on the same section. The land is undeveloped but has producing ground on the north, west and south right against its line and there are many wells a little distance east. The Santa Fé's wells on 17 are west.

J. M. McLeod of this city is drilling on 320 acres comprising the north half of the south half and the south half of the north half of 32-21-23. He has also leased part of the north half of 4. Threatened litigation over this is said to have been adjusted.

Petroleum Odds and Ends.

The S. W. & B., a private corporation operating at Coalinga, has just paid its second dividend, about $10,000.

The Associated Supply Company is arranging for a store at McKittrick.

Refinery men say there is a constantly increasing demand for lubricants, especially the higher grades for such as automobiles. Several local refineries manufacture various lubricants as do some of the leading independents around San Francisco and the bay. The Standard makes a great deal at Point Richmond both for domestic consumption and for export. California oil has always been considered very good for this purpose.

RECITAL POSTPONED.

The faculty recital of the Occidental School of Music will be postponed to Thursday evening of next week on account of the death of the father of Herr Oscar Werner.

The town of Pembroke, Ont., was devastated by fire yesterday. Sixty buildings were destroyed. The loss is estimated at $500,000. Pembroke is a town of 5500 inhabitants.

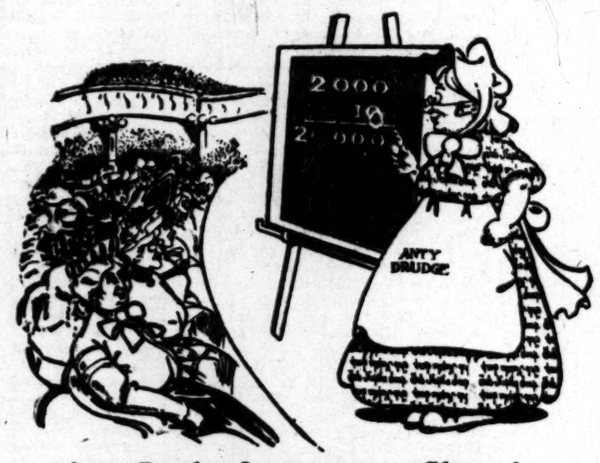
The only part of Fels-Naptha soap that can be imitated is the name.



Anty Drudge Lectures to a Class of Washerwomen.

Anty Drudge—"The old way of washing takes about 2,000 rubs on the washboard for the average small wash. Every rub is equal to a force of 10 pounds, so that you spend 20,000 pounds of precious life. What man does that in a day's work?

"The new way—you use Fels-Naptha soap and let the soap do the work. No boiling water and but few rubs. Done in half the time and done better."

Fels-Naptha is a laundry soap, but it doesn't stop at that. It is also a way of washing clothes. The Fels-Naptha soap and the Fels-Naptha way—together—wash clothes quicker, easier and better than they can be washed with any other soap or by any other way.

Fels-Naptha cuts out the washboiler, the hot water and steam, and all the *hard* labor.

The Fels-Naptha way is so easy and simple, you'd think we wouldn't have to urge it on womankind. But a good many women seem to think that Fels-Naptha is just soap, and if we didn't say something about it, they'd use it as they would use "just soap." This would be like paying some one to do the wash and then do it yourself.

Fels-Naptha can do the hard work; other soaps can't. Why not let Fels-Naptha do it? Follow the easy directions on the wrapper, and use lukewarm or cold water (never hot). Don't boil, or scald, a single piece. Look for the red and green wrapper. Insist on getting it.

Counterfeits of Fels-Naptha soap, like counterfeit money, are worthless.

WORKINGMEN NOT FOOLS.

Perhaps the farthest-reaching and most encouraging feature of the election on Tuesday was the fiat, the crushing failure of one Samuel Gompers to carry out his insulting compact with Mr. Bryan to drive organized labor like a band of cattle to the polls with orders to vote the judgment of the pretended, pretentious boss. This man Gompers, a small caliber foreigner, armed with the elective franchise by the good grace of the American people, with brazen impudence undertook to control the conventions of the two great parties and dictate to the American people a system of jurisprudence un-American, unjust and destructive in its design and tendency. At the Republican convention he behaved in a manner downright ruffianly, and fumed about what he would do unless he was permitted to make a platform after his crude notions. He was permitted to go, not in peace exactly, but without being kicked out.

He betook himself to Fairview, Nebraska, where he was received with open arms, and was then sent on ahead to Denver with a blessing and promise of anything he might demand. He got more than he asked, so ready were Mr. Bryan and his political managers to barter away American principles, their conscience (such as they had) and the industrial peace of the country, which can exist on no other basis than that of justice, for Samuel Gompers's promise to do this driving of organized labor to the polls to vote according to his orders.

The situation at Chicago was acute. The Republican leaders knew what they confronted, for Gompers had gone to Washington demanding that Congress should enact the legislation he demanded, disregarding the Constitution, their oath of office and their conscience. Here was the parting of the ways where a wrong step meant the first move in a path which led to the overthrow of the country. The question was, who shall rule here, this small-bore, ignorant, brazen foreigner, bent on legalizing crime and creating internecine strife, or Congress acting under the oath of office which each member takes to be guided in the making of laws by the Constitution and the unchangeable principles of justice between man and man. The Republican leaders saw that the die was cast—that they must abide by their oath of office and defend the fundamental principles or sell out to this impudent pretender, offering what was not his to give.

Mr. Bryan and his fellow Democrats saw only the prospect of getting a few bunches of much-needed votes, and sold out with an alacrity that was shameless.

Here was a crux in politics. From President Roosevelt to the rank and file of the Republican party it was recognized that there was no longer a way of retreat, no alley through which we might withdraw and shirk the most momentous responsibility since armed men in rebellion against the government had dared to fire on the flag. There was no hesitation. The conflict was joined; Mr. Gompers was told that his demands were impossible; his promises were branded as impossible of fulfillment; and then an earnest appeal on this most important issue was made to the business men of the country, to the wage-earners who were unorganized, who would become a prey to the rapacity and cruelty of the Gompers kind of industrial operator, and to organized wage-earners so grossly insulted by this brassy promise to herd them in bunches and drive them to the polls.

Confidence in the intelligence and in the inherent sense of justice in the American people was all the Republican party had to rely upon. It was the first time during a struggle of many years on the part of Gompers and others of his ilk when from President to private citizen any party had taken courage to give a point-blank refusal to these impossible demands, to ignore the threats of those who made them, to take an uncompromising stand on the immovable foundations of eternal justice and say we would "sink or swim, survive or perish" here.

The struggle has ended. Mr. Bryan stands repudiated by the people who rule. Gompers, the brass-cheeked, would-be usurper of all power in this country, is as innocuous henceforth as a soap bubble that has collapsed. The government at Washington still stands and Heaven still rules justly over the affairs of this great nation. The world is done with W. J. Bryan, with Samuel Gompers and all their kind, in so far as our political life and industrial affairs go. The great, clear common sense, the conscientious devotion to principle and the law-abiding sentiments of the American people are vindicated. A government of, by and for the people takes a new lease of life since the election of Tuesday, and industrial progress in peace and under law, leading to general prosperity for us all, is assured.

When Mr. Gompers came before the subcommittee on platform and resolutions at Chicago, last summer, and a few weak-backed politicians showed some inclination to cringe before him and take his orders, The Times warned all of the certain defeat they must face when the polls opened if such a cowardly course should be followed. It is with infinite delight that we survey the history of these few months and contemplate the result as decisive as it is happy. Our congratulations to the whole people are not to be conveyed in words. But the sensible, law-abiding, conscientious citizens, who brought about this result, feel as we do concerning the momentous victory.

HUMORISTS IN CONGRESS.

It is feared that, owing to the defeat of the Hon. Adam Bede of Minnesota, the next Congress will be without a humorist. We use the words "it is feared" advisedly, for Congress without a humorist is something to not only fear but to positively dread.

And yet it sometimes seems that there should be no grounds for this fear. The wonder is not that a humorist is the lawmaking department of the government should be a rarity, but that there should be a single member of that august body who is not able to qualify as a side-splitter at any stage of the game.

It appears to us difficult to understand how even a man who has never had the slightest sense of humor, not to speak of the ability to create it, could find himself a member of Congress and fail to blossom out, immediately, as a rival to Mark Twain himself, or to Lew Dockstader, if it goes to that.

The reader may ask why. Well, now, suppose you were to wake up some fine morning and find yourself seated at a mahogany desk in a leather upholstered chair with about forty pages and a hundred clerks to work for you and wait on you; a colored man to come to the place where you sit for the purpose of toting your cigar stubs away and keeping the cuspidor clean; a man to take your coat and hat at the moment you entered the door; another man to call out your name whenever you were needed and then all you had to do was to open your mouth and say "aye" or "no," and for this you were to receive $7500 a year without being docked for the days you weren't on hand. Would you grow sad?

As a matter of fact the average member of Congress hasn't a thing in the world to do more than what has been here outlined. To be sure, he sends around a few garden seeds and the like, but it is no trouble to him to do even that. He is not compelled to wrap the packages or address them, or anything but just to tell his clerk to attend to it.

Lack of humorists in Congress? Then what is it that makes humor? If a man who draws a salary of more than $600 a month, without being compelled to perspire one drop of sweat or to lift hand or foot, can't invent jokes and gibes to make a horse laugh, then we wonder how those poor devils who drudge on the comic papers ever manage to earn a living.

THE PROSPERITY MARCH.

ANALYZE THE RETURNS.

In the East the Republican party has generally held its own. In the West the party has lost heavily in most States, in some so much as to fail to hold the States at all, in others holding by only slender margins. When we consider that such States as Connecticut, New York, New Jersey, Delaware and Maryland have always been contested and often carried by the Democratic party, while Iowa, Michigan, Minnesota, Kansas and many other States have until recently been looked upon as impregnable Republican fortresses, surely it must interest us to seek an explanation for the steadfastness of the Eastern States named, to which might be added, Massachusetts and Rhode Island, compared to the alarming falling off in the States in the Mississippi Valley, and to which others might be added, among them Colorado, always Republican excepting on the silver issue of recent years, an issue not prominent in the campaign just closed. We omit to mention Nebraska because Mr. Bryan's residence there was a consideration sufficiently influential to bring to him many votes on the sentiment of State pride. Nevada is also omitted, although usually a Republican State prior to the silver question, because it is a pocket borough largely a political asset of the Sharon family.

If the wage-earners were largely inclined to Democracy, the East would not be so solidly Republican. It is true that large manufacturing centers usually furnish many Democratic votes and that in the North the farmer vote is for the most part Republican. This fact might reasonably have been counted on to hold the Western States firm in their Republican proclivities. Why did it fail?

We think the answer is not far to seek. It seems to us to point out a most important theme for careful consideration by the Republican party. Let us see if this is not true.

Looking back over three previous campaigns, it is worthy of notice that the contentions of the two parties were diametrically opposed. Tariff protection, sound money, impartial laws and courts of justice were the things for which Republicans stood and pleaded. The Democrats violently assailed the protective idea, arguing that the intrinsic value of money means nothing, and that our laws were unjustly severe because they are general and look upon all persons charged with crime in the same light. The Democratic candidate in 1896 and 1900 made a savage onslaught on the courts because they refused to permit one class of persons to violate certain laws for which others were to be punished.

We are not speaking so much of party platforms as of the actual contentions set up by the speakers and journals of the two parties. With these clearly defined and sharply drawn lines of principle, the Republican victories in 1904 were sweeping all over the North and made inroads on the South. The majorities rolled up for the Republican candidates in the West were colossal, excepting in certain States which swung over to Mr. Bryan in 1896 on the silver question, to return in 1900 and in 1904 in a mass to their former Republican allegiance. Why did they waver last Tuesday?

We are persuaded that it was because the Republican party in these Western States has, to a large degree, ceased to be truly Republican, has been seriously contaminated by principles not Republican nor even Democratic, but radically Populistic. All sorts of semi-moral issues were raised in these States. Economic notions not Republican were advocated by persons claiming to be Republicans, impatient, resentful, contemptuous, whenever real Republicanism was brought out with prominence. Tariff protection was sneered at as an obsolete idea. Mr. Bryan's last iridescent dreams of financial legislation, the Populistic notion of Oklahoma, insurance of bank deposits, were taken up by many Republicans. The validity of the courts was temporized with by many others. Party organization was violently attacked as a device of Satan brought up from the pit. On the stump, in the party newspapers, an attempt was manifest to make out that the two parties do not differ greatly on economic questions, and that moral issues and the personal character of candidates was about all there remained to consider.

From a careful scanning of the campaign as it progressed and an analysis of the results, we are persuaded that such is the right explanation of the falling off in the party vote in many States of the Union; that this explains the comparative steadfastness of the East and the wavering allegiance of the West.

We have used in this article several times the epithet "radical." It seems to us in that word lies the key to the situation. The East is conservative because of its great business interests. The business man, whether capitalist, manufacturer, merchant or wage-earner, is conservative. He abhors all that is revolutionary in lawmaking or in State administration. The financial policies and the conservative tendencies of the Republican party hold these business interests steadfast to the party. The man who has nothing, who does nothing, who has nothing to do, and all men who, in a way, are nothing, are radical. But they can all vote, are usually loud in their attacks on things as they are. They are radical. They for the most part line up in organizations which are anti-Republican. The party leaders in the West generally made a grave mistake in pandering to this radical element, alienated the conservative citizens and lost many votes. Many so-called Republicans, in whose veins this radical virus has been working, voted against the party.

We believe these views are correct, and are worthy of the most careful consideration. To our minds this new clearance of opinion in our country has but begun. In some future campaign there will be entirely new alignment in politics. It may be in 1912 or in 1916. It will be a struggle of all the conservatively progressive forces of the country against all the radical forces. The conflict is going deeper than tariff protection and guaranteeing bank deposits. It will attack our form of government and our economic system at the roots. All who believe in the Constitution of the United States will be on one side, and all who would produce a political and social revolution will be on the other.

Who will lead? Mr. Taft or Gov. Hughes on one side; perhaps Mr. Hearst on the other.

TRULY MACEDONIAN CRY.

The grape growers of California confront a serious condition. The crops of the last few years have been abundant, and the consumption of wine has been small owing to the spread of the total abstinence notion. Grape crops in Italy have been very large and the production of wine has been about 100 per cent. above normal.

But there has been added a burden which the vineyardists think as unjust as it is unnecessary.

Sweet wines are those to which the 25 per cent. grape brandy is added at a certain stage, to check further fermentation and preserve the grape sugar in the juice. Makers of proprietary medicines have been accustomed to use much sweet wine in compounding their goods.

The burden which is complained of is from the hand of the Commissioner of Internal Revenue, who forbids the use of California sweet wines for this purpose, compelling the druggists to use imported wines in the manufacture of their medicines.

The laws of Congress are silent on this point and the wine growers think the action of the commissioner is arbitrary and even contrary to the intent of the government. They say Congress is charged with the making of laws, and that the lawmaking body is specific in the levying of taxes. If a tax is to be collected the law says so. If the law is silent no tax should be exacted. The action of the commissioner is looked upon as a usurpation of Congressional functions.

Why not take the controversy into court? Because the Appellate Court's decision is practically decisive and the case could not be taken to the Supreme Court except in a way so tedious and costly that it would bankrupt any single person who should take a case into court.

The statement is made that the product of 12,000 to 15,000 acres of vineyard goes into the manufacture of proprietary medicines and that the throwing of so much back on the market, already overstocked, to be disposed of in another way, depresses the price of grapes to $6 a ton this year, a price at which no one can cultivate a vineyard. The property thus overburdened is worth millions of dollars.

An appeal has been made to the President, and it is reported that he has made a promise to give the subject the careful consideration which it merits.

A month ago, at the meeting of the Trans-Mississippi Commercial Congress in San Francisco, the case was laid before that body and a resolution was adopted, recommending strongly that the relief sought should be granted.

The action taken by the Italian government to relieve the situation adds to the burden imposed on our people, because it enables the wine makers of Italy to sell their products in this country cheaper. Italy has ordered the ration of wine served in the army and navy to be increased. As there are 400,000 rations a day, this creates a market for much wine. The wineries are permitted to distill grape juice, duty free; railroads which are under government ownership transport wines at low rates and a bonus is given on all wine exported.

MUSIC AND THE STAGE.

Grand opera, which continues three times a week throughout the entire winter, writes the Paris correspondent of The Times, may be said to have closed its autumn season with the reappearing of Mary Garden, who is beginning her second season as principal soprano. Seats are at a premium on all nights when she appears, though the role which she has thus far been cast in are neither the most varied nor

Romeo and Juliet," "Hamlet" and "Faust" have been given several times. The latter has not been heard in Paris outside of New York, and when sung by Mary Garden it was written by Gounod for Sybil Sanderson, the California singer, who sang the title role. Garden is almost uniformly beautiful at times weird and dreamy and again with oriental fragrance, again strongly reminiscent of Wagner. And Mary Garden as Thais, the beautiful courtesan and priestess of Venus in the corrupt and idolatrous city of Alexandria, is perfect, fascinating, alluring.

The story goes that Athanael, a member of the Cenobite brotherhood, undertakes the conversion of Thais, who, in turn, attempts to ensnare him by her physical charms, but is overcome by the strength of his purpose and returns to a nunnery on the border of the desert, and there, in the peace and quiet of the secluded life, dies, while Athanael, overcome by his love for her, returns to tell her that her only religion and philosophy was the true one, that there is no god but

Associated with her are Mm. Renaud and Altchewsky, both of whom sang in the Metropolitan Opera-house in New York. The voice of the latter Russian is improving every year, and he seems to have a future before him.

At the Opera Comique, the leading house since Mary Garden went into grand opera is Mme. Marguerite Carré, wife of the manager. She has been having great success in "La Navarraise," "Aphrodite," Manon" and "Louise." The last-named opera is to be given in New York this season for the first time. M. Perier sings the leading tenor roles with her. It was he who created the part of Pelleas to Mary Garden's Melisande in Debussy's operatic setting to Maeterlinck's drama.

The first opera of the young composer was given its premiere at the Opera Comique about two years ago, and was heard in New York last season with the same principals. M. Gilibert, of the Metropolitan Company, is also singing there at present in "Cavalleria Rusticana" and other operas.

It is not often that a musical comedy contains in its cast a prima donna who has had the experience that Gertrude Hutchinson of "A Knight for a Day" has had. She is the possessor of a voice far superior to those generally heard in musical comedy. She has spent two seasons with Henry W. Savage in St. Louis, and has been the star with many musical companies since then. Her greatest ambition is to sing her grand opera, and at the conclusion of this season she is to retire from the ranks of musical comedy and spend at least two or three years abroad in study under world-famous teachers.

Madame Oliver McCoy, a noted reader of both stories, will present an original programme this evening at Chamberlain Hall entitled "The Confessions of a Literary Pilgrim." Mrs. McCoy relates incidents of her visit to Hall Caine, Ian Maclaren, Crockett and other writers.

The Van Stein Academy will hold its regular weekly concert next Saturday afternoon instead of on this afternoon, as has been the custom heretofore.

The Newland-Hunter Trio will hold a public rehearsal for students exclusively at Blanchard Hall Friday afternoon. These recitals are of an educational nature and musical students will find them very beneficial. The price of admission has also been very low.

Archibald W. Sessions resented the new organ recital in Christ Church, corner of Twelfth and Flower streets, last evening. Sonata No. 1, G. Guilmant; "To the Evening Star," Wagner; Caprice, Wolstenholme; Fantasia Op. 15, No. 1, Sjogren; Wedding Song, Mendelssohn and Finale in B flat, Cesar Franck. Miss Nowland, violinist, assisted, playing two numbers (a) Adagio from Suite Op. 10 (Finding,) and (b) Romance from D Minor Concerto (Wieniawski). This was Mr. Sessions' sixty-sixth recital and was enjoyed by a large gathering. These concerts will be given periodically by Mr. Sessions.

The New Back

You Must Have It To Be In Fashion

The proper figure of today has the new habit back and follows the slender, girlish lines of beauty. The hipless effect is more the rage than ever before.

No matter what your figure is, you may further bring out its perfections and hide its small defects by wearing one of the new Gossard models.

No other corset produces the perfect habit back.

No other corset proves such a joy to the dressmaker in giving her a perfect figure to fit—such a satisfaction to the wearer in knowing that she is absolutely perfect in contour.

THE Gossard CORSET
"They Lace In Front"

and they produce a snug, sloping, unbroken line from hip to limb, without that unsightly cut at the bottom, common with back-lacing corsets.

Mrs. Redding, who is this week exploiting Gossard Corsets at our store, will prove to you clearly just why Gossards are different from any other—how they perfectly support the spine—leave plenty of freedom for the vital organs, and produce a correct figure without restricting at any point.

Skirts Made Free

The only conditions are that you purchase the materials of us, selecting from our big stock goods costing $1 or more a yard, and pay for the necessary findings; we will then make a 5, 6, 7 or 8 gore or circular skirt for you absolutely free of further cost. If you prefer a pleated or trimmed skirt, with bands, straps, etc., the additional cost is very slight.

Measurements taken in the afternoons only—1 to 5 o'clock.

EVENTS IN LOCAL SOCIETY.

ALTHOUGH marked by extreme simplicity, the wedding yesterday morning, of Miss Helen Safford, daughter of Mr. and Mrs. George S. Safford of No. 1011 Park View, to Albert McFarland Bonsall, son of Mrs. William H. Bonsall, and grandson of Albert McFarland, treasurer of the Times-Mirror Company, was one of the noteworthy events of the social week. The service was read at 12 o'clock in St. John's Episcopal Church by the rector, Rev. Lewis G. Morris, and was witnessed by relatives and a few friends only. The bride was unattended. She wore a fashionable suit of blue, and carried long-stemmed chrysanthemums. Samuel Bonsall stood

Miss Jessie Roberts,

who assisted as maid at the Wright-Hicks wedding, which was solemnized amid a bower of bright blossoms.

with his brother as best man. The church was attractively decorated with quantities of white chrysanthemums. Immediately after the service Mr. Bonsall and his bride left for a wedding tour and upon their return will reside at No. 1783 West Twenty-ninth street, where they will receive after December 15.

Wedding Brilliant.

Interest centered last evening on the large and brilliant wedding of Miss Emeline Hicks and T. H. Wright, which was solemnized at the home of the bride's cousin, Mr. A. T. Jergins of No. 1037 Ellendale place. The bride, who is tall and graceful, wore an imported robe of real lace and carried a shower of lilies of the valley and white rosebuds. The maid of honor, Miss Jessie Roberts, wore a handsome blue gown, made empire, and carried a shower of pink roses. A. B. Jones supported the bride groom as best man. A special musical programme was given during the ceremony and the reception which followed, by Miss Jane Burgess and Miss Ethel Belcher.

Mrs. Horace V. Tanner,

in whose honor a theater party was given at the Mason last evening.

Both bride and bridegroom are well known in this city where they have a large circle of friends. The ceremony was performed in the large drawing-room, before an altar of maidenhair fern and Cecile Brunner roses. Above this was erected a fluffy canopy of greenery entwined in which, were hundreds of the tiniest electric bulbs. The altar was completed by an artistic background of shaggy pink chrysanthemums, which were softened by small sprays of maidenhair fern. The ball glowed with great clusters of pink blossoms and the dining-room was a bower of beauty. A centerpiece of these blossoms were mingled with lilies of the valley in ornamenting the bride's table. Mr. and Mrs. Wright will take an extended trip and at its conclusion they will make their home at Ocean Park where they will be at home after December 1.

—o—

Edwards of Santa Ana, and a brother of Mrs. Clement Chase of Omaha, Neb., who came to Los Angeles to attend the wedding. Miss Moore looked most attractive in her beautiful wedding gown of Marquise lace, with which she wore a long veil fastened with orange blossoms. Her bouquet was a shower of lilies of the valley. Mrs. C. L. Peck, the matron of honor, was gowned in pale pink satin, made directoire, and the maid of honor, Miss Helen Macleish, wore a directoire gown of pale satin. The bridesmaids, the Misses Dorothy Macleish, Grace Beckwith, Jessie Morgan and Florence Pollard, were robed alike in soft white satin. The attendants all carried bouquets of Cecile Bruner roses. James Gibson was best man and the ushers were Curtis Mansfield, Walter Kelly, Chester Moore, Willard Lyons and C. L. Peck. Bishop Johnson performed the ceremony, music for which was furnished by a large orchestra. The home was beautifully decorated with choice blossoms by Miss Waite. Following the reception Mr. and Mrs. Edwards left for a honeymoon trip, at the conclusion of which they will make their home with the bride's parents, where they will receive after December 1.

THREE HUNDRED SECONDS LATER.

OR FIVE MINUTES AFTER TAKING DIAPEPSIN ALL INDIGESTION WILL VANISH.

Absolute relief for all your Stomach trouble is at the drug store waiting for you—begin today and forever be free of this unnecessary misery.—Eat your favorite foods without dread.

Miserable is the man or woman who suffers from dread Indigestion or Dyspepsia. There are few diseases which create such misery, long drawn-out suffering, as Indigestion. It pursues them before meals, after meals and between meals; they take it to bed with them. It is with them wherever they go, though Indigestion is the simplest disease of all to cure.

Tell such afflicted ones, dear reader, of Pape's Diapepsin; urge the sufferer to go to any Pharmacy here and give 50 cents for a case. Such a sufferer would ever bless you, because five minutes after taking there would be no more Indigestion, no feeling like a lump of lead in the Stomach, or Heartburn, or fullness and discomfort, no Belching of Gas or Eructations of Sour Food, Debilitating Headache, Nausea, Water Brash and other symptoms of a sour, disordered stomach.

Pape's Diapepsin will digest anything you eat without the aid of the Stomach.

Diapepsin is a wonderful Stomach purifier and splendid to keep the intestines clean and fresh; then your food will not ferment and poison your breath with nauseous odors.

Diapepsin will rest the stomach and increase the gastric juices; this is what is mostly needed—more and better digestive juices—and no Gas—then Indigestion and all stomach trouble will go.

Each 50-cent case contains sufficient to usually thoroughly cure the most chronic dyspeptic.

The General Demand

of the Well-Informed of the World has always been for a simple, pleasant and efficient liquid laxative remedy of known value; a laxative which physicians could sanction for family use because its component parts are known to them to be wholesome and truly beneficial in effect, acceptable to the system and gentle, yet prompt, in action.

In supplying that demand with its excellent combination of Syrup of Figs and Elixir of Senna, the California Fig Syrup Co. proceeds along ethical lines and relies on the merits of the laxative for its remarkable success.

That is one of many reasons why Syrup of Figs and Elixir of Senna is given the preference by the Well-Informed. To get its beneficial effects always buy the genuine—manufactured by the California Fig Syrup Co., only, and for sale by all leading druggists. Price fifty cents per bottle.

SCHOOL NURSE STRIKES HARD.

Scolds Roundly Women Who Are Hysterical.

No Thought for Children in Many Marriages.

Mothers' Congress Listens to Useful Talks.

The California Congress of Mothers sustained a severe blow yesterday in the resignation of Miss Mary Ledyard, the corresponding secretary, and the woman who was mainly responsible for the organization of child-study circles in California and throughout the country. At the sessions of the national congress at Washington, Miss Ledyard was the State's representative, having been appointed by the Governor.

The ninth annual convention of the California Congress was opened at the Woman's Club House yesterday morning, Rev. Dr. Hugh K. Walker offering the invocation. Mrs. Chalmers Smith, the president, made a gracious little speech in greeting the members. Dr. W. W. Murphy, honorary president, also made a short talk, and Assistant Superintendent of Schools M. E. Dettinger praised the work done by the child-study circles as the high-est missionary effort possible.

The morning was filled with the reports of officers, the formal address of the president, and reports of standing committees. One hundred and seventy-six delegates from various circles were reported by the Credential Committee. The president said that twenty-three new circles had been organized during the year, making a total of 108.

The programme arranged by Mrs. J. T. McBride included many interesting and profitable features. The Emergency Committee, which cares for poor children and makes its influence felt in every school in Los Angeles, received great praise. This work, under the direction of Mrs. Chalmers Smith, Mrs. C. A. Noble and Mrs. Waddell, has supplied to needy little ones and their fathers and mothers in the past year 9000 garments. Devoted to parents and the protection of the morals of children are also included in the work of the committee. The school nurse, Miss Thornton, declared in her striking speech that if the work of the Emergency Committee was all that had ever been accomplished in connection with the study circles that alone would be a sufficient excuse for their existence.

SCORES HYSTERICAL MOTHERS.

Miss Thornton paid her respects to hysterical mothers, declaring they can cause children untold sorrow and misery.

"A woman may be a fine housekeeper and a miserable home-maker," continued the clear-eyed, astute public nurse. "She may not have one trouble talk and yet be an excellent hysteric. The mother who cleans house all the time and scolds about the dirt is as blamable as the mother who never cleans, and much more unbearable to live with. She makes herself worn out nervously, and has a fit of hysteria about ever so often. I have seen a mother of this type, with children any woman might be proud to own, throw herself into all sorts of contortions, weep, wring her hands and cry: 'Nobody loves me. I might as well be dead.' She insisted that all the family wished her dead, and it was certainly not her fault if it was not true. The most forlorn of mortals is certainly to be envied by the children of such a woman."

The afternoon session was devoted to reports of Childhood and the Home, which put the seal of its approval on further words of wisdom dealt out by Miss Thornton.

It was declared that the first right of a child is to be well born. "In the first place," she explained, "when choosing a husband, a woman should consider whether he has the characteristics she wishes to see in her children. Is he the man to whom her children can look with pride and say: 'This is my father'? How often does a man, when choosing a wife, stop to consider whether she is a good home-maker? If sensible women will choose blindly, in spite of all that is sacred, they must not allow the consequences to fall upon their children. Husbands alone have the privilege of choosing each other, but children have to suffer for their parents.

DYSPEPTIC FAMILIES.

Parents should remember this fact and have the decency to appear bright before their children. A hysterical mother frightens a child almost to death. In that household everybody is quiet and depressed, meals are irregular, the family is afflicted with indigestion and the children are ill nourished. Such conditions are enough to cause anything in the way of trouble—and all because the wife and mother fails to learn self control."

Supt. J. Lockley, superintendent of Los Angeles schools, told what these are doing to prevent the increase of crime. Mr. Titian Coffey explained the work of the housing commission to the convention, and graphically described the evil effects of crowded and degrading surroundings upon babies. The doctor made an eloquent appeal for help in the establishment of a free maternity hospital, which would insure at least decency and comfort to poverty-stricken mothers.

Clever and forceful talk by Mrs. Emma Pierce Wheat concluded the session.

Music for the day's session was delightful. Mrs. J. Hammer played an Irish little fantasie on the zither; Mrs. Frank B. Long sang two children's songs with rare delicacy of interpretation, and a brilliant young pianist, Miss Lillian Smith, played Liszt's "Wings of Song," and selection from "Rigoletto." Mrs. C. Hamilton gave inimitable darky readings.

Today's programme will include reports in the morning and an address by superintendent of schools. In the afternoon the election of officers will occur, and Mrs. Chalmers Smith is expected to succeed herself in the office of president. Mrs. Boynton-Harbert will make an address on "Motherhood." This evening at the Woman's Club House a reception will be held from 8 to 9:30 o'clock for parents, teachers and all who are interested in the work of the congress. Later there will be addresses by Joseph Scott, president of the Board of Education.

OFF WITH THE OLD.

(Continued From First Page.)

couldn't have it, and that his successor would throw all the Blanchard men out of office. Then "Pop" went in to protect the positions of the Boyle Heights contingent. It is rumored among the Republican workers that Frank Nofsiger will return to the Council as Blanchard's successor.

Ed Tufts's unusual activity as a member of the Police Commission was explained yesterday, when word came from the Fifth Ward that the workers there have Tufts in training to succeed Wallace in the Council. Tufts is one of the most popular of the Mayor's commissioners. He, too, has prospects for sufficient damage suit money to conduct a lively campaign.

WOOLLACOTT'S SHREWD PLAY.

H. J. Woollacott surprised even the Republican leaders with his effective fight for Supervisor in the Fifth District. Woollacott gave his opponent a closer run, considering the political complexion of the district, than any other Democratic candidate. He goes down in political history as one Democrat who was able to capture the colored Republican vote. Observing Democrats say he is the most available Democratic material for Mayor.

A good story has escaped the political press censor concerning the manner in which Woollacott captured this vote.

Five weeks before the general election Woollacott suddenly succumbed to an attack of baseball fever. He developed into a fan. Over in the southeastern part of the city there is a baseball ground known as Joy Park. This park is the home of two colored baseball teams that claim between them the amateur championship of the southern part of the State.

To Woollacott these colored teams looked better than Berry's Angels. Every Sunday afternoon found him at the games. Sometimes he dropped out on Sunday morning to watch them practice.

He offered $5 as a bonus for each home run and there was another bonus for each batter who drove a ball into Woollacott's add on the fence of Joy Park. There were other bonuses for stolen bases and the like.

The other candidates went over to the east end of the Sixth and Seventh Wards and made their usual donations toward prospective church edifices for colored congregations, attended colored prayer meetings and sent dressed chickens to the family of the colored minister. But all this was passé; it was the old game, minus a new variation.

When those colored voters went into the election booth Tuesday, and the white ones as well, they forgot all about the chicken, and the prayer meeting, and the church donation and remembered the man who paid $5 for each home run. They voted for him almost solidly and their votes came near winning the district.

It was the one sane bit of political sagacity displayed by the Democrats during the campaign. If Woollacott should use the same ingenuity in a Mayoralty contest he would prove a dangerous candidate.

HERMIT CATTLEMAN ENDS HIS LIFE IN HUT.

Queer Character of the Palms Stabs Himself to the Heart and His Body Is Found by His Brother, Who Thinks Murder Has Been Done and Sends for Sheriff.

Lying on the floor of a squalid little shack, his knife driven to the hilt in his side, the body of C. F. Houghton of The Palms, was found by his brother last night. The man had been dead more than twelve hours when the body was discovered. Threats made by a Mexican, with whom Houghton had had business dealings, led the brother of the dead man to believe that murder had been committed.

A hurry call was sent to Sheriff Hammel in Los Angeles and the Sheriff, in his big automobile, hurried to the scene of the tragedy. After a careful investigation he decided that the case was one of suicide, and ordered the body removed to the Sawtelle morgue, where Coroner Hartwell will hold an inquest today.

Houghton was known about The Palms, where he had lived for many years, as a man of morose character. He seldom took enjoyment in the little social affairs of the town, and lived alone in his hut, a mile and a half from the main street of The Palms.

There he conducted his cattle business, buying and selling cattle and horses. There was a report general about the vicinity that Houghton had a large amount of money hidden about his shack. This the cattleman neither affirmed nor denied, but allowed his neighbors to talk as they liked. He cooked his own meals and attended his own business.

When he failed to put in an appearance Wednesday, no one paid any attention to it. The brother, however, became nervous. He had a business engagement with Houghton and for the first time Houghton failed to appear.

Last night the brother secured a lantern and tramped to the little shack. No response came to his knocks on the door. He kicked at the walls of the building and knocked on the windows, but there came no answer. Becoming alarmed he finally forced the front door.

The scene was enough to startle any man. The dim light of the lantern hardly covered the small room. The walls were dirty, the floor and shelves were dirty. Everything was unkempt and unclean. As the light pierced back into the shadows near the bed, the brother saw something grewsome. Sprawled on the floor of the room, his limbs twisted and stiff in death, was the body of Houghton.

The dead man was in his night shirt. His right hand was doubled under him and gripped at the heavy hilt of his knife. On the floor under the body the blood from the wound had spread making a great splotch on the boards. Knowing of the trouble between Houghton and a Mexican over a cattle deal, the brother immediately telephoned that murder had been committed.

There was no evidence of a struggle, no footprints in the dust of the floor other than those made by the brother. An old revolver was lying near and it was evident that Houghton had attempted to use the gun, but the mechanism would not work and he took his knife and drove it to the hilt into his heart and then fell dying to the floor.

The dead man's clothes were hanging on a peg and his watch and money had not been disturbed. There was no evidence of any one having forced an entrance to the house, aside from the mark made by the brother when he broke in the door.

The Spanish Necklace.

By Bertha N. Croker.

CHAPTER XXXII—(Continued.)

"No, but I hear she is quite nice looking, carries herself well, but is pitiably shy. She has ten thousand a year—a good thing for de Sarazin, who, by all accounts, is drowned in debt!"

"You mean," corrected the lady in the black hat, "that his mother is—de Sarazin does not gamble; he has," and she laughed, "only one weakness."

"Which runs away with money, too!" interposed her companion.

"Oh, I don't know that, where he is concerned! La Duquesa, his mother, is a headstrong person, incredibly extravagant. She has ruined the family. I believe el Duque is expected next week, and he will carry her off to Madrid."

"Easier said than done! La Duquesa is a woman of a violent and uncontrollable temper, and does as she pleases."

"And this Spanish beauty is her relative, I am sure; she has such a wicked face!"

Hester, who was nearly choked with her feelings, could listen no longer. Wedged in a corner behind the two gossips, she now rose hastily, and, in spite of their frowns and muttered "Oh dear me!" pushed herself abruptly past them, and hurried away to her friend, the river. Here, alone, she sank upon a seat, and held her hands tightly over her heart; it was beating as if it would burst. So Dolores had returned! and Paul had not been able to withstand her sorceries, or to submit to the test of absense, which mad fools declared made the heart grow fonder! She had had her chance, and put it aside for a caprice—she had tempted fate, and invited catastrophe. The old rhyme came into her head with poignant significance —

"She that will not when she may,
When she wills, it may be nay."

On behalf of Paul de Sarazin an extenuating statement must be made. La Duquesa was determnied to break off the match between him and "La Rubia." Alarming hints and congratulations had reached her from Madrid and Las Veraldes, where the girl had actually been entertained, and Paul had appeared most devoted. She therefore immediately bethought her of Dolores, the irresistible, as an antidote, and hastily summoned her from Tangiers. Of course, a marriage between Dolores and Paul was not to be thought of. Still, Dolores was a Spaniard, a Catholic, and of her kin; with her, she would be at ease, and Paul would be amused. Therefore, one afternoon, on his return from golf, Paul was surprised to find already installed at the villa his beautiful cousin the Condesa. She was the same as ever, and full of life and grace and diablerie. She flattered him delightfully, smoked with him, chattered to him in his own tongue, and sang to him as he and his mother sat on the veranda after dinner.

"And this talk of an English wife, Pablo mio?" she asked suddenly. "What mean it?"

"Nothing," put in la Duquesa. "She is an ugly red-haired Protestant. It is only her money!"

"Mio madré, you are wrong!" protested Paul. "It is herself. She is very handsome; she has a foot as small as yours, and but one fault—she is too good for me."

"Ah, Paul," broke in Dolores, with a mocking laugh and a wicked look in her splendid eyes, "I cannot see you married to an English 'mees,' a heretic and ugly. Dios mio! what a fate for the gay Marques! Sooner than that," and she blew a cloud, "I would rescue him myself."

Dolores was born with the instincts of a siren—not in their grosser sense, but in the utmost refinements of seduction—beautiful, bewitching, versed by art and nature in every fascination that appealed to a hot-blooded Spaniard, she acted in a short time as an intoxicant on Paul's senses. There is so much in propinquity; the ties of the same race and tongue, the bonds of old times and pleasures, the thrall of a pair of too eloquent eyes.

Paul was now to be seen driving with his mother and cousin in the big ducal carriage—motoring with la Condesa, escorting her to the theatre; and people explained—

"Ah, the fickle Marquis has forgotten Miss Forde—out of sight, out of mind!"

His aunt, Mercédes, however, had a more retentive memory, and el Duque, his father, who had received intelligence of his son's fine prospects, arrived from Madrid in order to be presented to the lady, and to arrange matters financial; for his race and its interests was in his very bones.

El Duque de San Telmo was one of the thinnest and most gentlemanly men alive. As soon as you saw him you realised what was conveyed by the terms "Spanish grandee," "a grandee of Spain." He held his meagre figure superbly, his emaciated features were proud, patrician, and expressive, his eyes shone forth from two caverns on either side of a singularly well-cut nose. El Duque was a domestic despot, but his manners were chivalrous and courteous; he was sixty years of age, dressed with extreme care, and always carried a cane. When he arrived at the Villa Andalusia, to his amasement, the good match was no longer discussed. His wife shrugged her ample shoulders, Dolores laughed, Paul smoked in silence. When they were alone, he asked his son, and his tone was blunt—

"Is the marriage broken off?"

"Well, sir, it was never a formal engagement, though I am ready to marry Miss Forde tomorrow. My mother is against the match."

"Why?" demanded el Duque fiercely.

"Because the lady is not of our Church. She is a Protestant."

"Bah! And was she not a Protestant two months ago, when your mother wrote and declared that she would now die happy?"

"She has changed her mind since then."

"Your aunt, too, wrote and gave the lady much praise."

"Yes, she is all goodness—too good for me——"

"And the other is too bad for you."

"What do you mean, sir?" and his eyebrows went up.

"I mean your cousin—that intriguing, lying, gambling, handsome devil Dolores."

"Sir, she is our guest!"

"Your mother's guest—not mine, for I know her. She is also your mother's tool. Well, we will say no more. I have come on a fool's errand—if the other affair is ended."

To this question his son could give no reply. What was he to say? Was it really ended? Was he going out to Cambo to see La Rubia again—the too-cautious English girl who hesitated to pledge herself or accept his ring? Her tears and avowal had meant nothing; if she had really cared, she would have said "yes" without demur. He was still free—free to amuse himself a little longer, to play the bon camarade with Dolores, and maybe marry La Rubia after all!

He would write out to Miss Forde and make his excuses. Alas! It was true what Mrs. Tudor said, that in the art of serving up his heart on a sheet of notepaper, few could rival el Marques de Sarazin.

The Duke paid a long visit to his sister in the magnificent Villa Flora. He dined with her tete-a-tete, and bewailed the plans and plots of Dolores, who had reft from him a rich and amiable daughter-in-law.

"I dare say Paul will never marry—he knows his own mind for five minutes, no more; and Léon is, as you are aware, betrothed to Casida, a dear child, a sunbeam, but so poor!"

By and by the brother and sister discussed other topics, and she inadvertently mentioned the great treasure, the Sarazin necklace.

"Maria has it with her," she declared, "for I saw the case; but she will not suffer any one to open it."

"What can be the reason for that?" he asked, assuming an attitude of sudden attention.

El Duquesa was silent.

"Ah, I see you have thoughts!" he said hoarsely.

"No, none whatever. Dios, Gaspar, do not excite yourself!"

"Valga me Dios, I have ideas!" he thundered. "I see the necklace before the night is out."

"No, no, my brother," putting her hand on his arm. "The necklace is safe. Make no scenes."

"But you know, Maria," he protested, "and her debts—her gambling!"

"True, but of late she has had great luck."

"Ojala! my accounts do not show it; her bills are enough to break my heart."

"Ah, you spoiled her, Gaspar, in her young days."

El Duque leant his head on his hand, sighed profoundly, and was silent. He was recalling the beautiful, slim, fascinating Maria de Ferrano. What had she in common with this heavy, painted woman, with the tongue of a scold and the tastes of a sultana?

"And the English girl, Mercedes?" he inquired.

"Yes, I know and like her. She is young, handsome, rich and good, and would be a worthy wife for Paul. All was going well——" She paused expressively.

"Yes." El Duque lit a fresh cigarette. "All, you say, was going well——" he echoed.

"Till Dolores came," continued the sister. "Maria summoned her; she has taken, God knows why, a sudden and uncontrollable hatred to the other, La Rubia. Dolores is of Paul's own kin; she is attractive to men. She has the go and diablerie so much to Paul's taste; her dancing—ah!" and she raised her eyes expressively, "yes, she has everything the heiress lacks, and that says all!"

"But it does not say enough, my sister!" protested el Duque, with passion in his voice. "I wish to know, or see, what is behind all this mystery, and why la Duquesa dislikes this girl of whom she once wrote to me in raptures."

"Ah, I cannot tell you, Gaspar mio, only it is one of Maria's caprices."

"But, where money is in question—a much shrewder Shylock has no caprice; she is ever constant to a purse!"

"Well, Gaspar, it is beyond me; but it is unfortunate, for I am sure Paul likes this girl, and she, of course, adores him!"

"He is not pledged in any way, is he?" inquired el Duque, sternly.

"No; Paul is, of course, a man of honor. There was no engagement, only an understanding."

"Dios de mi Alma! Paul's understandings! He has a woman who understands him in every city. Still, Theresa de Trubia told me that, in her eyes, the girl was handsome, and that it looked like a real love affair. What do you say? Theresa is a clever woman."

"I say, it may all come right yet," and la Duquesa Mercedes stroked her brother's transparent hand, and reached for another cigarette.

[To Be Continued Tomorrow.]

WHITENS THE SKIN

The formula given below will be found wonderfully effective for whitening the skin, even that of the darkest complexion. This mixture, while being absolutely harmless, has a peculiar chemical action on the surface of the skin, bleaching the cuticle and imparting that creamy softness which is so desirable.

Two ounces of Rose Water; one ounce Spirits of Cologne; four ounces Sartoin. Put the Sartoin in a pint of warm water, then add the Rose Water and Cologne Spirits, and after dissolved and cooled, strain through a fine cloth. These ingredients are obtainable from any well stocked druggist.

Beneficial results are usually apparent from the first few applications. This should be used daily. It makes the use of powders or rouge entirely unnecessary.

PASADENA.

LESSENS AREA OF ACTIVITIES.

LINNARD GIVES UP REDLANDS HOTEL MANAGEMENT.

Chief Clerk of Maryland Will Go to La Casa Loma to Take Charge. Los Angeles Breweries and Local Drug Stores Fined for Violating Liquor Ordinance.

Office of The Times, No. 36 S. Raymond Ave.

PASADENA, Nov. 5. — Palmer P. Day, for four years chief clerk at Hotel Maryland, and James S. Durand, steward, will leave on the 10th inst. to take charge of La Casa Loma, in Redlands. James Durand, steward at the Maryland, will also go to La Casa Loma.

These changes have a double meaning, in that they mean the retirement of D. M. Linnard as manager of the hotel at Redlands. Mr. Linnard announces that he will devote all his efforts the coming winter to the Maryland here and the Virginia at Long Beach.

BIG SUM IN FINES.

Eight hundred dollars was received in fines laid upon four violators of the liquor selling ordinance, who were arrested in one of the most sweeping raids ever pulled off in this city. Chief of Police Favour, assisted by Sergt. Longley and Patrolmen Worrell and Demerritt, made the arrests, and the offenders were summoned to court yesterday afternoon. They were Herman Hoepner, Pasadena agent of the Los Angeles Brewing Company; Harry Flournoy, agent for the Maier Brewing Company; the Sun Drug Company of this city and Metcalf's pharmacy, also of Pasadena. All the offenders or their representatives for them pleaded guilty before Judge Robert McDonald when arraigned this afternoon, and the fine for each was fixed at $200.

The Chief of Police is determined that his men shall enforce the liquor ordinances. Through the fund set aside by the commissioners for secret service work, he is able to procure evidence.

The arrest of the agents for Los Angeles breweries was a surprise in a way, for it was believed that all such firms were safe in carrying on the distribution of liquor to houses where orders had been received. The two drug stores were charged with selling whisky in violation of the law.

REDONDO HOLD-UP MEN.

Assisted by Sergt. Longley of the local police department, Marshal Stachfield of Redondo arrested Carl Parks here on Tuesday. Yesterday Longley apprehended Cecil Munson, the supposed accomplice of Brook, who is said to have confessed to the hold-up of George Vanness, a Redondo vegetable man, October 18. Munson was found at his home in this city, No. 256 South Catalina avenue, where his parents reside. He was taken to Redondo last night.

In telling his story to the police, Munson said that he was at work in a bowling alley in Redondo one day, and was asked to change a $20 gold piece. He saw a vegetable man near the building, and asked him to change the coin. The man was Vanness, and he pulled a big bag of money from under his seat on the wagon. The sight of so much cash on the old man caused the two boys to plot to hold him up. Three nights later the pair met Vanness on the way to his home, and one drew a revolver and told him to throw up his hands. The peddler did so, but the boys secured $8 only.

After securing the cash, Munson and Parks proceeded to Los Angeles, and went on a spree, after which they came to this city and secured rooms at Hotel Carlton. Their arrest followed a visit to Munson's family.

HARD TO GET CONTRACTS.

Directors of the Tournament of Roses Association are not a little worried over the failure of contractors to bid for the construction of the grand stand at the park. The lumber for the structure is on the ground, and work should begin at once in order that the stand may be completed and properly tested by New Year's Day.

President Cary and the Programme Committee are still looking for some form of entertainment for the afternoon of New Year's Day. The chariot races are almost assured, but it is desired ot secure some other novel attraction which will be a crowd bringer.

MAY HAVE PROBLEM SOLVED.

The garbage question appears to be nearing a solution. Yesterday morning a Berkeley chemist, through Councilman Cattell, proposed to do away with the garbage of the city by using it in a distillery, for the purpose of making alcohol. The chemist says he has discovered a press, and although he has never tried to handle a municipal supply of garbage, he is willing to install a plant here at his own expense. The Council will investigate.

REFERRED TO HEALTH BOARD.

Residents of Linda Vista, headed by Mr. Edwards and Mrs. Schoonmaker, appeared before the Council yesterday and asked that Pasadena assist them in ridding the little suburb of the tuberculosis health camp which has been thrust upon them by a charitable organization. Mayor Earley asked the Board of Health to investigate and make a report before action is taken.

FOR NEW RIFLE RANGE.

On Friday evening of this week in Maccabee Auditorium, members of Company I, S.R.N.G.C., will join with members of Los Angeles and San Bernardino companies, in producing a minstrel show, the proceeds to go to the equipment of the rifle range, ground for which was recently leased by the local company from the Lake Vineyard Land and Water Company.

LUTHERAN SYNOD OPENS.

President James A. B. Scherer of Throop Polytechnic Institute, preached before the California Lutheran Synod at its opening session here last night. He discussed the outlook for the church along missionary lines and was full of enthusiasm. At today's sessions there will be papers on missionary work and late this afternoon, Dr. Scherer will be host to the visitors during an automobile ride about the city.

This evening Rev. C. W. Weiser will be introduced into the pastorate of the Pasadena Trinity English Lutheran Church. Rev. Herbert J. Weaver will be the speaker of the evening.

WARE BOUND OVER.

J. Frank Ware, the Altadena rancher, who is alleged to have intentionally shot Robert Ellis of Los Angeles, during some trouble at Camp Sierra in September, was bound over to the Superior Court by Judge Robert McDonald, yesterday afternoon. Ellis had not appeared as complainant before because the wound in his leg was so serious that he could not be removed from the hospital.

NEW BRANCH LIBRARY.

Saturday afternoon the new branch of the public library was opened on North Fair Oaks avenue, North Pasadena. Over 500 volumes have been placed there and for the present Miss Agnes Craig will be in charge. The branch will be open from 2 o'clock until 6 in the afternoon and from 7 until 9 o'clock in the evening.

During the month of October 400 new books were received at the main library. Miss Russ, the librarian, expects to spend between $2500 and $3000 for books this year.

The collection for fines, lost books and booklovers' library during October amounted to $105.32. New registration numbered 181. The distribution for home reading amounted to 2904 volumes, 734 more than in October, 1907.

PASADENA BREVITIES.

A. Howard Saddler of South Oakland avenue has just returned from the East.

Dr. E. L. Conger, president of the Humane Society, is slowly recovering from an illness. He was downtown yesterday for the firstt ime in several weeks.

A meeting of Corona Lodge is to be held in order that local Masons may have the opportunity to hear W. R. Harvey again. His subject will be: "Masonic Experiences Abroad."

EVERY BABY WINS PRIZE.

Even Ebony Bit of Human Driftwood Gets Something at Covina Show.

COVINA, Nov. 4.—Question: "Besides oranges and lemons, what else is grown in the Covina Valley? Answer: "Babies."

Chairman Mrs. R. O. Simpson rose to announce the result of the momentous contest of the baby show held by the Monday Afternoon Club. She said: But nobody in all the world knows what she said, for there were sixty babies in the hall, sixty babies large and small, and heavens to Betsy they did—well, the beautiful little pink and white contestants received their prizes anyhow, and every baby carried home a gorgeous souvenir of the occasion; every baby was a prize and received a prize.

The clubhouse of the Monday Afternoon Club was filled to overflowing with the mothers and sisters and relatives. Here and there a man eddied to and fro, smiling determinedly. Glorious fall chrysanthemums bloomed everywhere, for these flowers were on exhibition for prizes also. Over 400 people enjoyed the affair. The heaviest infant, the lightest, both boy and girl, took prizes, and there were prizes for straight hair and curly, etc. The winners were: Lawrence Mansterger, Spencer Coltrin, Gladys Layman, Ralph Lougheed, Robert Schofield, William Wallace Nash, Hazel Perry, Mary Elizabeth Harris, Floyd Welch, Ralph Nye, Iris Caldwell, Caroiyn McCarthy, Lawrence Perry, William Ray Goodrich, Frances Elisabeth Elliott, Alice Wright, Spencer Coltrin (youngest baby,) Delphine Lougheed, Delvert Smith, Velora Tucker and Erastus Lycurcus, the last named being an ebony bit of human driftwood whose parents are not. The festival of flowers and music was given tonight.

HAVE LICENSES IN DRY TOWN.

CURIOUS POINT RAISED IN NAPLES PRECINCT.

Cafe and Inn Have Authorization from Supervisors to Sell Intoxicants but Electors Decide That Place Must Get Upon Water Wagon. Long Beach Notes.

LONG BEACH, Nov. 4.—This city is proud of the vote recorded yesterday, it being over a four-fifths one, which is a greater average than ever given before. The counting was slow, about three minutes being required for each ballot.

Considerable speculation is indulged in rearding Naples precinct, in which is located the Pompeiian Café and the Inlet Inn, both of which have liquor permits from the Supervisors. The precinct voted dry by a vote of 41 to 20.

The Long Beach Medical Society was addressed last night by Dr. Donald J. Frick of the Children's Hospital of Los Angeles on "Dietetics of Infants." Other papers were given by Drs. Bates and Woodruff.

NEEDLE BREAKS IN FINGER.

Mrs. W. F. Hyde this morning ran a sewing machine needle through the middle finger of her right hand and it broke off in the digit. Surgical attention was necessary to remove the broken steel.

Walter Gamble, aged 15, living at West Long Beach, fell from one of the jetties this morning, a distance of twenty feet, to the rocks below and sustained a broken leg.

Roy Ballou, charged with stealing some clothing and a revolver from the launch Elliott, of which he was captain, was fined $5 and was given twenty days in jail by Justice Brayton today, the fine being remitted during good behavior.

BY LOCAL TALENT.

A one-act comedy, "Union Depot," is to be given by local talent, November 6, in the Auditorium, for the benefit of the Donatelli band. The scene of the comedy, laid in a union depot, will admit of character delineation of traveling types. The play will really be a series of character studies with local hits. The cast will embrace some fifty well-known Long Beach people.

Among those who will take part are: Mrs. F. E. Young, Mrs. Edith Woods, Mrs. J. J. Morgan, Mr. and Mrs. G. A. Miller, Miss Lucy Wolcott, Miss Mary Loraine, Miss Goldsmitt, Miss Agnes Goulben, Miss Hellen and Marston Doolittle, Miss Helen Perkins, Mrs. Rominger, R. W. Chandler, Sam Hubbell, H. V. Goodrich, Dr. W. Harrison Jones, J. W. Young, Misses Polkenhorn, Miss Bennett and Percy Hight.

MISSING.

BOY WANDERS FROM HIS HOME.

POMONA LAD SUDDENLY DISAPPEARS FROM SIGHT.

Searching Parties Fail to Locate Eleven-Year-Old Lad—Texas and Nebraska Families Arrive to Settle in Favored Valley—Funeral of Pioneer Resident.

POMONA, Nov. 4.—Wesley Myers, the 11-year-old son of Mrs. Myra Myers, of the Willow street dairy, has been missing from his home northwest of Ganesha Park since Monday forenoon, and not a trace of him can be found. Mrs. Myers has notified the police, and the whole neighborhood has been searching. The lad left home Monday forenoon to get his pony, which he had left hitched at a house on Wisconsin street, north of the Catholic church. When he did not return by mid-afternoon, the family became anxious and, starting a search, found the boy had not been to get his pony. Awhile ago he suffered a fall and struck upon his head and has since appeared dazed at times. It is thought he may be wandering about the valley somewhere. The lad is of dark complexion, with black eyes. He has one gold front tooth broken on the edge, a plastered cut over his left eye and a scar over his right eye. When he left home he was wearing a blue coat, white canvas shoes and khaki trousers. If he is not found soon, a reservoir near his home place will be dragged.

The funeral of the late Mrs. Elizabeth Rogers, wife of M. G. Rogers, who was a pioneer here twenty years ago, but who had been residing at Moneta for some years, was held here this afternoon.

Mrs. Eliza Bradbury of North Garey avenue and F. H. Millard, formerly of Guthrie, Wis., were married at the home of the bride on Monday evening, Rev. J. F. Watson of the Baptist Church officiating. Mr. Millard arrived here on Monday with his son, from Guthrie. The contracting parties have been friends since childhood. Mrs. Millard has large property holdings in this city.

Mr. and Mrs. J. J. Smith and four children have arrived here from Ferris, Tex., to make their home. Mr. Ferris was here awhile ago and purchased an orange grove.

J. C. Gapp of Holdredge, Neb., and his family, are new comers here who expect to locate in Pomona. They have arrived with a carload of household goods.

BELMONT HEIGHTS.

BELMONT HEIGHTS, Nov. 4.—Now that the excitement of election is over the citizens of this town are about to show Long Beach they are alive to civic cleanliness. Saturday will be clean-up day and they confidently believe that nightfall will see a big transformation within the city limits.

HOLLYWOOD.

HOLLYWOOD, Nov. 4.—Hobart Bosworth spoke before the Woman's Club this afternoon on the "Educational Value of the Stage." His address was a happy intermingling of seriousness and humor. He repudiated the so-called problem play as unfit for young people and the majority of grown ups. Next week's meeting will be in charge of the civic department. Mayor Dunlop will speak on the "Responsibility of the City in Regard to Untidy, Vacant Property and Parkways."

AID TO NAVIGATION.

Modern Gas Buoy Will Be Established at Entrance of San Pedro Dredged Channel.

SAN PEDRO, Nov. 4.—A modern gas buoy, as an aid to navigation; will probably be established in the near future at the entrance of the dredged channel at this port. Today W. F. Bickenbach, secretary of the local Chamber of Commerce received through Senator Flint, a communication from R. F. Lapez, U.S.N., inspector for the Twelfth Lighthouse District, San Francisco with a report from the Committee on Floating Aids to Navigation. The report is addressed to the Lighthouse Board and reads:

"The Committee on Floating Aids to Navigation, to whom was referred on August 24, 1908, for consideration and report, the papers relative to the establishment of a gas buoy in about twenty-three feet of water, San Pedro, Cal., in place of San Pedro entrance buoy No. 2, recommend that this matter be considered after the new lighthouse tender arrives on her station."

The new vessel referred to is the tender Sequoia, which sailed from New York for the Pacific Coast, September 21. She is expected to consume about four months on the trip.

Senator Flint states that he will take the matter up with the Lighthouse Board upon his arrival in Washington.

SANTA MONICA.

FREAK PRECINCT, ONE RESIDENT.

GIVES "UNANIMOUS" VOTE FOR REPUBLICAN TICKET.

Lone Citizen Casts, Counts, Judges, Records and Reports His Own Ballot — Hundred-Year-Young Indian Fails to Register—Losers of Freak Bets to Pay Tomorrow.

SANTA MONICA, Nov. 4.—One of the Santa Monica precincts cast a unanimous vote for the entire Republican ticket. The precinct is a large one, so far as acreage is concerned, but L. Machado is the only resident in it and he had to cast, count, judge, record and report his own ballot.

Another peculiar feature of the election here was the failure of the beach's oldest resident to vote. "Uncle" Dan Turner, the half-cast Cherokee Indian, who is more than 100 years young, neglected to register and when he made application at the polls for a ballot was denied the privilege.

The free public library had a circulation of 5049 volumes during the month of October and issued cards to seventy-seven new members. The circulation was over 50 per cent. of the number of volumes in the library, and three-fifths of it was works of fiction.

CHANGES IN LUMBER CONCERN.

F. C. Schoemaker, E. F. Heideman and H. G. Schoemaker have succeeded to the interests of G. A. Lathrop and F. U. Nofsiger in the J. E. Culver Lumber Company, and Heideman has become manager. The Schoemakers are recent arrivals from Raymond, Wash., where they are interested in the Willapa Lumber Company.

FREAK BETS SEQUEL.

On Friday afternoon the losers of freak bets on the election will make payment. There will be a brass band on hand and a general jollification. The "piece de resistance" will be the wheeling in a barrow of Deputy Game Warden H. I. Pritchard by E. Gamberi, one of the city's faithful Democrats. Everybody has been invited, and it will be made a gala afternoon.

SCHOOL TAX PROBLEM.

For the purpose of raising funds with which to maintain kindergarten classes, the Board of Education has under consideration the matter of charging a tuition at the High School for non-resident pupils. There are seventy-seven of them, who hale from Ocean Park, Machado, Sawtelle, Palms, Ballona and Playa del Rey. As the per capita cost of maintaining the Santa Monica schools is about $60 a year, the question has frequently been asked why the taxpayers of this district should continue to maintain high grades for the children of property owners who reside and pay taxes in another district. The expense to the district for taking care of the non-resident pupils is $4100 a year.

WANT WIDE-AWAKE JUSTICE.

Sierra Madre Needs Officers Unhampered by the Claims of Neighborliness and Friendship.

SIERRA MADRE, Nov. 4.—The opinion seems to prevail among a great many in this city that it will be necessary to have a Marshal, or a deputy to do the Marshal's work, who is practically unknown to the residents.

Before the city was incorporated, or the electric railroad reached this section, there was little need for a peace officer. The county officials looked after these matters and the demands upon their services were few and far between. Since incorporation, there has been an increasing demand for a fearless, and conscientious peace officer.

Personal reasons have handicapped the officer who tries to perform his duties in this city. If a stranger comes to town and appears a bit sporty, the Marshal's life is made miserable for not making out a case of some diabolical crime against him. If the laws are broken by a gang of boys who have grown unruly and unmanageable the Marshal is threatened by one clique for not jailing the whole bunch and by another if he touches or reprimands them.

One of the Marshal's deputies threw off his star and threatened to whip the officer for a slight reprimand to a son. The Board of Trustees have not upheld the Marshal, and the result has been that Marshal Lehmer's life is anything but a bed of roses. To a stranger without this countersign or earmarks, who might trip by the wayside, a posse embracing untold numbers could be gathered from the inhabitants.

Fortunately the constant growth of the city is lessening this condition very rapidly. It has been suggested that Charley Smith, the Marshal of Arcadia, exchange places with Marshal Lehmer of Sierra Madre. Smith plays no favorites in the game, and his brother would not be immune should the occasion arise.

PALMS.

PALMS, Nov. 4.—The ladies of Palms furnished a free hot noon dinner and a hot supper to all voters and election officials yesterday; they had a booth just opposite the polling place. Their object was to win votes for the anti-saloon cause. The saloon men met a disastrous defeat, and not a little credit is given the women for it.

Antonio Ruelas of Los Angeles and Miss Ellen Carranza of Palms were married in St. Augustin's Church, at 8:30 o'clock this morning, Rev. Father Callahan officiating.

PROSPERITY'S PLANS SWELL.

Women's Clubs and Schools Take Interest.

Factory Visiting Day May Be for Many Students.

Programme for Week Fixed by Committee.

In the perfection of plans for Prosperity Week the Chamber of Commerce yesterday found that almost every one of the events laid out will expand far beyond the original ideas. The home products parade, the factory visiting day and all of the other big public attractions bid fair to be bigger and better than ever anticipated.

Today is the last for entries to be filed for the industrial pageant and Chairman F. J. Zeehandelaar of this committee desires that all manufacturers who are not yet included in the long line of march shall notify him before sundown whether or not they wish to have space in any of the divisions reserved for their floats or equipages.

Every day sees large additions to the army of men and women who are pledged to "buy and boost home products" during the six days of Prosperity Week, from November 16 to 21. Yesterday the Wednesday Morning Club enlisted bodily, in the ranks of buyers and boosters, after listening to an address by Miss Frances Holmes, the young woman who invented the idea of everybody getting together for one week in support of home industries. Miss Holmes was introduced to a large and cordial audience at the club headquarters, No. 2215 Pasadena avenue, by the president, Mrs. Frank Prior.

HIGH SCHOOL, TOO.

The Board of Education will be asked, as a result of Miss Floy Galpin's initiative, to grant a half-holiday on November 19 so that 20,000 students may take part inthe great public visitation of the factories. And now Miss Galpin proposes to make a factory visiting day a regular annual feature of the civics course in the High School. President Stewart of the Chamber of Commerce will make an address on "Home Industry" before the High School on its prosperity day, which is set for Wednesday, November 11.

The Polytechnic High School also is to participate and Principal John H. Francis yesterday arranged with President Stewart to speak at the school on Tuesday, November 10.

The energetic work of the Factory Visiting Committee, of which H. J. Brainerd is chairman, assures a splendid showing in the city workshops for the public on the occasion of the general pilgrimage. Special attractions for visitors will be offered by scores of factories, and the people will be transported over a route through the manufacturing district free of charge in automobiles and carriages that will leave the Chamber of Commerce beginning at 2:30 o'clock.

More automobiles and other vehicles will be needed. Every visitor on starting with be presented with a souvenir badge.

PROGRAMME ARRANGED.

These are the main events and dates for Prosperity Week's programme, which begins Sunday, November 15: "Prosperity slips" will be showered over the city from the two great balloons of Dick Ferris, which start their transcontinental race from Chutes Park at 2 p.m.

Monday: 100,000 buttons bearing the slogan, "Buy and Boost Home Products," will be distributed free, from substations in various parts of the city. In the evening the first production of Richard Barry's home-product play, "The Searchlight," will be given at the Auditorium, with the directorate and their ladies in the boxes.

Tuesday: Concert and address on home products, under auspices of the Retail Clerks' Association, in Shriners' Auditorium. Band concert and electric illumination in the evening in Central Park.

Wednesday: Grand industrial parade, floats and vehicles with home manufactures leaving the vicinity of Naud Junction at 1:30 p.m., and traversing the principal downtown streets. Concert and illumination in Central Park in evening.

Thursday: General public visitation of the factories, visitors leaving the Chamber of Commerce in automobiles throughout the day, commencing at 8:30 a.m. Evening concert and illumination in Central Park.

Friday: Anniversary concert of the Symphony Orchestra at the Auditorium and band concert in Central Park in the afternoon.

Throughout the week, free home art show in Blanchard art gallery, with drawings and paintings by artists from all parts of Southern California.

General Agent E. W. McGee yesterday notified Secretary Wiggins that the Santa Fé Railroad will give a special round-trip of one fare and a third for all points south of Barstow during Prosperity Week. Many outside towns will celebrate Prosperity Week at home with distinctive events.

CHARGED WITH FORGERY.

Joe Phelps was arrested yesterday on the charge of forgery. It is alleged that on October 19 he secured $30 from P. Haskins, No. 1001 North Main street, giving as security a check for $580. This check bore the name of S. Newman, No. 922 East Thirty-ninth street, who claims that it is a forgery. After securing the money Phelps left the city, but returned again yesterday, and was caught.

The State Bank Commissioner yesterday took control of the Central Trust Company of Providence, R. I., and applied for the appointment of a receiver.

SPLENDID VICTORY.

ESTUDILLO WINNER OF BITTER FIGHT.

Lead of Over Nine Hundred in Riverside Overcomes Adverse Orange County Vote—Political Clergyman Is Among the Also Ran.

[BY DIRECT WIRE TO THE TIMES.]

RIVERSIDE, Nov. 4.—[Exclusive Dispatch.] In the face of an exceedingly bitter fight, the Republican candidates for State Senator and Assemblyman have won by safe majorities. The plurality for Miguel Estudillo, for the Senate, is 926 in Riverside county, which overcomes the lead of 97 which Orange county gave his Democratic opponent, Lafayette Gill. This was the closest race on the ticket, Estudillo's plurality in the two counties is 119.

E. B. Collier, Republican candidate for Assemblyman, won in a hot three-cornered fight. His vote was 2232, against 1542 for Rev. James H. Woerner (Pro.) and 1221 for Maloy (Dem.)

The only precinct not heard from is remote Palo Verde. The vote there is not large enough to make any appreciable difference in the results. It is probable that Estudillo will have a majority over Gill in that precinct, but even though every vote there went against him he would still have a safe margin to spare.

Earl S. Carlton, Republican candidate for Supervisor of the Third District, received a majority of 457, winning by a three-to-one vote.

The complete returns from all but one precinct show that the Republican victory in the county is even more sweeping than indicated by the earlier figures. The majorities range from 670 to 1917.

The vote for Taft is 3192, against 2311 for Bryan, a majority of 1849 for the head of the ticket. In the county there were cast 558 Socialist votes, 424 Prohibition and 50 Independence League votes.

The largest majority on the ticket was received by Congressman Smith, whose lead over his Democratic opponent was 1317.

John Melvin, for Supreme Court Judge, was given a majority of 1704 over Murasky.

BIGGER THAN EVER.

ORANGE PLURALITY GROWS.

SANTA ANA, Nov. 4.—Unofficial returns in the office of the County Clerk show no difference in the results from those announced in The Times this morning for this county. Taft's plurality in the county is 1333. The vote on Presidential is: Taft 3243, Bryan 1910, Debs 332, Chafin 427. The two Assembly increased Republican majorities, Smith having led Bell here by 97.

Raymond Estudillo is elected State Senator from the Thirty-ninth District by a plurality of 119. Estudillo was defeated in this county, but he came out of Riverside county with a majority of 926, offsetting his losses here.

Judge J. B. West was returned to the Superior Bench with a vote of more than two to one over his opponent, J. W. Towner, Democrat, the vote standing: West 3493, Towner 1705.

Edward Melrose, Republican, for Assembly Seventy-seventh District, has a majority of 954, the vote standing: Melrose 2804, Miller 2138.

The following is the vote on the Assemblymen: No. 1, yes 544, no 2065; No. 14, yes 459, No. 1940; No. 16, yes [illegible], No. 2, yes 922, no 1516; No. 19, yes 64, no 1509; No. 21, yes 785, no [illegible]; No. 32, yes 1299, no 1203; No. 34, yes [illegible], no 1405; No. 34, yes 1091, no [illegible]; No. 1, yes 1803, no 969; No. 7, yes [illegible], no 1526; No. 8, yes [illegible], no 1126; No. 24, yes 665, no 1853; [illegible] yes 1567, no 923; capital removal, yes [illegible], no 2389; seawall act, yes 259, no [illegible]; Ballona Basin act, yes 155, no [illegible].

The proposal to bond the county for [illegible] a county hospital and poor farm lacks the necessary two-thirds vote. The vote stands 2084 in favor of the bonds and 1487 against.

LONELY DEMOCRAT.

SAN DIEGO HAS HIM.

SAN DIEGO, Nov. 4.—While the returns last night indicated [illegible] Democrat, might win [illegible], Republican, for Assemblyman from the Seventy-ninth District, returns from the city precincts give him a plurality of 600. Andrews, however, is elected Superior Judge over Guy, Republican, by 100 plurality. All other Republicans are elected by good majorities, including four Supervisors.

Many country precincts have not yet been heard from. However, the most of these precincts have reported to their headquarters, showing that the vote of the Central Committee before the election was not overestimated. The county gives Taft a plurality, while the city of San Diego alone is giving 2000 of these figures. The Democrats polled almost as many votes here as the Democrats, the total vote being 1290, while that for Taft is [illegible].

Wm. Melvin is elected Assemblyman from the Eighteenth District by 300, but we have to hear from.

Of the returns in, except five precincts, with a total registration of [illegible] fifty-seven, to hear from, Melvin's vote is: Taft 5393, Bryan 3093, Debs's plurality 3030. Debs's vote is [illegible] about 400 below what he received a year ago, but his vote is [illegible] several precincts, so that [illegible] cannot be given.

The vote for Smith for Congress, is [illegible] 1 per cent. below that for Melvin for Melvin it is little below the [illegible] figures.

Orange county voted against the [illegible] Amendment No. 1, by 1500 majority, [illegible] against the capital removal [illegible] majority. The vote cast [illegible] locally, was a surprise [illegible] officials, as it did not [illegible] much of the vote for the [illegible]. The country precincts [illegible] by an overwhelming majority.

IMPERIAL FOR TAFT.

[illegible] WINS JUDGESHIP.

[BY DIRECT WIRE TO THE TIMES.]

EL CENTRO, Nov. 4.—[Exclusive Dispatch.] Complete returns from [illegible] of Imperial county, [illegible] the largest settlements, [illegible] Bryan 660, Chafin 88, [illegible] for Congress, Smith (Rep.) [illegible] (Dem.) 464, Richardson [illegible] Assembly, Eighteenth District, [illegible] (Rep.) 626, Riley (Soc.) [illegible] Cole (Ind.) wins the [illegible] of Imperial county [illegible] over McPherine (Rep.) by a big plurality, probably 200.

The vote of Imperial county is against the amendments proposing separation of taxation, increase of State salaries, repeal of the mortgage tax and both school provisions. The county voted for all the other amendments, with the possible exception of No. 34, and voted no on all three acts of the Legislature submitted.

REPUBLICAN TRIUMPH.

IN SANTA BARBARA COUNTY.

[BY DIRECT WIRE TO THE TIMES.]

SANTA BARBARA, Nov. 4.—[Exclusive Dispatch.] Santa Barbara county figures complete give almost an absolute victory for the Republicans. Taft carries the county with a plurality of 1075. The Socialist vote for the ticket's head was 333 and the Independence League 63.

For Congress, Smith defeated Shepperd (Dem.) by 726; for Supreme Justice Melvin's majority was 451; for State Senate, Louis H. Roseberry defeated Thacher (Dem.) by 1096; for Assembly, Fleisher defeated Thomas (Dem.) by 67; for Superior Judgeship, S. E. Crow (Rep.) incumbent, defeated Canfield (Dem.) by 331.

The most remarkable feature was the fight between Fleisher and Thomas. The former lives in Santa Maria and her big vote was expected for him. Thomas is one of the most prominent lawyers in the county and is popular in this city, his home. But Santa Barbara gave Fleisher a majority and Santa Maria gave Thomas a majority.

The fight for the Superior Judgeship was bitter. Canfield, whose nomination was made under strenuous protest and after a spicy fight in the convention, apparently took no part in the campaign until a week before election. Then swift, hard work was done for him. A week ago, it was expected Crow would carry the county, and particularly the northern end, by tremendous odds, but Canfield cut heavily into him. Santa Barbara city gave Crow a majority of only twelve. Both men are Santa Barbarans.

For Supervisor, Frick (Rep.) incumbent, is beaten by Rucker (Dem.) in Lompoc; Arthur W. Conover (Rep.) defeated De la Cuesta in the Third District, and Deaderick (Dem.) wins over Sheppard in the First.

VENTURA'S SWEEP.

ONLY ONE DEMOCRAT WINS.

VENTURA, Nov. 4.—The Republican sweep in this county was almost a complete one. Only one Democrat was elected—Tom Clark, for Supervisor, over Bailey, Republican, and Ayers, Independent. Local conditions determined this result entirely.

While Melvin was scratched slightly for the Supreme Bench by Murasky men, the Alameda jurist will have a good lead, amounting to at least 500. The capital removal amendment was beaten nearly two to one, while the direct primary amendment was carried. It is difficult to tell yet of the other amendments, as the vote was light on all of them and but little attention was paid to them in getting returns.

Twenty-one precincts out of twenty-four have reported, and in these the vote is as follows: Taft, 1788; Bryan, 1148; for Congress, Smith 1562, Shepherd (Dem.) 1294; for State Senate, Roseberry (Rep.) 1217; Thatcher (Dem.) 1115, Canet (Ind. L.) 581; for Assembly, Sackett (Rep.) 1610, Hardison (Dem.) 1116; for Superior Judge, Clarke (Rep.) 1728, Toland (Dem.) 1361.

The Republicans gained one Supervisor, Cook being elected by 18 in this district, over Hardman, Democratic incumbent. This was one of the warmest fights in the campaign. Hartman has filled the office for twenty years, and, was thought a fixture. He succeeded in carrying the town, but Cook overcame his majority here in the new districts on the east side. Neither Socialists, Prohibitionists nor Independence Leaguers cut any figure.

FIST FIGHT AT POLLS.

BAKERSFIELD BICKERINGS.

BAKERSFIELD, Nov. 4.—[Exclusive Dispatch.] J. E. Bolender, a good government advocate, who was soundly thrashed by a gambler and two saloon men, yesterday afternoon, in a polling place for attempting to influence a voter, was today made the subject of a complaint for violation of the election law, which prohibits electioneering within 100 feet of a voting place. E. L. Willow, an election officer, is the complaining witness.

VICTIM OF WHISKY.

Desert Man Sentenced to San Quentin at San Bernardino—Infant Mystery Recalled.

SAN BERNARDINO, Nov. 4.—W. A. Fagg, formerly trackwalker for the Salt Lake at Afton, a desert station, was sentenced this afternoon by Judge George H. Hutton of Los Angeles to serve two years in San Quentin. He confessed that he had taken a purse containing $60.30 which belonged to Bridge Foreman Benton Williams of the Salt Lake, who also lives at Afton.

The crime was committed in August. Fagg claimed that when he lost his position with the railroad company through drink, he became cook for Williams, and that he had several times taken money belonging to the latter to secure whisky for them both.

On the occasion in question he had been told to take the money, but spent it all in Los Angeles for his own purposes.

The convicted man belongs to a respected eastern family, which has tried repeatedly to induce him to return home, but in vain.

NOTES AND FRUIT INVOLVED.

Frances Buiford Murray this morning commenced suit against Mr. and Mrs. John Craig to recover $700, alleged to have been overpaid on a promissory note, and $2500 for fruit sold from her grove.

The plaintiff alleges she bought the Craig tract for $1500 and set it out to oranges, and that the Craigs had charge of the trees and of marketing the crop. She gave them promissory notes amounting to the purchase price and bearing 6 per cent. interest. These they are said to have sold to a third party, and to have raised the percentage to 10, thereby causing the [illegible] charged overpayment. It is also alleged that they never made an accounting for fruit sold from the trees.

BABE MYSTERY CLEARED.

The mystery that surrounded the infant left early one morning in September at the residence of Mrs. John Marshall of Mt. Vernon avenue has been cleared. The mother is a young girl of this city, named Sanders, who is a member of a respectable family. Mrs. Marshall revealed the parent's identity to officers this morning. It is claimed that the child was given into Mrs. Marshall's care as a package, and that only when the messenger who delivered it had gone did she discover that she had a lusty infant.

The architects and engineers of Los Angeles are to enjoy their annual outing at Colton Saturday. The party, 125 strong, will be entertained by the citizens and the officials of the cement plant at that place.

UPLAND'S HEAVIEST VOTE.

Full Republican Ticket Indorsed—Two Boys Seriously Injured—New Trolley Line Assured.

UPLAND, Nov. 4.—Yesterday was cast the heaviest vote in the history of the city, there being 334 votes polled. Of this number, 212 were Republican, 92 Democratic, 20 Socialist and 53 Prohibitionist. Seven ballots were thrown out as defective. The full Republican ticket received a handsome indorsement.

Arthur Anderson, a 14-year-old boy employed by a man named Nelson at Chino, was painfully injured in this city at noon today. He had fed his horse from a nose bag, and in starting up, neglected to adjust the bit of the bridle. The horse ran, and in trying to put on the brake of the wagon young Anderson lost his balance, fell from the vehicle and was run over. He was rendered unconscious, his face was lacerated, and one or more ribs fractured.

Alva, the 11-year-old son of Mr. and Mrs. C. B. Speck, of Campus avenue, fell from a swing and alighted on his abdomen. Serious injury to the liver was sustained, which has now induced peritonitis, though the attending physicians do not anticipate a fatal termination.

Members of the committee for securing the route for the proposed electric line from Claremont to this city announced that all but about $700 of the necessary money has been raised. This practically assures Upland of connection with the Huntington system.

He said that he came to California without notifying the prison authorities. He concluded to give himself up and go back to prison if the authorities wanted him. Ross was turned over to the Sheriff who has opened communication with the warden of the Joliet prison.

TO TRY WOMAN FOR MURDER.

Is First Case of the Kind in Santa Barbara County in Many Years.

SANTA BARBARA, Nov. 4.—The first trial of a woman for murder to occur in this county for many years will begin tomorrow in this city.

Mary M. Cavallero, who is charged with killing Walter Sproul, here last July, is the defendant. The killing is admitted, and the defense will be probably emotional insanity. The murdered man was a member of a local truck company and lived with the woman for four years before the fatal trouble occurred. Jealousy is said to have been the cause of the shooting.

As it was she received a bad cut, which may scar her for life. She ran out to meet her father, who was coming home in his auto. Wilbur Stiles was passing in his machine, and did not see the little one when he swung out of Chaffee's way. The Stiles auto struck the child, throwing her down and cutting a deep gash in her face from mouth to ear.

ORDER ANENT CLASS MEETINGS STIRS REBELLION.

Election Crowds in Riverside Astonished by Sight of High School Pupils Parading the Streets Clad in Night Gowns, as Protest to Their Principal's Command.

RIVERSIDE, Nov. 4.—There is a spirit of rebellion in the hearts of the mysterious "Committee of Thirteen" of the Riverside High School, and their followers, over an order issued by the principal, Miss Eugenie Fuller, that no class parties shall be held and that the senior class shall be the only one privileged to hold class meetings in future.

The order was issued yesterday. In the evening, when the streets were thronged with election crowds, 100 or more boy students of the school, dressed in sheets and night shirts, paraded the business section, carrying a coffin and wailing loud lamentations. On the coffin was the inscription, "School Spirit Foully Murdered." One boy carried a banner announcing: "We rise from our graves to protest."

After parading the length of Main street, the procession made its way to the High School grounds, where the corpse was cremated in a trash can.

BIG REALTY DEAL.

The largest realty deal of the week was the sale of the lot on the northeast corner of Ninth and Orange streets, occupied by the Russ Lumber Company's office and yards. This lot, which has a frontage of 132 feet on Orange street and 240 feet on Ninth, was sold yesterday by Mrs. Rebecca Treat, and others, to George N. Reynolds. The consideration was not made public. Mr. Reynolds, who already has large property interests in this section of the city, is showing his faith in Riverside business realty by repeated purchases of well located property near the business center. He bought the lot as an investment.

This is the corner offered by Mrs. Treat to the government as the site of the postoffice, for which an appropriation of $110,000 was made by Congress, though Mr. Reynolds's purchase also includes an additional ninety feet on Ninth street. The portion offered by Mrs. Treat for the postoffice was valued in her bid at $14,500.

Orange Ships the First Lot of Navels for the Season—Many New Homes Erected.

ORANGE, Nov. 4.—The last car of late Valencia oranges from this part of the county was shipped from Tustin Saturday.

The first shipment of navel oranges from Southern California for this season was sent out yesterday by the Altland Fruit Company of McPherson. This is the fourth consecutive year that this company has been first in the whole Southern California. It expects to ship another car of oranges and one of lemons this week.

Orange orchards all over this section are bending under their weight of fruit. In one small orchard of six acres it has cost $100 to prop the trees.

More building of a good class of homes, costing from $1500 to $6000, is going on in this place than at any one time in the history of the town.

The first lecture of the High School course will be given at the auditorium Friday night.

TAFT VOTER DIES HAPPY.

Rises from His Sick Bed to Cast His Vote for the President-elect.

SANTA ANA, Nov. 4.—David Bushnell, for many years a bookkeeper of Padgham & Sons, in this city, was found dead in his bed early this morning. Bushnell had been ill for some time but recovered sufficiently yesterday to leave his room to go to the polls and cast his ballot for Taft. On the return home, after voting, Bushnell said he was "perfectly happy" as he had "helped elect the best man."

COLTON.

COLTON, Nov. 4.—The Trustees have awarded the contract for electrical energy to the Edison company at the rate of 1¾ cents per kilowatt hour. As a result of this action, it is rumored that the Redlands Gas and Electric Company may sue the city, claiming the contract had been purchased by it through Seth Hartley. At one time the contract was given to Hartley on condition that he establish a competitive gas system, but it was forfeited, as he bought the Edison gas plant.

PRESIDENT TRUE PROPHET.

In October Letter to Senator Lodge He Forecasted Results With Accuracy.

[ASSOCIATED PRESS NIGHT REPORT.]

WASHINGTON, Nov. 4.—The President was very cheerful today and told the newspaper men that the election of Mr. Taft wholly carried out a prophecy made by him in a letter written to Senator H. C. Lodge of Massachusetts, dated October 26, 1908.

In this letter the President said: "East of the Alleghenies I believe we shall have a larger popular plurality than four years ago, in other words, that Taft's plurality will be greater than mine, and I think that our electoral vote will be larger east of the Alleghenies than four years ago, because I think the chances slightly favor us in Maryland, although this represents a good deal of guesswork.

"West of the Alleghenies I think we shall see a heavy falling off in the majorities as compared with 1904, but I do not anticipate the loss of any electoral votes, excepting in Missouri and Nevada, and I am inclined to think we have an even chance of carrying Kentucky."

The President said that there seemed to be some doubt through the country concerning the meaning of the word, "frazzle," which he used recently in connection with the campaign, by saying, "We've got them beaten to a frazzle." He explained that it was a common word in the South and he had used it when he was a boy.

"To those who do not know what I meant," said the President, "the best definition I can give to the word is to refer to the election returns."

The Urchin Got Even.

The busy man stopped before an office building and leaped from his carriage. At the same moment an ambitious urchin ran forward and piped: "Hey, mister, kin I hold yer horse?" "No, you can't!" snapped the busy man. "Won't charge y' much," insisted the urchin. "I don't care about the charge," impatiently responded the man, throwing a blanket over his bony steed. "My horse will not run away." "Gee, mister, I didn't think he'd run away!" "No?" "No. I thought he might fall down!"

PROGRESS.

CREDITORS DIG INTO DORR.

Broker Is Under Fire of Six Inquisitors.

Clash of Many Claimants on Technical Law.

Built Yacht With Customers' Good Money.

Progress is being made in the Fred Dorr bankruptcy case. Seventeen lawyers are now interested in it and Trustee Carroll Allen testified before Referee Lynn Helm yesterday that Dorr's assets are now approximately $95,000 or $100,000. Dorr's examination by his creditors was continued before the referee and six lawyers were present to see that the inquisition was properly conducted. Dorr, his former book-keeper, Fred A. Swan, his books and Trustee Allen, were examined by the various attorneys. The entire day was spent in the hearing.

The examinations were all preliminary to establishing three grades of claims that are likely to defer the settlement of the case, while they are being passed on by the courts. Some creditors who bought stocks and paid in full for them, or sold stocks for which Dorr was paid in full, and who got nothing but honorable mention in his books, are seeking to establish their claims as trusts and hold they are to be preferred and paid in full before the other claims are considered.

Then there are the grain margin transactions, few in number, but mountainous in aggregate value, for the claim of George C. Crenshaw alone amounts to $90,000. It is based on the undeveloped profits of his buy of over half a million bushels of July corn and is opposed by other creditors on the ground that it is a gambling debt, as it was a marginal deal.

Then there are stock margin claims, amounting to many thousands, in which the question is largely the same as in the grain transactions.

This three-cornered array of claims and incidental attorneys is advancing on Referee Helm and he will be asked to decide many knotty questions of bankruptcy law before the year is out.

SEEK PREFERENCE.

Yesterday Dorr, his books and the trustee were examined as to the claims of J. D. Spurgeon, who bought fifty shares of Mohawk Copper for $4500 through Dorr; Robert Pitcairn, Jr., who sold stocks through Dorr and carried the check for them in his pocket until Dorr's bank account was exhausted; J. Frank Walters, Mrs. S. A. Appold and Homer Laughlin, Jr. All ask to be made special preferred creditors for large amounts. The attorneys for the trustee resist this and Referee Allen yesterday gave W. A. Gray, representing Laughlin, and R. J. Hickeox, representing the trustee, each ten days in which to file briefs as to how the claims should be treated.

Trustee Allen was put on the stand, and was asked by Judge Gray what the assets now in his possession, and likely to be, would aggregate.

"From $95,000 to $100,000," replied Mr. Allen.

The assets reported by Expert Rohne were tabulated, and footed $142,000.

It also developed through the examination of Mr. Allen that Dorr has not yet assigned his stock exchange seats, estimated to be worth $75,000, to the trustee. Mr. Allen said Dorr's attorney had promised the assignment. The value of these seats is the creditor's chief hope of some reimbursement.

From Dorr Judge Gray gleaned the information that the New York Stock Exchange membership is obligated about $14,000 to Harris, Winthrop & Co., New York brokers, who also hold St. Paul stocks of greater value as security. It made no difference to the estate, Mr. Allen explained, which the eastern brokers elected to retain for their account wint Dorr.

HOW YACHT WAS PAID FOR.

Another interesting fact brought out by Judge Gray's probe was the fact that Dorr's yacht, the Yankee Girl, that is riding at anchor in San Pedro harbor, cost him about $30,000. It is listed in the assets at $10,000, although only a year old.

"Was this yacht paid for out of your business?" asked Judge Gray.

"It was," said Dorr.

Dorr's examination did not always seem illuminating to the lawyers. When he was asked if he could say from his books and accounts what his account with Harris, Winthrop & Co. was on July 22, he said he could not. The attorney wanted to know whether he owed that firm or whether it owed him. Dorr's answer was an explanation of "ifs" concerning his "long" and "short" account, and how while he might be $500,000 to the bad, he might be $100,000 to the good. The attorney finally gave it up.

Referee Allen continued Dorr's examination until November 18. Dorr is to have a preliminary hearing before Justice Summerfield tomorrow morning on the charge of embezzlement made by a Pasadena creditor. Next week he is due to appear before Judge Cabaniss, at San Francisco, on the charge of embezzlement, preferred there by Capt. H. H. Norwood.

SUNDAY-SCHOOL TEACHERS.

At the meeting of the Los Angeles Graded Union yesterday in Children's Hall, Auditorium building, a new section was established for teachers of children above the junior age. Mrs. Ada Bryant, of J.O.C. fame, was secured as leader of the section and it offers an excellent opportunity for teachers to study her successful methods. The union meets every Wednesday morning at 9:45 o'clock.

JAPAN AND CHINA FRIENDS.

TOKIO, Nov. 4.—Tank Shao Yi, special Chinese envoy to the United States from China, will sail for San Francisco on the Mongolia tomorrow, accompanied by a large suite.

During his visit to Japan the envoy has been the recipient of much attention. In a public speech he said that the world had been mistaken in thinking that China was even slightly unfriendly to Japan. He asserted that a perfect understanding existed between the two countries regarding their policies, especially in Manchuria, and that all questions at issue between the two nations would be settled amicably.

100 Beautiful Costumes and Fancy Dresses
Just About Half Price

These costumes and dresses were made up to our special order for our "Formal Grand Opening" a few weeks since. Through an unavoidable delay the maker was unable to deliver them to us at the specified time. According to contract this meant a cancellation of the order. The maker was not in a condition financially to keep these costumes and dresses with the chance of disposing of a few at a time, as but few firms in the country are large enough to handle such an order as placed by Hamburger's. He finally agreed for "spot cash" to accept an amount which was practically half the original price. The goods are here. Came in Monday by express. Shown for the first time Thursday. Every value is just as stated. Even at these very small prices you won't appreciate the real beauty and elegance of these costumes and dresses without seeing them. We expect the largest crowd ever seen in our cloak and suit department Thursday. Come early. Here's the way we're going to sell them.
